FORM 10-Q

REALTY INCOME CORP - O

Filed: October 29, 2015 (period: September 30, 2015)

Quarterly report with a continuing view of a company's financial position

The Monthly Dividend Company®

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2015, or

Transition report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number 1-13374

REALTY INCOME CORPORATION

(Exact name of registrant as specified in its charter)

Maryland

(State or Other Jurisdiction of
Incorporation or Organization)

33-0580106

(IRS Employer Identification
Number)

11995 El Camino Real, San Diego, California 92130

(Address of Principal Executive Offices)

Registrant's telephone number, including area code: **(858) 284-5000**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 249,600,461 shares of common stock outstanding as of October 22, 2015.

The accompanying notes to consolidated financial statements are an integral part of these statements.

REALTY INCOME CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2015
(unaudited)

1. Management Statement

The consolidated financial statements of Realty Income Corporation ("Realty Income", the "Company", "we", "our" or "us") were prepared from our books and records without audit and include all adjustments (consisting of only normal recurring accruals) necessary to present a fair statement of results for the interim periods presented. Readers of this quarterly report should refer to our audited consolidated financial statements for the year ended December 31, 2014, which are included in our 2014 Annual Report on Form 10-K, as certain disclosures that would substantially duplicate those contained in the audited financial statements have not been included in this report.

At September 30, 2015, we owned 4,473 properties, located in 49 states and Puerto Rico, containing over 74.8 million leasable square feet.

2. Summary of Significant Accounting Policies and Procedures and Recent Accounting Pronouncements

A. The accompanying consolidated financial statements include the accounts of Realty Income and other entities for which we make operating and financial decisions (i.e., control), after elimination of all material intercompany balances and transactions. We consolidate entities that we control and record a noncontrolling interest for the portion that we do not own. Noncontrolling interest that was created or assumed as part of a business combination was recognized at fair value as of the date of the transaction (see note 11). We have no unconsolidated investments.

B. We have elected to be taxed as a real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended. We believe we have qualified and continue to qualify as a REIT. Under the REIT operating structure, we are permitted to deduct dividends paid to our stockholders in determining our taxable income. Assuming our dividends equal or exceed our net income, we generally will not be required to pay federal corporate income taxes on such income. Accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements, except for federal income taxes of our taxable REIT subsidiaries. The income taxes recorded on our consolidated statements of income represent amounts paid by Realty Income for city and state income and franchise taxes.

C. We recognize an allowance for doubtful accounts relating to accounts receivable for amounts deemed uncollectible. We consider tenant specific issues, such as financial stability and ability to pay rent, when determining collectability of accounts receivable and appropriate allowances to record. The allowance for doubtful accounts was \$607,000 at September 30, 2015 and \$765,000 at December 31, 2014.

D. We assign a portion of goodwill to our applicable property sales, which results in a reduction of the carrying amount of our goodwill. In order to allocate goodwill to the carrying amount of properties that we sell, we utilize a relative fair value approach based on the original methodology for assigning goodwill. As we sell properties, our goodwill will likely continue to gradually decrease over time. During our tests for impairment of goodwill during the second quarters of 2015 and 2014, we determined that the estimated fair values of our reporting units exceeded their carrying values. We did not have an impairment on our existing goodwill in 2015 or 2014.

E. In April 2015, the Financial Accounting Standards Board, or FASB, issued ASU 2015-03, which amends Topic 835, *Other Presentation Matters*. The amendments in this ASU require that debt issuance costs be reported on the balance sheet as a direct reduction of the face amount of the debt instrument they relate to, and should not be classified as a deferred charge, as was previously required under the Accounting Standards Codification. ASU 2015-03 is effective, on a retrospective basis, for interim and annual periods beginning after December 15, 2015; early adoption is permitted. We have not yet adopted this ASU and do not expect it to have a material impact on our consolidated financial statements.

In September 2015, FASB, issued ASU 2015-16, which amends Topic 805, *Business Combinations*. The amendments in this ASU require that we recognize purchase price allocation adjustments that are identified during the measurement period in the reporting period in which the adjustment amounts are determined, and

[Table of Contents](#)

eliminate the requirement to retrospectively account for these adjustments. ASU 2015-16 is effective, on a prospective basis, for interim and annual periods beginning after December 15, 2015; early adoption is permitted. We have chosen to early adopt ASU 2015-16 for the three- and nine-months ended September 30, 2015 and it did not have a material impact on our consolidated financial statements.

3. Supplemental Detail for Certain Components of Consolidated Balance Sheets

A. Acquired lease intangible assets, net, consist of the following (dollars in thousands) at:	September 30, 2015	December 31, 2014
Acquired in-place leases	\$ 1,046,040	\$ 1,005,244
Accumulated amortization of acquired in-place leases	(242,183)	(177,722)
Acquired above-market leases	296,196	252,581
Accumulated amortization of acquired above-market leases	(56,499)	(40,379)
	<u>\$ 1,043,554</u>	<u>\$ 1,039,724</u>

Common stock distributions	\$ 45,447	\$ 41,268
Preferred stock dividends	2,257	2,257
Noncontrolling interests distributions	140	150
	<u>\$ 47,844</u>	<u>\$ 43,675</u>
D. Accounts payable and accrued expenses consist of the following (dollars in thousands) at:	September 30, 2015	December 31, 2014
Notes payable - interest payable	\$ 33,987	\$ 63,919
Property taxes payable	19,181	11,634
Accrued costs on properties under development	11,944	18,011
Mortgages, term loans, credit line - interest payable and interest rate swaps	11,337	4,569
Other items	20,770	25,154
	<u>\$ 97,219</u>	<u>\$ 123,287</u>
E. Acquired lease intangible liabilities, net, consist of the following (dollars in thousands) at:	September 30, 2015	December 31, 2014
Acquired below-market leases	\$ 274,739	\$ 243,025
Accumulated amortization of acquired below-market leases	(33,611)	(22,556)
	<u>\$ 241,128</u>	<u>\$ 220,469</u>
F. Other liabilities consist of the following (dollars in thousands) at:	September 30, 2015	December 31, 2014
Rent received in advance	\$ 26,313	\$ 36,122
Security deposits	6,051	5,876
Capital lease obligations	4,629	4,397
Preferred units issued upon acquisition of ARCT	-	6,750
	<u>\$ 36,993</u>	<u>\$ 53,145</u>

4. Investments in Real Estate

We acquire land, buildings and improvements necessary for the successful operations of commercial tenants.

A. Acquisitions during the First Nine Months of 2015 and 2014

During the first nine months of 2015, we invested \$1.1 billion in 195 new properties and properties under development or expansion with an initial weighted average contractual lease rate of 6.5%. The 195 new properties and properties under development or expansion are located in 36 states, will contain approximately 5.1 million leasable square feet, and are 100% leased with a weighted average lease term of 16.7 years. The tenants occupying the new properties operate in 18 industries and the property types consist of 87.0% retail and 13.0% industrial, based on rental revenue. None of our investments during 2015 caused any one tenant to be 10% or more of our total assets at September 30, 2015.

The \$1.1 billion invested during the first nine months of 2015 was allocated as follows: \$214.8 million to land, \$780.8 million to buildings and improvements, \$86.6 million to intangible assets related to leases, and \$27.2 million to intangible liabilities related to leases and other assumed liabilities. There was no contingent consideration associated with these acquisitions.

The properties acquired during the first nine months of 2015 generated total revenues of \$25.3 million and income from continuing operations of \$12.6 million.

Of the \$1.1 billion we invested during the first nine months of 2015, \$117.2 million of the purchase price allocation is based on a preliminary measurement of fair value that is subject to change. The allocation for these properties represents our current best estimate of fair value and we expect to finalize the valuations and complete the purchase price allocations in 2015. During the first nine months of 2015, we finalized the purchase price allocations for \$147.1 million invested in the fourth quarter of 2014. There were no material changes to our consolidated balance sheets or income statements as a result of these purchase price allocations being finalized.

In comparison, during the first nine months of 2014, we invested \$1.24 billion in 439 new properties and properties under development or expansion with an initial weighted average contractual lease rate of 7.1%. The 439 new properties and properties under development or expansion, were located in 42 states, contain over 8.5 million leasable square feet and were 100% leased with a weighted average lease term of 12.6 years. The tenants occupying the new properties operated in 27 industries and the property types consisted of 85.6% retail, 7.2% industrial and 7.2% office, based on rental revenue.

The \$1.24 billion invested during the first nine months of 2014 was allocated as follows: \$240.1 million to land, \$861.9 million to buildings and improvements, \$202.0 million to intangible assets related to leases, \$901,000 to other assets, net, and \$60.5 million to intangible liabilities related to leases and other assumed liabilities. We also recorded net mortgage premiums of \$604,000 associated with the \$166.7 million of mortgages acquired during the first nine months of 2014. There was no contingent consideration associated with these acquisitions.

The properties acquired during the first nine months of 2014 contributed total revenues of \$47.3 million and income from continuing operations of \$19.2 million for the nine months ended September 30, 2014.

The estimated initial weighted average contractual lease rate for a property is generally computed as estimated contractual net operating income, which, in the case of a net leased property, is equal to the aggregate base rent for the first full year of each lease, divided by the total cost of the property. Since it is possible that a tenant could default on the payment of contractual rent, we cannot provide assurance that the actual return on the funds invested will remain at the percentages listed above.

In the case of a property under development or expansion, the contractual lease rate is generally fixed such that rent varies based on the actual total investment in order to provide a fixed rate of return. When the lease does not provide for a fixed rate of return on a property under development or expansion, the estimated initial weighted average contractual lease rate is computed as follows: estimated net operating income (determined by the lease) for the first full year of each lease, divided by our projected total investment in the property, including land, construction and capitalized interest costs. Of the \$1.1 billion we invested during the first nine months of 2015, \$37.1 million was invested in 30 properties under development or expansion with an estimated initial weighted average contractual lease rate of 9.9%. Of the \$1.24 billion we invested during the first nine months of 2014, \$69.0 million was invested in 32 properties under development or expansion with an estimated initial weighted average contractual lease rate of 8.5%.

[Table of Contents](#)

B. Acquisition Transaction Costs

Acquisition transaction costs of \$368,000 and \$589,000 were recorded to general and administrative expense on our consolidated statements of income during the first nine months of 2015 and 2014, respectively.

C. Investments in Existing Properties

During the first nine months of 2015, we capitalized costs of \$5.9 million on existing properties in our portfolio, consisting of \$555,000 for re-leasing costs, \$3.8 million for recurring capital expenditures and \$1.5 million for non-recurring building improvements. In comparison, during the first nine months of 2014, we capitalized costs of \$4.5 million on existing properties in our portfolio.

D. Properties with Existing Leases

Of the \$1.1 billion we invested during the first nine months of 2015, approximately \$304.2 million was used to acquire 47 properties with existing leases. In comparison, of the \$1.24 billion we invested in the first nine months of 2014, approximately \$949.6 million was used to acquire 180 properties with existing leases. The value of the in-place and above-market leases is recorded to acquired lease intangible assets, net on our consolidated balance sheets, and the value of the below-market leases is recorded to acquired lease intangible liabilities, net on our consolidated balance sheets.

The values of the in-place leases are amortized as depreciation and amortization expense. The amounts amortized to expense for all of our in-place leases, for the first nine months of 2015 and 2014, were \$65.5 million and \$62.1 million, respectively.

The values of the above-market and below-market leases are amortized over the term of the respective leases, including any bargain renewal options, as an adjustment to rental revenue on our consolidated statements of income. The amounts amortized as a net decrease to rental revenue for capitalized above-market and below-market leases for the first nine months of 2015 and 2014 were \$5.8 million and \$6.4 million, respectively. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease would be recorded to revenue or expense as appropriate.

The following table presents the estimated impact during the next five years and thereafter related to the amortization of the acquired above-market and below-market lease intangibles and the amortization of the in-place lease intangibles for properties held for investment at September 30, 2015 (in thousands):

	Net increase (decrease) to rental revenue	Increase to amortization expense
2015	\$ (2,090)	\$ 22,242
2016	(8,353)	88,878
2017	(8,296)	87,689
2018	(8,049)	85,194
2019	(7,059)	75,130
Thereafter	35,278	444,724
Totals	\$ 1,431	\$ 803,857

5. Credit Facility

In June 2015, we entered into a new \$2 billion unsecured revolving credit facility, or our new credit facility, which replaced our \$1.5 billion credit facility that was scheduled to expire in May 2016. The initial term of our new credit facility expires in June 2019 and includes, at our option, two six-month extensions. Our new credit facility has a \$1.0 billion accordion expansion option. Under our new credit facility, our current investment grade credit ratings provide for financing at the London Interbank Offered Rate, commonly referred to as LIBOR, plus 0.90% with a facility commitment fee of 0.15%, for all-in drawn pricing of 1.05% over LIBOR. The borrowing rate is subject to an interest rate floor. We also have other interest rate options available to us under our new credit facility. Our new credit facility is unsecured and, accordingly, we have not pledged any assets as collateral for this obligation.

[Table of Contents](#)

At September 30, 2015, credit facility origination costs of \$11.0 million are included in other assets, net on our consolidated balance sheet. This balance includes \$9.1 million of new credit facility origination costs incurred during the second and third quarters of 2015 as a result of entering into our new credit facility. These costs, as well as the costs incurred as a result of entering into our previous credit facilities, are being amortized over the remaining term of our new credit facility.

At September 30, 2015, we had a borrowing capacity of \$1.56 billion available on our new credit facility (subject to customary conditions to borrowing) and an outstanding balance of \$439.0 million, as compared to an outstanding balance of \$223.0 million at December 31, 2014.

The weighted average interest rate on outstanding borrowings under our credit facilities was 1.2% during the first nine months of 2015 and 2014. At September 30, 2015, the effective interest rate was 1.3%. Our new and previous credit facilities are and were subject to various leverage and interest coverage ratio limitations, and at September 30, 2015, we remain in compliance with the covenants on our new credit facility.

6. Mortgages Payable

During the first nine months of 2015, we made \$140.8 million in principal payments, including the repayment of ten mortgages in full for \$135.3 million. No mortgages were assumed during the first nine months of 2015.

During the first nine months of 2014, we made \$77.6 million in principal payments, including the repayment of five mortgages in full for \$72.0 million, and assumed mortgages totaling \$166.7 million, excluding net premiums. The mortgages are secured by the properties on which the debt was placed. We expect to pay off the mortgages as soon as prepayment penalties make it economically feasible to do so.

During the first nine months of 2014, aggregate net premiums totaling \$604,000 were recorded upon assumption of the mortgages for above-market interest rates. Amortization of our net premiums is recorded as a reduction to interest expense over the remaining term of the respective mortgages, using a method that approximates the effective-interest method.

These mortgages contain customary covenants, such as limiting our ability to further mortgage each applicable property or to discontinue insurance coverage without the prior consent of the lender. At September 30, 2015, we remain in compliance with these covenants.

We did not incur any deferred financing costs on our mortgages assumed in the first nine months of 2014. The balance of our deferred financing costs, which are classified as part of other assets, net, on our consolidated balance sheets, was \$619,000 at September 30, 2015 and \$827,000 at December 31, 2014. These costs are being amortized over the remaining term of each mortgage.

The following is a summary of all our mortgages payable as of September 30, 2015 and December 31, 2014, respectively (dollars in thousands):

As Of	Number of Properties ⁽¹⁾	Weighted Average Stated Interest Rate ⁽²⁾	Weighted Average Effective Interest Rate ⁽³⁾	Weighted Average Remaining Years Until Maturity	Remaining Principal Balance	Unamortized Premium Balance, net	Mortgage Payable Balance
9/30/15	192	4.9%	4.0%	3.6	\$ 695,186	\$ 10,955	\$ 706,141
12/31/14	241	5.0%	4.0%	3.7	\$ 836,011	\$ 16,564	\$ 852,575

⁽¹⁾ At September 30, 2015, there were 47 mortgages on 192 properties, while at December 31, 2014, there were 57 mortgages on 241 properties. The mortgages require monthly payments, with principal payments due at maturity. The mortgages are at fixed interest rates, except for four mortgages on 13 properties totaling \$51.0 million at September 30, 2015, including net unamortized discounts. At December 31, 2014, five mortgages on 14 properties totaling \$74.5 million, including net unamortized discounts, were at variable interest rates. After factoring in arrangements which limit our exposure to interest rate risk and effectively fix our per annum interest rates, our variable rate mortgage debt includes two mortgages totaling \$15.5 million at September 30, 2015, and three mortgages totaling \$39.1 million at December 31, 2014.

⁽²⁾ Stated interest rates ranged from 2.0% to 6.9% at September 30, 2015 and December 31, 2014.

⁽³⁾ Effective interest rates ranged from 2.2% to 8.9% at September 30, 2015, while effective interest rates ranged from 2.2% to 9.0% at December 31, 2014.

[Table of Contents](#)

The following table summarizes the maturity of mortgages payable, excluding net premiums of \$11.0 million, as of September 30, 2015 (dollars in millions):

Year of Maturity		
2015	\$	1.9
2016		225.6
2017		142.7
2018		15.3
2019		26.2
Thereafter		283.5
Totals	\$	695.2

7. Term Loans

In June 2015, in conjunction with entering into our new credit facility, we entered into a \$250 million senior unsecured term loan maturing on June 30, 2020. Borrowing under this term loan bears interest at the current one month LIBOR, plus 0.95%. In conjunction with this term loan, we also entered into an interest rate swap which effectively fixes our per annum interest rate on this term loan at 2.67%.

In January 2013, in conjunction with our acquisition of American Realty Capital Trust, Inc., or ARCT, we entered into a \$70 million senior unsecured term loan maturing January 21, 2018. Borrowing under this term loan bears interest at the current one month LIBOR, plus 1.2%. In conjunction with this term loan, we also entered into an interest rate swap which effectively fixes our per annum interest rate on this term loan at 2.15%.

Deferred financing costs of \$1.2 million incurred in conjunction with the \$250 million term loan and \$303,000 incurred in conjunction with the \$70 million term loan are being amortized over the remaining terms of each term loan. The net balance of these deferred financing costs, which was \$1.2 million at September 30, 2015, and \$187,000 at December 31, 2014, is included in other assets, net on our consolidated balance sheets.

8. Notes Payable

A. General

Our senior unsecured notes and bonds consisted of the following, sorted by maturity date (dollars in millions):

	September 30, 2015	December 31, 2014
5.5% notes, issued in November 2003 and due in November 2015	\$ 150	\$ 150
5.95% notes, issued in September 2006 and due in September 2016	275	275
5.375% notes, issued in September 2005 and due in September 2017	175	175
2.0% notes, issued in October 2012 and due in January 2018	350	350
6.75% notes, issued in September 2007 and due in August 2019	550	550
5.75% notes, issued in June 2010 and due in January 2021	250	250
3.25% notes, issued in October 2012 and due in October 2022	450	450
4.65% notes, issued in July 2013 and due in August 2023	750	750
3.875% notes, issued in June 2014 and due in July 2024	350	350
4.125% notes, issued in September 2014 and due in October 2026	250	250
5.875% bonds, \$100 issued in March 2005 and \$150 issued in June 2011, both due in March 2035	250	250
Total principal amount	3,800	3,800
Unamortized original issuance discounts	(14)	(15)
	<u>\$ 3,786</u>	<u>\$ 3,785</u>

[Table of Contents](#)

The following table summarizes the maturity of our notes and bonds payable as of September 30, 2015, excluding unamortized original issuance discounts (dollars in millions):

Year of Maturity	Notes and Bonds
2015	\$ 150
2016	275
2017	175
2018	350
2019	550
Thereafter	2,300
Totals	\$ 3,800

As of September 30, 2015, the weighted average interest rate on our notes and bonds payable was 4.8% and the weighted average remaining years until maturity was 6.5 years.

B. Note Issuance

In September 2014, we issued \$250 million of 4.125% senior unsecured notes due October 2026, or the 2026 Notes. The price to the investors for the 2026 Notes was 99.499% of the principal amount for an effective yield of 4.178% per annum. A portion of the total net proceeds of approximately \$246.4 million from this offering were used to repay all outstanding borrowings under our credit facility, and the remaining proceeds were used for other general corporate purposes, including additional property acquisitions. Interest is paid semiannually on the 2026 Notes.

In June 2014, we issued \$350 million of 3.875% senior unsecured notes due July 2024, or the 2024 Notes. The price to the investors for the 2024 Notes was 99.956% of the principal amount for an effective yield of 3.88% per annum. The total net proceeds of approximately \$346.7 million from these offerings were used to repay a portion of the outstanding borrowings under our credit facility. Interest is paid semiannually on the 2024 Notes.

9. Redemption of Preferred Stock

In September 2014, we issued an irrevocable notice of redemption for all 8.8 million shares of our 6.75% Monthly Income Class E Preferred Stock for \$25 per share, plus accrued dividends. The redemption occurred in October 2014. We incurred a charge of \$6.0 million, representing the Class E preferred stock original issuance costs that we paid in 2006.

10. Issuance of Common Stock

In April 2015, we issued 5,500,000 shares of common stock. After underwriting discounts and other offering costs of \$1.4 million, the net proceeds of \$276.4 million were used to repay borrowings under our credit facility.

In April 2014, we issued 13,800,000 shares of common stock, including 1,800,000 shares purchased by the underwriters upon the exercise of their option to purchase additional shares. After underwriting discounts and other offering costs of \$22.8 million, the net proceeds of \$528.6 million were used to repay borrowings under our credit facility.

11. Noncontrolling Interests

In January 2013, we completed our acquisition of ARCT. Equity issued as consideration for this transaction included common and preferred partnership units issued by Tau Operating Partnership, L.P., or Tau Operating Partnership, the consolidated subsidiary which owns properties acquired through the ARCT acquisition. Realty Income and its subsidiaries hold a 99.4% interest in Tau Operating Partnership, and consolidate the entity.

In June 2013, we completed the acquisition of a portfolio of properties by issuing common partnership units in a newly formed entity, Realty Income, L.P. The units were issued as consideration for the acquisition. At September 30, 2015, the remaining units from this issuance represent a 1.7% ownership in Realty Income, L.P. Realty Income holds the remaining 98.3% interests in this entity and consolidates the entity.

[Table of Contents](#)

A. Neither of the common partnership units have voting rights. Both common partnership units are entitled to monthly distributions equal to the amount paid to common stockholders of Realty Income, and are redeemable in cash or Realty Income common stock, at our option, and at a conversion ratio of one to one, subject to certain exceptions. Noncontrolling interests with redemption provisions that permit the issuer to settle in either cash or common stock, at the option of the issuer, were evaluated to determine whether temporary or permanent equity classification on the balance sheet was appropriate. We determined that the units meet the requirements to qualify for presentation as permanent equity.

The following table represents the change in the carrying value of all noncontrolling interests through September 30, 2015 (dollars in thousands):

	Tau Operating Partnership units ⁽¹⁾	Realty Income, L.P. units ⁽²⁾	Total
Carrying value at December 31, 2014	\$ 13,067	\$ 14,631	\$ 27,698
Reallocation of equity	836	(1,887)	(1,051)
Redemptions	-	(2,121)	(2,121)
Distributions	(541)	(716)	(1,257)
Allocation of net income	195	724	919
Carrying value at September 30, 2015	<u>\$ 13,557</u>	<u>\$ 10,631</u>	<u>\$ 24,188</u>

	Tau Operating Partnership units ⁽¹⁾	Realty Income, L.P. units ⁽²⁾	Total
Carrying value at December 31, 2013	\$ 13,489	\$ 22,422	\$ 35,911
Reallocation of equity	-	(6,647)	(6,647)
Redemptions	-	(1,032)	(1,032)
Distributions	(695)	(1,144)	(1,839)
Allocation of net income	273	1,032	1,305
Carrying value at December 31, 2014	<u>\$ 13,067</u>	<u>\$ 14,631</u>	<u>\$ 27,698</u>

⁽¹⁾ 317,022 Tau Operating Partnership units were issued on January 22, 2013 and remained outstanding as of September 30, 2015 and December 31, 2014.

⁽²⁾ 534,546 Realty Income, L.P. units were issued on June 27, 2013, and 499,546 units were outstanding as of December 31, 2014 and 419,546 remain outstanding as of September 30, 2015.

During the first nine months of 2015, we recorded net equity reclassification adjustments of \$1.1 million between noncontrolling interests and additional paid in capital to adjust the carrying value of noncontrolling interests to be in-line with their equity ownership interests in the entities. During 2014, we recorded an equity reclassification adjustment of \$6.6 million between noncontrolling interests and additional paid in capital to adjust the carrying value of the Realty Income, L.P. noncontrolling interests to be in-line with their equity ownership interest in the entity.

B. The Tau Operating Partnership preferred units were recorded at fair value as of the date of acquisition. Since they were redeemable at a fixed price on a determinable date, we initially classified them in other liabilities on our consolidated balance sheets. Payments on these preferred units were made monthly at a rate of 2% per annum and were included in interest expense. As of December 31, 2014, the preferred units had a carrying value of \$6.75 million. In January 2015, we redeemed all 6,750 Tau Operating Partnership preferred units for \$1,000 per unit, plus accrued and unpaid distributions.

12. Fair Value of Financial Instruments

Fair value is defined as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The disclosure for assets and liabilities measured at fair value requires allocation to a three-level valuation hierarchy. This valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Categorization within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

[Table of Contents](#)

We believe that the carrying values reflected in our consolidated balance sheets reasonably approximate the fair values for cash and cash equivalents, accounts receivable, escrow deposits, loans receivable, line of credit payable, term loans and all other liabilities, due to their short-term nature or interest rates and terms that are consistent with market, except for our notes receivable issued in connection with property sales, mortgages payable and our senior notes and bonds payable, which are disclosed below (dollars in millions):

	Carrying value per balance sheet		Estimated fair value
At September 30, 2015			
Notes receivable issued in connection with property sales	\$ 18.0	\$	19.7
Mortgages payable assumed in connection with acquisitions, net	706.1		713.4
Notes and bonds payable, net of unamortized original issuance discounts	3,786.4		4,001.0
At December 31, 2014			
Notes receivable issued in connection with property sales	\$ 18.3	\$	20.1
Mortgages payable assumed in connection with acquisitions, net	852.6		857.9
Notes and bonds payable, net of unamortized original issuance discounts	3,785.4		4,092.8

The estimated fair values of our notes receivable issued in connection with property sales and our mortgages payable have been calculated by discounting the future cash flows using an interest rate based upon the relevant Treasury yield curve, plus an applicable credit-adjusted spread. Because this methodology includes unobservable inputs that reflect our own internal assumptions and calculations, the measurement of estimated fair values related to our notes receivable and mortgages payable is categorized as level three on the three-level valuation hierarchy.

The estimated fair values of our senior notes and bonds payable are based upon indicative market prices and recent trading activity of our senior notes and bonds payable. Because this methodology includes inputs that are less observable by the public and are not necessarily reflected in active markets, the measurement of the estimated fair values, related to our notes and bonds payable, is categorized as level two on the three-level valuation hierarchy.

We record interest rate swaps on the consolidated balance sheet at fair value. The fair value of our interest rate swaps are based on valuation techniques including discounted cash flow analysis on the expected cash flows of each swap, using both observable and unobservable market-based inputs, including interest rate curves. Because this methodology uses observable and unobservable inputs, the measurement of interest rate swaps is categorized as level two on the three-level valuation hierarchy.

13. Gain on Sales of Real Estate

During the third quarter of 2015, we sold eight properties for \$21.5 million, which resulted in a gain of \$6.2 million. During the first nine months of 2015, we sold 22 investment properties for \$52.0 million, which resulted in a gain of \$17.1 million. The results of operations for these properties are presented within continuing operations.

During the third quarter of 2014, we sold 11 properties for \$33.8 million, which resulted in a gain of \$11.0 million. During the first nine months of 2014, we sold 28 properties for \$53.6 million, which resulted in a gain of \$16.8 million. Only the results of operations specifically related to the properties classified as held for sale at December 31, 2013 and sold during the first nine months of 2014 have been reclassified as discontinued operations, which was \$2.6 million for the nine months ended September 30, 2014.

During the first nine months of 2015, Crest Net Lease, Inc., or Crest, did not sell any properties. During the first nine months of 2014, Crest sold one property for \$820,000, which did not result in a gain. The results of operations for this property were reclassified as discontinued operations.

14. Discontinued Operations

During the first quarter of 2014, the Financial Accounting Standards Board issued guidance that changed the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have, or will have, a major effect on an entity's operations and financial results. We early adopted the requirements of this accounting pronouncement in the first quarter of 2014.

Starting with the first quarter of 2014, the results of operations for all qualifying disposals and properties classified as held for sale that were not previously reported in discontinued operations in our 2013 Annual Report on Form 10-K are presented within income from continuing operations on our consolidated statements of income. Prior to the date of adoption of Accounting Standards Update 2014-08 (ASU 2014-08), which amends Topic 205, *Presentation of Financial Statements*, and Topic 360, *Property, Plant, and Equipment*, we reported, in discontinued operations, the results of operations of properties that had either been disposed of or classified as held for sale in financial statements issued. For the nine months ended September 30, 2014, we recorded income from discontinued operations of \$3.1 million, or \$0.01 per common share, basic and diluted.

15. Impairments

We review long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. A provision is made for impairment if estimated future operating cash flows (undiscounted and without interest charges) plus estimated disposition proceeds (undiscounted) are less than the current book value of the property. Key factors that we utilize in this analysis include projected rental rates, estimated holding periods, historical sales and releases, capital expenditures and property sales capitalization rates. If a property is classified as held for sale, it is carried at the lower of carrying cost or estimated fair value, less estimated cost to sell, and depreciation of the property ceases.

During the third quarter of 2015, we recorded total provisions for impairment of \$3.9 million on one property classified as held for sale, one property classified as held for investment, and two sold properties in the following industries: one in the pet supplies and services industry and three in the restaurant-casual dining industry. For the first nine months of 2015, we recorded total provisions for impairment of \$9.2 million on four properties classified as held for sale, three properties classified as held for investment, four sold properties, and one property disposed of other than by sale in the following industries: one in the health and fitness industry, one in the pet supplies and services industry, nine in the restaurant-casual dining industry, and one among the industry we classify as "other." These properties were not previously classified as held for sale in financial statements issued prior to the date of adoption of ASU 2014-08; accordingly, the provisions for impairment are included in income from continuing operations on our consolidated statement of income for the three and nine months ended September 30, 2015.

In comparison, for the third quarter of 2014, we recorded total provisions for impairment of \$495,000 on four sold properties in the following industries: one in the convenience stores industry, two in the home improvement industry, and one in the restaurant-casual dining industry. For the first nine months of 2014, we recorded total provisions for impairment of \$2.7 million on nine sold properties in the following industries: one in the consumer electronics industry, one in the convenience stores industry, one in the home furnishings industry, two in the home improvement industry, and four in the restaurant-casual dining industry. These properties were not previously classified as held for sale in financial statements issued prior to the date of adoption of ASU 2014-08; accordingly, these provisions for impairment are included in income from continuing operations on our consolidated statements of income for the three and nine months ended September 30, 2014.

16. Distributions Paid and Payable

A. Common Stock

We pay monthly distributions to our common stockholders. The following is a summary of monthly distributions paid per common share for the first nine months of 2015 and 2014:

Month	2015	2014
January	\$ 0.1834167	\$ 0.1821667
February	0.1890000	0.1821667
March	0.1890000	0.1821667
April	0.1895000	0.1824792
May	0.1895000	0.1824792
June	0.1895000	0.1824792
July	0.1900000	0.1827917
August	0.1900000	0.1827917
September	0.1900000	0.1827917
Total	\$ 1.6999167	\$ 1.6423128

At September 30, 2015, a distribution of \$0.1905 per common share was payable and was paid in October 2015.

B. Class E Preferred Stock

Prior to the redemption of the Class E preferred stock in October 2014, dividends of \$0.140625 per share were paid monthly in arrears on the Class E preferred stock. During the first nine months of 2014, we paid six monthly dividends to holders of our Class E preferred stock totaling \$1.265625 per share, or \$11.1 million.

C. Class F Preferred Stock

The Class F preferred stockholders receive cumulative distributions at a rate of 6.625% per annum on the \$25.00 per share liquidation preference (equivalent to \$1.65625 per annum per share). Dividends of \$0.138021 per share are paid monthly in arrears on the Class F preferred stock. During each of the first nine months of 2015 and 2014, we paid nine monthly dividends to holders of our Class F preferred stock totaling \$1.242189 per share, or \$20.3 million, and at September 30, 2015, a monthly dividend of \$0.138021 per share was payable and was paid in October 2015. We are current in our obligations to pay dividends on our Class F preferred stock.

17. Net Income Per Common Share

Basic net income per common share is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding during each period. Diluted net income per common share is computed by dividing net income available to common stockholders, plus income attributable to dilutive shares and convertible common units, for the period by the weighted average number of common shares that would have been outstanding assuming the issuance of common shares for all potentially dilutive common shares outstanding during the reporting period.

[Table of Contents](#)

The following is a reconciliation of the denominator of the basic net income per common share computation to the denominator of the diluted net income per common share computation.

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Weighted average shares used for the basic net income per share computation	236,211,706	222,061,661	231,434,521	216,804,815
Incremental shares from share-based compensation	211,214	174,410	111,224	25,198
Weighted average partnership common units convertible to common shares that were dilutive	317,022	-	317,022	317,022
Weighted average shares used for diluted net income per share computation	236,739,942	222,236,071	231,862,767	217,147,035
Unvested shares from share-based compensation that were anti-dilutive	132,948	45,654	107,879	58,654
Weighted average partnership common units convertible to common shares that were anti-dilutive	419,546	841,568	426,469	529,381

18. Supplemental Disclosures of Cash Flow Information

Cash paid for interest was \$201.4 million in the first nine months of 2015 and \$183.1 million in the first nine months of 2014.

Interest capitalized to properties under development was \$463,000 in the first nine months of 2015 and \$383,000 in the first nine months of 2014.

Cash paid for income taxes was \$3.1 million in the first nine months of 2015 and \$3.5 million in the first nine months of 2014.

The following non-cash activities are included in the accompanying consolidated financial statements:

- A. See note 15 for a discussion of impairments recorded by Realty Income for the first nine months of 2015 and 2014.
- B. See note 9 for a discussion of the \$6.0 million excess of redemption value over carrying value of preferred shares subject to redemption charge recorded by Realty Income during the third quarter and first nine months of 2014.
- C. During the first nine months of 2014, we acquired mortgages payable to third-party lenders of \$166.7 million, recorded \$604,000 of net premiums, and recorded \$901,000 of interest rate swap value to other assets, net, related to property acquisitions.
- D. During the first nine months of 2014, we applied \$48.9 million of loans receivable to the purchase price of five acquired properties.
- E. Accrued costs on properties under development resulted in an increase in buildings and improvements and accounts payable of \$4.8 million at September 30, 2014.

19. Segment Information

We evaluate performance and make resource allocation decisions on an industry by industry basis. For financial reporting purposes, we have grouped our tenants into 48 activity segments. All of the properties are incorporated into one of the applicable segments. Because almost all of our leases require the tenant to pay operating expenses, rental revenue is the only component of segment profit and loss we measure.

[Table of Contents](#)

The following tables set forth certain information regarding the properties owned by us, classified according to the business of the respective tenants (dollars in thousands):

20. Common Stock Incentive Plan

In 2012, our Board of Directors adopted and stockholders approved the Realty Income Corporation 2012 Incentive Award Plan, or the 2012 Plan, to enable us to motivate, attract and retain the services of directors and employees considered essential to our long-term success. The 2012 Plan offers our directors and employees an opportunity to own stock in Realty Income or rights that will reflect our growth, development and financial success. Under the terms of the 2012 plan, the aggregate number of shares of our common stock subject to options, restricted stock, stock appreciation rights, restricted stock units and other awards, will be no more than 3,985,734 shares. The 2012 Plan has a term of ten years from the date it was adopted by our Board of Directors.

The amount of share-based compensation costs recognized in general and administrative expense on our consolidated statements of income was \$2.2 million during the third quarter of 2015, \$2.2 million during the third quarter of 2014, \$7.6 million during the first nine months of 2015 and \$7.7 million during the first nine months of 2014.

[Table of Contents](#)

A. Restricted Stock

The following table summarizes our common stock grant activity under our 2012 Plan. Our outstanding restricted stock vests over periods ranging from immediately to five years.

	For the nine months ended September 30, 2015		For the year ended December 31, 2014	
	Number of shares	Weighted average price ⁽¹⁾	Number of shares	Weighted average price ⁽¹⁾
Outstanding nonvested shares, beginning of year	527,176	\$ 29.02	722,263	\$ 23.37
Shares granted	154,385	\$ 50.88	262,655	\$ 39.87
Shares vested	(165,199)	\$ 36.71	(440,348)	\$ 36.88
Shares forfeited	(24,738)	\$ 44.86	(17,394)	\$ 39.07
Outstanding nonvested shares, end of each period	<u>491,624</u>	\$ 32.07	<u>527,176</u>	\$ 29.02

⁽¹⁾ Grant date fair value.

During the first nine months of 2015, we issued 154,385 shares of common stock under the 2012 Plan. These shares vest over a five year service period, except for the annual grant of shares to our Board of Directors, totaling 28,000 shares, of which 12,000 shares vested immediately, 8,000 shares vest in one year following the grant (assuming continued service), and 8,000 shares vest over a three year service period. Not included in the table above are 10,269 restricted share units granted during the first nine months of 2015 that vest over a five year service period and have the same economic rights as shares of restricted stock.

As of September 30, 2015, the remaining unamortized share-based compensation expense related to restricted stock totaled \$15.8 million, which is being amortized on a straight-line basis over the service period of each applicable award.

Due to a historically low turnover rate, we do not estimate a forfeiture rate for our nonvested shares. Accordingly, unexpected forfeitures will lower share-based compensation expense during the applicable period. Under the terms of our 2012 Plan, we pay non-refundable dividends to the holders of our nonvested shares. Applicable accounting guidance requires that the dividends paid to holders of these nonvested shares be charged as compensation expense to the extent that they relate to nonvested shares that do not or are not expected to vest. However, since we do not estimate forfeitures given our historical trends, we did not record any compensation expense related to dividends paid in the first nine months of 2015 or 2014.

B. Performance Shares

During the first nine months of 2015, and the year ended December 31, 2014, we granted performance share awards, as well as dividend equivalent rights. The number of performance shares that vest is based on the achievement of the following performance goals:

2015 Performance Awards

Metrics	Weighting
Total shareholder return ("TSR") relative to MSCI US REIT Index	50%
TSR relative to NAREIT Freestanding Index	20%
Dividend per share growth rate	20%
Debt-to-EBITDA ratio	10%

2014 Performance Awards

Metrics	Weighting
TSR relative to MSCI US REIT Index	60%
TSR relative to NAREIT Freestanding Index	20%
Debt-to-EBITDA ratio	20%

The performance shares are earned based on our performance, and vest 50% on the first and second January 1 after the end of the three year performance period, subject to continued service. The performance period for the 2014 performance awards began on January 1, 2014 and will end on December 31, 2016. The performance period for the 2015 performance awards began on January 1, 2015 and will end on December 31, 2017.

[Table of Contents](#)

The fair value of the performance shares was estimated on the date of grant using a Monte Carlo Simulation model. The following table summarizes our performance share grant activity:

	September 30, 2015		December 31, 2014	
	Number of performance shares	Weighted average price ⁽¹⁾	Number of performance shares	Weighted average price ⁽¹⁾
Outstanding nonvested shares, beginning of year	59,405	\$ 41.46	-	\$ -
Shares granted	55,716	\$ 52.78	71,705	\$ 41.46
Shares vested	-	\$ -	(4,067)	\$ 41.46
Shares forfeited	-	\$ -	(8,233)	\$ 41.46
Outstanding nonvested shares, end of each period	<u>115,121</u>	\$ 46.94	<u>59,405</u>	\$ 41.46

⁽¹⁾ Grant date fair value.

As of September 30, 2015, the remaining share-based compensation expense related to the performance shares totaled \$3.8 million. The portion related to the market-based awards is being recognized on a straight-line basis over the service period, and the portion related to the performance-based awards is being recognized on a tranche-by-tranche basis over the service period.

21. Dividend Reinvestment and Stock Purchase Plan

We have a Dividend Reinvestment and Stock Purchase Plan, or the DRSP, to provide our common stockholders, as well as new investors, with a convenient and economical method of purchasing our common stock and reinvesting their distributions. The DRSP also allows our current stockholders to buy additional shares of common stock by reinvesting all or a portion of their distributions. The DRSP authorizes up to 26,000,000 common shares to be issued. During the first nine months of 2015, we issued 7,565,432 shares and raised approximately \$360.9 million under the DRSP. During the first nine months of 2014, we issued 1,290,872 shares and raised approximately \$56.6 million under the DRSP. From the inception of the DRSP through September 30, 2015, we have issued 12,656,940 shares and raised approximately \$579.5 million.

In 2013, we revised our DRSP to pay for a majority of the plan-related fees, which were previously paid by investors, and to institute a waiver approval process, allowing larger investors or institutions, per a formal approval process, to purchase shares at a small discount, if approved by us. During the first nine months of 2015, we issued 7,413,207 shares and raised \$353.7 million under the waiver approval process. During the first nine months 2014, we issued 1,135,897 shares and raised \$50.0 million under the waiver approval process. These shares are included in the total activity for the first nine months of 2015 and 2014 noted in the preceding paragraph.

22. Commitments and Contingencies

In the ordinary course of business, we are party to various legal actions which we believe are routine in nature and incidental to the operation of our business. We believe that the outcome of the proceedings will not have a material adverse effect upon our consolidated financial position or results of operations.

At September 30, 2015, we had commitments of \$2.3 million for re-leasing costs, recurring capital expenditures, and non-recurring building improvements. In addition, as of September 30, 2015, we had committed \$58.4 million under construction contracts, which is expected to be paid in the next twelve months.

23. Subsequent Events

In October 2015, we declared the following dividends, which will be paid in November 2015:

- \$0.1905 per share to our common stockholders and

[Table of Contents](#)

- \$0.138021 per share to our Class F preferred stockholders.

In October 2015, we issued 11,500,000 shares of common stock, including 1,500,000 shares purchased by the underwriters upon the exercise of their option to purchase additional shares. After underwriting discounts and other offering costs of \$22.1 million, a portion of the net proceeds of \$517.0 million was used to repay borrowings under our new credit facility and the remaining portion was used for other general corporate purposes, which may include acquisitions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, including the documents incorporated by reference, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended. When used in this quarterly report, the words "estimated", "anticipated", "expect", "believe", "intend" and similar expressions are intended to identify forward-looking statements. Forward-looking statements include discussions of strategy, plans, or intentions of management. Forward-looking statements are subject to risks, uncertainties, and assumptions about Realty Income Corporation, including, among other things:

- Our anticipated growth strategies;
- Our intention to acquire additional properties and the timing of these acquisitions;
- Our intention to sell properties and the timing of these property sales;
- Our intention to re-lease vacant properties;
- Anticipated trends in our business, including trends in the market for long-term, net leases of freestanding, single-tenant properties; and
- Future expenditures for development projects.

Future events and actual results, financial and otherwise, may differ materially from the results discussed in the forward-looking statements. In particular, some of the factors that could cause actual results to differ materially are:

- Our continued qualification as a real estate investment trust;
- General business and economic conditions;
- Competition;
- Fluctuating interest rates;
- Access to debt and equity capital markets;
- Continued volatility and uncertainty in the credit markets and broader financial markets;
- Other risks inherent in the real estate business including tenant defaults, potential liability relating to environmental matters, illiquidity of real estate investments, and potential damages from natural disasters;
- Impairments in the value of our real estate assets;
- Changes in the tax laws of the United States of America;
- The outcome of any legal proceedings to which we are a party or which may occur in the future; and
- Acts of terrorism and war.

Additional factors that may cause risks and uncertainties include those discussed in the sections entitled "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K, for the fiscal year ended December 31, 2014.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date that this quarterly report was filed with the Securities and Exchange Commission, or SEC. While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this quarterly report or to reflect the occurrence of unanticipated events. In light of these risks and uncertainties, the forward-looking events discussed in this quarterly report might not occur.

THE COMPANY

Realty Income, The Monthly Dividend Company®, is an S&P 500 real estate company with the primary business objective of generating dependable monthly cash dividends from a consistent and predictable level of cash flow from operations. Our monthly dividends are supported by the cash flow from our property portfolio. We have in-house acquisition, portfolio management, asset management, credit research, real estate research, legal, finance and accounting, information technology, and capital markets capabilities. Over the past 46 years, Realty Income has been acquiring and managing freestanding commercial properties that generate rental revenue under long-term net lease agreements.

Realty Income (NYSE: O) was founded in 1969, and listed on the New York Stock Exchange, or NYSE, in 1994. We elected to be taxed as a real estate investment trust, or REIT, requiring us to distribute dividends to our stockholders aggregating at least 90% of our taxable income (excluding net capital gains).

We seek to increase earnings and distributions to stockholders through active portfolio management, asset management and the acquisition of additional properties.

Generally, our portfolio and asset management efforts seek to achieve:

- Contractual rent increases on existing leases;
- Rent increases at the termination of existing leases, when market conditions permit;
- Optimum exposure to certain tenants and markets through re-leasing vacant properties and selectively selling properties;
- Maximum asset-level returns on properties re-leased and/or sold;
- Optimum value of existing portfolio by enhancing individual properties, pursuing alternative uses, and deriving ancillary revenue; and
- Investment opportunities in new asset classes for the portfolio.

At September 30, 2015, we owned a diversified portfolio:

- Of 4,473 properties;
- With an occupancy rate of 98.3%, or 4,399 properties leased and 74 properties available for lease;
- Leased to 236 different commercial tenants doing business in 47 separate industries;
- Located in 49 states and Puerto Rico;
- With over 74.8 million square feet of leasable space; and
- With an average leasable space per property of approximately 16,740 square feet, including approximately 11,580 square feet per retail property and 215,460 square feet per industrial property.

Of the 4,473 properties in the portfolio, 4,454, or 99.6%, are single-tenant properties, and the remaining are multi-tenant properties. At September 30, 2015, of the 4,454 single-tenant properties, 4,380 were leased with a weighted average remaining lease term (excluding rights to extend a lease at the option of the tenant) of approximately 10.1 years.

Investment Philosophy

We believe that owning an actively managed, diversified portfolio of commercial properties under long-term, net leases produces consistent and predictable income. A net lease typically requires the tenant to be responsible for minimum monthly rent and certain property operating expenses including property taxes, insurance, and maintenance. In addition, tenants of our properties typically pay rent increases based on: (1) increases in the consumer price index (typically subject to ceilings), (2) fixed increases, or (3) additional rent calculated as a percentage of the tenants' gross sales above a specified level. We believe that a portfolio of properties under long-term, net leases generally produces a more predictable income stream than many other types of real estate portfolios, while continuing to offer the potential for growth in rental income.

Diversification is also a key component of our investment philosophy. We believe that diversification of the portfolio by tenant, industry, geography, and, to a certain extent, property type leads to more predictable investment results for our shareholders by reducing vulnerability that can come with any single concentration. Our investment efforts have led to a diversified property portfolio that, as of September 30, 2015, consisted of 4,473 properties located in 49 states and Puerto Rico, leased to 236 different commercial tenants doing business in 47 industry segments. Each of the 47 industry segments represented in our property portfolio individually accounted for no more than 11.1% of our rental revenue for the quarter ended September 30, 2015. Since 1970, our occupancy rate at the end of each year has never been below 96%. However, we cannot assure you that our future occupancy levels will continue to equal or exceed 96%.

[Table of Contents](#)

Investment Strategy

Our investment strategy is to act as a source of capital to regional and national tenants by acquiring and leasing back their real estate locations. When identifying new properties for investment, we generally focus on acquiring the real estate tenants consider important to the successful operation of their business. We generally seek to acquire real estate that has the following characteristics:

- Properties that are freestanding, commercially-zoned with a single tenant;
- Properties that are in significant markets or strategic locations critical to generating revenue for regional and national tenants (i.e. they need the property in which they operate in order to conduct their business);
- Properties that we deem to be profitable for the tenants and/or can generally be characterized as important to the successful operations of the company's business;
- Properties that are located within attractive demographic areas relative to the business of our tenants, and have good visibility and easy access to major thoroughfares;
- Properties with real estate valuations that approximate replacement costs;
- Properties with rental or lease payments that approximate market rents; and
- Properties that can be purchased with the simultaneous execution or assumption of long-term, net lease agreements, offering both current income and the potential for future rent increases.

We seek to invest in industries in which several, well-organized, regional and national tenants are capturing market share through service, quality control, economies of scale, strong consumer brands, advertising, and the selection of prime locations. In addition, we frequently acquire large portfolios of single-tenant properties net leased to different tenants operating in a variety of industries. We have an internal team dedicated to sourcing such opportunities, often using our relationships with various tenants, owners/developers, and advisers to uncover and secure transactions. We also undertake thorough research and analysis to identify what we consider to be appropriate industries, tenants, and property locations for investment. This research expertise is instrumental to uncovering net lease opportunities in markets where we believe we can add value.

In selecting potential investments, we look for tenants with the following attributes:

- Tenants with reliable and sustainable cash flow;
- Tenants with revenue and cash flow from multiple sources;
- Tenants that are willing to sign a long-term lease (10 or more years); and
- Tenants that are large owners and users of real estate.

From a retail perspective, our investment strategy is to target tenants that have a service, non-discretionary, and/or low-price-point component to their business. We believe these characteristics better position tenants to operate in a variety of economic conditions and to compete more effectively with internet retailers. As a result of the execution of this strategy, over 90% of our retail rental revenue for the third quarter of 2015 is derived from tenants with a service, non-discretionary, and/or low price point component to their business. From a non-retail perspective, we target industrial properties leased to Fortune 1000, primarily investment grade rated companies. We believe rental revenue generated from businesses with these characteristics is generally more durable and stable.

After applying this investment strategy, we pursue those transactions where we can achieve an attractive investment spread over our cost of capital and favorable risk-adjusted returns.

Underwriting Strategy

We believe the principal financial obligations for most of our tenants typically include their bank and other debt, payment obligations to suppliers, and real estate lease obligations. Because we typically own the land and building in which a tenant conducts its business or which are critical to the tenant's ability to generate revenue, we believe the risk of default on a tenant's lease obligation is less than the tenant's unsecured general obligations. It has been our experience that tenants must retain their profitable and critical locations in order to survive. Therefore, in the event of reorganization, they are less likely to reject a lease of a profitable or critical location because this would terminate their right to use the property. Thus, as the property owner, we believe that we will fare better than unsecured creditors of the same tenant in the event of reorganization. If a property is rejected by the tenant during reorganization, we own the property and can either lease it to a new tenant or sell the property. In addition, we believe that the risk of default on real estate leases can be further mitigated by monitoring the performance of the tenants' individual locations and considering whether to sell locations that are weaker performers.

[Table of Contents](#)

In order to be considered for acquisition, properties must meet stringent investment and credit requirements. The properties must generate attractive current yields and the tenant must meet our credit criteria. We have established a four-part analysis that examines each potential investment based on:

- Industry, company, market conditions, and credit profile;
- Store profitability for retail locations, if profitability data is available;
- Overall real estate characteristics, including property value and comparative rental rates; and
- The importance of the real estate location to the operations of the tenants' business.

Prior to entering into any transaction, our research department conducts a review of a tenant's credit quality. The information reviewed may include reports and filings, including any public credit ratings, financial statements, debt and equity analyst reports, and reviews of corporate credit spreads, stock prices, market capitalization, and other financial metrics. We conduct additional due diligence, including additional financial reviews of the tenant and a more comprehensive review of the business segment and industry in which the tenant operates. We continue to monitor our tenants' credit quality on an ongoing basis by reviewing the available information previously discussed, and providing summaries of these findings to management. We estimate that approximately 44% of our annualized rental revenue comes from properties leased to investment grade rated companies or their subsidiaries. At September 30, 2015, our top 20 tenants represent approximately 55% of our annualized revenue and eight of these tenants have investment grade credit ratings.

Asset Management Strategy

The active management of the property portfolio is an essential component of our long-term strategy. We continually monitor our portfolio for any changes that could affect the performance of the tenant's industries and locations in which we have invested. We also regularly analyze our portfolio with a view towards optimizing its returns and enhancing the overall credit quality.

We regularly review and analyze:

- The performance of the various industries of our tenants;
- The operation, management, business planning, and financial condition of our tenants; and
- The quality of the underlying real estate locations.

We have an active asset management program that incorporates the sale of assets when we believe the reinvestment of the sale proceeds will:

- Generate higher returns;
- Enhance the credit quality of our real estate portfolio;
- Extend our average remaining lease term; or
- Decrease tenant or industry concentration.

At September 30, 2015, we classified 17 properties with a carrying amount of \$13.3 million as held for sale on our balance sheet. For the remainder of 2015, we intend to continue our active disposition efforts to further enhance our real estate portfolio and anticipate approximately \$65 million in property sales for all of 2015. We intend to invest these proceeds into new property acquisitions, if there are attractive opportunities available. However, we cannot guarantee that we will sell properties during 2015 at our estimated values or be able to invest the property sale proceeds in new properties.

Impact of Real Estate and Credit Markets

In the commercial real estate market, property prices generally continue to fluctuate. Likewise, during certain periods, the U.S. credit markets have experienced significant price volatility, dislocations, and liquidity disruptions, which may impact our access to and cost of capital. We continually monitor the commercial real estate and U.S. credit markets carefully and, if required, will make decisions to adjust our business strategy accordingly.

RECENT DEVELOPMENTS

Increases in Monthly Dividends to Common Stockholders

We have continued our 46-year policy of paying monthly dividends. In addition, we increased the dividend five times during 2015. As of October 2015, we have paid 72 consecutive quarterly dividend increases and increased the dividend 82 times since our listing on the NYSE in 1994.

2015 Dividend increases	Month Declared	Month Paid	Dividend per share	Increase per share
1st increase	Dec 2014	Jan 2015	\$ 0.1834167	\$ 0.0003125
2nd increase	Jan 2015	Feb 2015	0.1890000	0.0055833
3rd increase	Mar 2015	Apr 2015	0.1895000	0.0005000
4th increase	Jun 2015	Jul 2015	0.1900000	0.0005000
5th increase	Sep 2015	Oct 2015	0.1905000	0.0005000

The dividends paid per share during the first nine months of 2015 totaled approximately \$1.6999167, as compared to approximately \$1.6423128 during the first nine months of 2014, an increase of \$0.0576, or 3.5%.

The monthly dividend of \$0.1905 per share represents a current annualized dividend of \$2.286 per share, and an annualized dividend yield of approximately 4.8% based on the last reported sale price of our common stock on the NYSE of \$47.39 on September 30, 2015. Although we expect to continue our policy of paying monthly dividends, we cannot guarantee that we will maintain our current level of dividends, that we will continue our pattern of increasing dividends per share, or what our actual dividend yield will be in any future period.

Acquisitions during the Third Quarter of 2015

During the third quarter of 2015, we invested \$123.9 million in 47 new properties and properties under development or expansion, with an estimated initial weighted average contractual lease rate of 7.0%. The 47 new properties and properties under development or expansion are located in 22 states, will contain approximately 960,000 leasable square feet and are 100% leased, with a weighted average lease term of 10.9 years. The tenants occupying the new properties operate in 13 industries and the property types consist of 51.7% retail and 48.3% industrial, based on rental revenue.

Acquisitions during the First Nine Months of 2015

During the first nine months of 2015, we invested \$1.1 billion in 195 new properties and properties under development or expansion, with an initial weighted average contractual lease rate of 6.5%. The 195 new properties and properties under development or expansion are located in 36 states, will contain approximately 5.1 million leasable square feet, and are 100% leased with a weighted average lease term of 16.7 years. The tenants occupying the new properties operate in 18 industries and the property types consist of 87.0% retail and 13.0% industrial, based on rental revenue. During the first nine months of 2015, none of our real estate investments caused any one tenant to be 10% or more of our total assets at September 30, 2015.

The estimated initial weighted average contractual lease rate for a property is generally computed as estimated contractual net operating income, which, in the case of a net leased property, is equal to the aggregate base rent for the first full year of each lease, divided by the total cost of the property. Since it is possible that a tenant could default on the payment of contractual rent, we cannot provide assurance that the actual return on the funds invested will remain at the percentage listed above.

In the case of a property under development or expansion, the contractual lease rate is generally fixed such that rent varies based on the actual total investment in order to provide a fixed rate of return. When the lease does not provide for a fixed rate of return on a property under development or expansion, the estimated initial weighted average contractual lease rate is computed as follows: estimated net operating income (determined by the lease) for the first full year of each lease, divided by our projected total investment in the property, including land, construction and capitalized interest costs. Of the \$1.1 billion we invested during the first nine months of 2015, \$37.1 million was invested in 30 properties under development or expansion with an estimated initial weighted average contractual lease rate of 9.9%. We may continue to pursue development or expansion opportunities under similar arrangements in the future.

Portfolio Discussion

Leasing Results

At September 30, 2015, we had 74 properties available for lease out of 4,473 properties in our portfolio, which represents a 98.3% occupancy rate based on the number of properties. Since December 31, 2014, when we reported 70 properties available for lease out of 4,327 and a 98.4% occupancy rate, we:

- Had 239 lease expirations;
- Re-leased 221 properties; and
- Sold 14 vacant properties.

Of the 221 properties re-leased during the first nine months of 2015, 189 properties were re-leased to existing tenants, six were re-leased to new tenants without vacancy, and 26 were re-leased to new tenants after a period of vacancy. The annual rent on these 221 leases was \$32.8 million, as compared to the previous rent on these same properties of \$32.3 million, which represents a rent recapture rate of 101.5%.

At September 30, 2015, our average annualized rental revenue was approximately \$13.32 per square foot on the 4,399 leased properties in our portfolio. At September 30, 2015, we classified 17 properties with a carrying amount of \$13.3 million as held for sale on our balance sheet. The disposal of these properties does not represent a strategic shift that will have a major effect on our operations and financial results.

Investments in Existing Properties

In the third quarter of 2015, we capitalized costs of \$3.4 million on existing properties in our portfolio, consisting of \$93,000 for re-leasing costs, \$1.8 million for recurring capital expenditures and \$1.5 million for non-recurring building improvements. In the third quarter of 2014, we capitalized costs of \$1.8 million on existing properties in our portfolio.

In the first nine months of 2015, we capitalized costs of \$5.9 million on existing properties in our portfolio, consisting of \$555,000 for re-leasing costs, \$3.8 million for recurring capital expenditures and \$1.5 million for non-recurring building improvements. In the first nine months of 2014, we capitalized costs of \$4.5 million on existing properties in our portfolio.

As part of our re-leasing costs, we typically pay leasing commissions and sometimes provide tenant rent concessions. Leasing commissions are paid based on the commercial real estate industry standard and any rent concessions provided are minimal. We do not consider the collective impact of the leasing commissions or tenant rent concessions to be material to our financial position or results of operations.

The majority of our building improvements relate to roof repairs, HVAC improvements, and parking lot resurfacing and replacements. It is not customary for us to offer significant tenant improvements on our properties as tenant incentives. The amounts of our capital expenditures can vary significantly, depending on the rental market, tenant credit worthiness, the lease term and the willingness of tenants to pay higher rents over the terms of the leases.

At-the-Market (ATM) Program

In September 2015, we established an "at the market" equity distribution program, or our ATM program, pursuant to which we can offer and sell up to 12,000,000 shares of common stock to, or through a consortium of banks acting as our sales agents by means of ordinary brokers' transactions on the NYSE or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. As of September 30, 2015, no shares have been sold under our ATM program.

New Credit Facility

In June 2015, we closed on a \$2.25 billion unsecured credit facility. Our new credit facility is comprised of a \$2.0 billion revolving credit facility and a \$250 million five-year unsecured term loan. As of September 30, 2015, \$1.56 billion was available on our new credit facility to fund additional acquisitions and for other general corporate purposes.

Inclusion in S&P Indices

In January 2015, we were added to the S&P High Yield Dividend Aristocrats® index. In April 2015, we were added to the S&P 500 index and are one of 24 REITs, and the only net lease REIT included in this index.

[Table of Contents](#)

Issuance of Common Stock

In April 2015, we issued 5,500,000 shares of common stock. After underwriting discounts and other offering costs of \$1.4 million, the net proceeds of \$276.4 million were used to repay borrowings under our credit facility.

In October 2015, we issued 11,500,000 shares of common stock, including 1,500,000 shares purchased by the underwriters upon the exercise of their option to purchase additional shares. After underwriting discounts and other offering costs of \$22.1 million, a portion of the net proceeds of \$517.0 million was used to repay borrowings under our credit facility and the remaining portion will be used for other general corporate purposes, which may include acquisitions.

Dividend Reinvestment and Stock Purchase Plan

We have a Dividend Reinvestment and Stock Purchase Plan, or the DRSP, to provide our common stockholders, as well as new investors, with a convenient and economical method of purchasing our common stock and reinvesting their distributions. The DRSP also allows our current stockholders to buy additional shares of common stock by reinvesting all or a portion of their distributions. The DRSP authorizes up to 26,000,000 common shares to be issued. In 2013, we revised our DRSP to pay for a majority of the plan-related fees, which were previously paid by investors, and to institute a waiver approval process, allowing larger investors or institutions, per a formal approval process, to purchase shares at a small discount, if approved by us. During the first nine months of 2015, we issued 7,565,432 shares and raised approximately \$360.9 million under the DRSP, of which 7,413,207 shares and \$353.7 million was raised under the waiver approval process.

Net Income Available to Common Stockholders

Net income available to common stockholders was \$60.7 million in the third quarter of 2015, compared to \$57.9 million in the third quarter of 2014, an increase of \$2.8 million. On a diluted per common share basis, net income was \$0.26 in the third quarter of 2015 and 2014.

Net income available to common stockholders was \$180.5 million in the first nine months of 2015, compared to \$156.5 million in the first nine months of 2014, an increase of \$24.0 million. On a diluted per common share basis, net income was \$0.78 in the first nine months of 2015, as compared to \$0.72 in the first nine months of 2014, an increase of \$0.06, or 8.3%.

The calculation to determine net income available to common stockholders includes impairments and/or gains from the sale of properties. The amount of impairments and/or gains varies from period to period based on the timing of property sales and can significantly impact net income available to common stockholders.

Gains from the sale of properties during the third quarter of 2015 were \$6.2 million, as compared to gains from the sale of properties of \$11.0 million during the third quarter of 2014. Gains from the sale of properties during the first nine months of 2015 were \$17.1 million, as compared to gains from the sale of properties of \$16.8 million during the first nine months of 2014.

Funds from Operations (FFO) Available to Common Stockholders

In the third quarter of 2015, our FFO increased by \$19.9 million, or 14.0%, to \$162.2 million, compared to \$142.3 million in the third quarter of 2014. On a diluted per common share basis, FFO was \$0.69 in the third quarter of 2015 and \$0.64 in the third quarter of 2014, an increase of \$0.05, or 7.8%.

In the first nine months of 2015, our FFO increased by \$55.3 million, or 13.2%, to \$474.5 million versus \$419.2 million in the first nine months of 2014. On a diluted per common share basis, FFO was \$2.05 in the first nine months of 2015, compared to \$1.93 in the first nine months of 2014, an increase of \$0.12, or 6.2%.

Adjusted Funds from Operations (AFFO) Available to Common Stockholders

In the third quarter of 2015, our AFFO increased by \$23.4 million, or 16.4%, to \$165.8 million, compared to \$142.4 million in the third quarter of 2014. On a diluted per common share basis, AFFO was \$0.70 in the third quarter of 2015 and \$0.64 in the third quarter of 2014, an increase of \$0.06, or 9.4%.

In the first nine months of 2015, our AFFO increased by \$60.7 million, or 14.6%, to \$477.0 million versus \$416.3 million in the first nine months of 2014. On a diluted per common share basis, AFFO was \$2.06 in the first nine months of 2015, compared to \$1.92 in the first nine months of 2014, an increase of \$0.14, or 7.3%. See our discussion of FFO and AFFO (which are not financial measures under generally accepted accounting principles, or GAAP), later in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," which includes a reconciliation of net income available to common stockholders to FFO and AFFO.

LIQUIDITY AND CAPITAL RESOURCES

Capital Philosophy

Historically, we have met our long-term capital needs by issuing common stock, preferred stock and long-term unsecured notes and bonds. Over the long-term, we believe that common stock should be the majority of our capital structure, however; we may issue additional preferred stock or debt securities. We may issue common stock when we believe that our share price is at a level that allows for the proceeds of any offering to be accretively invested into additional properties. In addition, we may issue common stock to permanently finance properties that were financed by our credit facility or debt securities. However, we cannot assure you that we will have access to the capital markets at times and at terms that are acceptable to us.

Our primary cash obligations, for the current year and subsequent years, are included in the "Table of Obligations," which is presented later in this section. We expect to fund our operating expenses and other short-term liquidity requirements, including property acquisitions and development costs, payment of principal and interest on our outstanding indebtedness, property improvements, re-leasing costs and cash distributions to common and preferred stockholders, primarily through cash provided by operating activities, borrowing on our new \$2.0 billion credit facility and periodically through public securities offerings.

Conservative Capital Structure

We believe that our stockholders are best served by a conservative capital structure. Therefore, we seek to maintain a conservative debt level on our balance sheet and solid interest and fixed charge coverage ratios. At September 30, 2015, our total outstanding borrowings of senior unsecured notes and bonds, term loans, mortgages payable and credit facility borrowings were \$5.25 billion, or approximately 30.9% of our total market capitalization of \$16.98 billion.

We define our total market capitalization at September 30, 2015 as the sum of:

- Shares of our common stock outstanding of 238,085,515, plus total common units outstanding of 736,568, multiplied by the last reported sales price of our common stock on the NYSE of \$47.39 per share on September 30, 2015, or \$11.32 billion;
- Aggregate liquidation value (par value of \$25.00 per share) of the Class F preferred stock of \$408.8 million;
- Outstanding borrowings of \$439.0 million on our new credit facility;
- Outstanding mortgages payable of \$695.2 million, excluding net mortgage premiums of \$11.0 million;
- Outstanding borrowings of \$320.0 million on our term loans; and
- Outstanding senior unsecured notes and bonds of \$3.8 billion, excluding unamortized original issuance discounts of \$13.6 million.

Universal Shelf Registration

In February 2013, we filed a shelf registration statement with the SEC, which is effective for a term of three years and will expire in February 2016. This replaced our prior shelf registration statement. In accordance with SEC rules, the amount of securities to be issued pursuant to this shelf registration statement was not specified when it was filed and there is no specific dollar limit. The securities covered by this registration statement include (1) common stock, (2) preferred stock, (3) debt securities, (4) depository shares representing fractional interests in shares of preferred stock, (5) warrants to purchase debt securities, common stock, preferred stock, or depository shares, and (6) any combination of these securities. We may periodically offer one or more of these securities in amounts, prices and on terms to be announced when and if these securities are offered. The specifics of any future offerings, along with the use of proceeds of any securities offered, will be described in detail in a prospectus supplement, or other offering materials, at the time of any offering.

Mortgage Debt

As of September 30, 2015, we had \$695.2 million of mortgages payable, all of which were assumed in connection with our property acquisitions. Additionally, at September 30, 2015, we had net premiums totaling \$11.0 million on these mortgages. We expect to pay off the mortgages payable as soon as prepayment penalties have declined to a level that will make it economically feasible to do so. During the first nine months of 2015, we made \$140.8 million of principal payments, including the repayment of ten mortgages in full for \$135.3 million.

[Table of Contents](#)

Term Loans

In June 2015, in conjunction with entering into our new credit facility, we entered into a \$250 million senior unsecured term loan maturing June 30, 2020. Borrowing under this term loan bears interest at the current one month London Interbank Offered Rate, commonly referred to as LIBOR, plus 0.95%. In conjunction with this term loan, we also entered into an interest rate swap which effectively fixes our per annum interest rate on this term loan at 2.67%.

In January 2013, in conjunction with our acquisition of ARCT, we entered into a \$70 million senior unsecured term loan maturing in January 2018. Borrowing under the term loan bears interest at LIBOR, plus 1.20%. In conjunction with this term loan, we also acquired an interest rate swap which effectively fixes our per annum interest rate on this term loan at 2.15%.

\$2.0 Billion Revolving Credit Facility

In June 2015, we entered into a new \$2 billion unsecured revolving credit facility, which replaced our \$1.5 billion credit facility that was scheduled to expire in May 2016. The initial term of our new credit facility expires in June 2019 and includes, at our option, two six-month extensions. Our new credit facility has a \$1.0 billion accordion expansion option. Under our new credit facility, our current investment grade credit ratings provide for financing at LIBOR, plus 0.9% with a facility commitment fee of 0.15%, for all-in drawn pricing of 1.05% over LIBOR. The borrowing rate is subject to an interest rate floor. We also have other interest rate options available to us under our new credit facility. Our new credit facility is unsecured and, accordingly, we have not pledged any assets as collateral for this obligation.

As of October 7, 2015, we had a borrowing capacity of \$2.0 billion available on our new credit facility (subject to customary conditions to borrowing) after using common stock offering proceeds to pay off outstanding borrowings on our new credit facility. At September 30, 2015, we had a borrowing capacity of \$1.56 billion available on our new credit facility and an outstanding balance of \$439.0 million. The interest rate on borrowings outstanding under our new credit facility, at September 30, 2015, was 1.3% per annum. We must comply with various financial and other covenants in our credit facility. At September 30, 2015, we remain in compliance with these covenants. We expect to use our new credit facility to acquire additional properties and for other general corporate purposes. Any additional borrowings will increase our exposure to interest rate risk.

We generally use our credit facility for the short-term financing of new property acquisitions. Thereafter, when capital is available on acceptable terms, we generally seek to refinance those borrowings with the net proceeds of long-term or permanent financing, which may include the issuance of common stock, preferred stock or debt securities. We cannot assure you, however, that we will be able to obtain any such refinancing, or that market conditions prevailing at the time of the refinancing will enable us to issue equity or debt securities at acceptable terms.

Notes Outstanding

Our senior unsecured note and bond obligations consist of the following as of September 30, 2015, sorted by maturity date (dollars in millions):

5.5% notes, issued in November 2003 and due in November 2015	\$	150
5.95% notes, issued in September 2006 and due in September 2016		275
5.375% notes, issued in September 2005 and due in September 2017		175
2.0% notes, issued in October 2012 and due in January 2018		350
6.75% notes, issued in September 2007 and due in August 2019		550
5.75% notes, issued in June 2010 and due in January 2021		250
3.25% notes, issued in October 2012 and due in October 2022		450
4.65% notes, issued in July 2013 and due in August 2023		750
3.875% notes, issued in June 2014 and due in July 2024		350
4.125% notes, issued in September 2014 and due in October 2026		250
5.875% bonds, \$100 issued in March 2005 and \$150 issued in June 2011, both due in March 2035		250
Total principal amount	\$	3,800
Unamortized original issuance discounts		(14)
	\$	<u>3,786</u>

In November 2015, we expect to repay our \$150 million 5.5% notes by borrowing on our new credit facility.

All of our outstanding notes and bonds have fixed interest rates and contain various covenants, which we remain in compliance with at September 30, 2015. Additionally, interest on all of our senior note and bond obligations is paid semiannually.

[Table of Contents](#)

The following is a summary of the key financial covenants for our senior unsecured notes, as defined and calculated per the terms of our senior notes and bonds. These calculations, which are not based on U.S. GAAP, measurements, are presented to investors to show our ability to incur additional debt under the terms of our senior notes and bonds as well as to disclose our current compliance with such covenants, and are not measures of our liquidity or performance. The actual amounts as of September 30, 2015 are:

Note Covenants	Required	Actual
Limitation on incurrence of total debt	≤ 60% of adjusted assets	43.0%
Limitation on incurrence of secured debt	≤ 40% of adjusted assets	5.8%
Debt service coverage (trailing 12 months) ⁽¹⁾	≥ 1.5 x	4.1x
Maintenance of total unencumbered assets	≥ 150% of unsecured debt	239.4%

⁽¹⁾ This covenant is calculated on a pro forma basis for the preceding four-quarter period on the assumption that: (i) the incurrence of any Debt (as defined in the covenants) incurred by us since the first day of such four-quarter period and the application of the proceeds therefrom (including to refinance other Debt since the first day of such four-quarter period), (ii) the repayment or retirement of any of our Debt since the first day of such four-quarter period, and (iii) any acquisition or disposition by us of any asset or group since the first day of such four-quarters had in each case occurred on October 1, 2014, and subject to certain additional adjustments. Such pro forma ratio has been prepared on the basis required by that debt service covenant, reflects various estimates and assumptions and is subject to other uncertainties, and therefore does not purport to reflect what our actual debt service coverage ratio would have been had transactions referred to in clauses (i), (ii) and (iii) of the preceding sentence occurred as of October 1, 2014, nor does it purport to reflect our debt service coverage ratio for any future period. The following is our calculation of debt service coverage at September 30, 2015 (in thousands, for trailing twelve months):

Net income attributable to the Company	\$	278,614
Plus: interest expense		231,461
Plus: provision for taxes		3,552
Plus: depreciation and amortization		400,013
Plus: provisions for impairment		11,141
Plus: pro forma adjustments		42,618
Less: gain on sales of real estate		(42,387)
Income available for debt service, as defined	\$	925,012
Total pro forma debt service charge	\$	223,686
Debt service coverage ratio		4.1

Fixed Charge Coverage Ratio

Fixed charge coverage ratio is calculated in exactly the same manner as the debt service coverage ratio, except that preferred stock dividends are also added to the denominator. Similar to debt service coverage ratio, we consider fixed charge coverage ratio to be an appropriate supplemental measure of a company's ability to make its interest and preferred stock dividend payments. Our calculations of both debt service and fixed charge coverage ratios may be different from the calculations used by other companies and, therefore, comparability may be limited. The presentation of debt service and fixed charge coverage ratios should not be considered as alternatives to any U.S. GAAP operating performance measures. Below is our calculation of fixed charges at September 30, 2015 (in thousands, for the trailing twelve months):

Income available for debt service, as defined	\$	925,012
Pro forma debt service charge plus preferred stock dividends	\$	250,766
Fixed charge coverage ratio		3.7

Cash Reserves

We are organized to operate as an equity REIT that acquires and leases properties and distributes to stockholders, in the form of monthly cash distributions, a substantial portion of our net cash flow generated from leases on our properties. We intend to retain an appropriate amount of cash as working capital. At September 30, 2015, we had cash and cash equivalents totaling \$7.1 million.

We believe that our cash and cash equivalents on hand, cash provided from operating activities, and borrowing capacity is sufficient to meet our liquidity needs for the next twelve months. We intend, however, to use permanent or long-term capital to fund property acquisitions and to repay future borrowings under our new credit facility.

Credit Agency Ratings

The borrowing interest rates under our new credit facility are based upon our ratings assigned by credit rating agencies. We are currently assigned the following investment grade corporate credit ratings on our senior unsecured notes and bonds: Moody's Investors Service has assigned a rating of Baa1 with a "stable" outlook, Standard & Poor's Ratings Group has assigned a rating of BBB+ with a "stable" outlook to our senior notes, and Fitch Ratings has assigned a rating of BBB+ with a "stable" outlook.

Based on our current ratings, the current facility interest rate is LIBOR plus 0.9% with a facility commitment fee of 0.15%, for all-in drawn pricing of 1.05% over LIBOR. Our new credit facility provides that the interest rate can range between: (i) LIBOR plus 1.55% if our credit rating is lower than BBB-/Baa3 or unrated and (ii) LIBOR plus 0.85% if our credit rating is A-/A3 or higher. In addition, our credit facility provides for a facility commitment fee based on our credit ratings, which range from: (i) 0.3% for a rating lower than BBB-/Baa3 or unrated, and (ii) 0.125% for a credit rating of A-/A3 or higher.

We also issue senior debt securities from time to time and our credit ratings can impact the interest rates charged in those transactions. If our credit ratings or ratings outlook change, our cost to obtain debt financing could increase or decrease. The credit ratings assigned to us could change based upon, among other things, our results of operations and financial condition. These ratings are subject to ongoing evaluation by credit rating agencies and we cannot assure you that our ratings will not be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. Moreover, a rating is not a recommendation to buy, sell or hold our debt securities, preferred stock or common stock.

Table of Obligations

The following table summarizes the maturity of each of our obligations as of September 30, 2015 (dollars in millions):

Year of Maturity	Credit Facility ⁽¹⁾	Notes and Bonds ⁽²⁾	Term Loan	Mortgages Payable ⁽³⁾	Interest ⁽⁴⁾	Ground Leases Paid by Realty Income ⁽⁵⁾	Ground Leases Paid by Our Tenants ⁽⁶⁾	Other ⁽⁷⁾	Totals
2015	\$ -	\$ 150.0	\$ -	\$ 1.9	\$ 55.9	\$ 0.4	\$ 3.1	\$ 30.4	\$ 241.7
2016	-	275.0	-	225.6	203.4	1.5	12.3	30.3	748.1
2017	-	175.0	-	142.7	181.4	1.5	12.4	-	513.0
2018	-	350.0	70.0	15.3	163.0	1.6	12.4	-	612.3
2019	439.0	550.0	-	26.2	145.4	1.4	12.2	-	1,174.2
Thereafter	-	2,300.0	250.0	283.5	569.3	24.6	115.8	-	3,543.2
Totals	\$ 439.0	\$ 3,800.0	\$ 320.0	\$ 695.2	\$ 1,318.4	\$ 31.0	\$ 168.2	\$ 60.7	\$ 6,832.5

⁽¹⁾ The initial term of the credit facility expires in June 2019 and includes, at our option, two six-month extensions.

⁽²⁾ Excludes non-cash original issuance discounts recorded on the notes payable. The unamortized balance of the original issuance discounts at September 30, 2015, is \$13.6 million.

⁽³⁾ Excludes non-cash net premiums recorded on the mortgages payable. The unamortized balance of these net premiums at September 30, 2015, is \$11.0 million.

⁽⁴⁾ Interest on the term loans, notes, bonds, mortgages payable, and credit facility has been calculated based on outstanding balances as of September 30, 2015 through their respective maturity dates.

⁽⁵⁾ Realty Income currently pays the ground lessors directly for the rent under the ground leases.

⁽⁶⁾ Our tenants, who are generally sub-tenants under ground leases, are responsible for paying the rent under these ground leases. In the event a tenant fails to pay the ground lease rent, we are primarily responsible.

⁽⁷⁾ "Other" consists of \$58.4 million of commitments under construction contracts and \$2.3 million of commitments for tenant improvements and leasing costs. Amounts represent estimated annual payments.

Our new credit facility, term loans, and notes payable obligations are unsecured. Accordingly, we have not pledged any assets as collateral for these obligations.

Preferred Stock and Preferred Units Outstanding

In 2006, we issued 8,800,000 shares of Class E preferred stock at a price of \$25.00 per share. In October 2014, we redeemed all of the 8,800,000 shares of our Class E preferred stock for \$25.00 per share, plus accrued dividends. In the third quarter of 2014, we incurred a charge of \$6.0 million, representing the Class E preferred stock original issuance costs that we paid in 2006.

[Table of Contents](#)

In February 2012, we issued 14,950,000 shares of our Class F preferred stock at \$25.00 per share. In April 2012, we issued an additional 1,400,000 shares of Class F preferred stock at \$25.2863 per share. Beginning February 15, 2017, shares of our Class F preferred stock are redeemable at our option for \$25.00 per share, plus any accrued and unpaid dividends. Dividends on the shares of our Class F preferred stock are paid monthly in arrears. We are current on our obligations to pay dividends on our Class F preferred stock.

As part of our acquisition of ARCT in January 2013, we issued 6,750 partnership units, with a carrying value of \$6.75 million. Payments on these preferred units were made monthly in arrears at rate of 2% per annum, or \$135,000, and are included in interest expense. In January 2015, we redeemed all 6,750 Tau Operating Partnership preferred units for \$1,000 per unit, plus accrued and unpaid distributions.

No Unconsolidated Investments

We have no unconsolidated investments, nor do we engage in trading activities involving energy or commodity contracts.

Dividend Policy

Distributions are paid monthly to holders of shares of our common stock and Class F preferred stock if, and when, declared by our Board of Directors.

Distributions are paid monthly to the limited partners holding common units of Tau Operating Partnership, L.P. and Realty Income, L.P., each on a per unit basis that is generally equal to the amount paid per share to our common stockholders.

In order to maintain our status as a REIT for federal income tax purposes, we generally are required to distribute dividends to our stockholders aggregating annually at least 90% of our taxable income (excluding net capital gains), and we are subject to income tax to the extent we distribute less than 100% of our taxable income (including net capital gains). In 2014, our cash distributions to preferred and common stockholders totaled \$519.1 million, or approximately 155.0% of our taxable income of \$334.9 million. Our taxable income reflects non-cash deductions for depreciation and amortization. Our taxable income is presented to show our compliance with REIT dividend requirements and is not a measure of our liquidity or operating performance. We intend to continue to make distributions to our stockholders that are sufficient to meet this dividend requirement and that will reduce or eliminate our exposure to income taxes. Furthermore, we believe our funds from operations are more than sufficient to support our current level of cash distributions to our stockholders. Our cash distributions to common stockholders, for the first nine months of 2015, totaled \$392.8 million, representing 82.3% of our adjusted funds from operations available to common stockholders of \$477.0 million. In comparison, our 2014 cash distributions to common stockholders totaled \$479.3 million, representing 85.3% of our adjusted funds from operations available to common stockholders of \$561.7 million.

The Class F preferred stockholders receive cumulative distributions at a rate of 6.625% per annum on the \$25.00 per share liquidation preference (equivalent to \$1.65625 per annum per share). Dividends on our Class F preferred stock are current.

Future distributions will be at the discretion of our Board of Directors and will depend on, among other things, our results of operations, FFO, AFFO, cash flow from operations, financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code of 1986, as amended, our debt service requirements, and any other factors the Board of Directors may deem relevant. In addition, our new credit facility contains financial covenants that could limit the amount of distributions payable by us in the event of a default, and which prohibit the payment of distributions on the common or preferred stock in the event that we fail to pay when due (subject to any applicable grace period) any principal or interest on borrowings under our new credit facility.

Distributions of our current and accumulated earnings and profits for federal income tax purposes generally will be taxable to stockholders as ordinary income, except to the extent that we recognize capital gains and declare a capital gains dividend, or that such amounts constitute "qualified dividend income" subject to a reduced rate of tax. The maximum tax rate of non-corporate taxpayers for "qualified dividend income" is generally 20%. In general, dividends payable by REITs are not eligible for the reduced tax rate on qualified dividend income,

[Table of Contents](#)

except to the extent that certain holding requirements have been met with respect to the REIT's stock and the REIT's dividends are attributable to dividends received from certain taxable corporations (such as our taxable REIT subsidiaries) or to income that was subject to tax at the corporate or REIT level (for example, if we distribute taxable income that we retained and paid tax on in the prior taxable year).

Distributions in excess of earnings and profits generally will first be treated as a non-taxable reduction in the stockholders' basis in their stock, but not below zero. Distributions in excess of that basis generally will be taxable as a capital gain to stockholders who hold their shares as a capital asset. Approximately 24.8% of the distributions to our common stockholders, made or deemed to have been made in 2014, were classified as a return of capital for federal income tax purposes. We estimate that in 2015, between 20% and 35% of the distributions may be classified as a return of capital.

RESULTS OF OPERATIONS

Critical Accounting Policies

Our consolidated financial statements have been prepared in accordance with GAAP, and are the basis for our discussion and analysis of financial condition and results of operations. Preparing our consolidated financial statements requires us to make a number of estimates and assumptions that affect the reported amounts and disclosures in the consolidated financial statements. We believe that we have made these estimates and assumptions in an appropriate manner and in a way that accurately reflects our financial condition. We continually test and evaluate these estimates and assumptions using our historical knowledge of the business, as well as other factors, to ensure that they are reasonable for reporting purposes. However, actual results may differ from these estimates and assumptions. This summary should be read in conjunction with the more complete discussion of our accounting policies and procedures included in note 2 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2014.

In order to prepare our consolidated financial statements according to the rules and guidelines set forth by GAAP, many subjective judgments must be made with regard to critical accounting policies. One of these judgments is our estimate for useful lives in determining depreciation expense for our properties. Depreciation on a majority of our buildings and improvements is computed using the straight-line method over an estimated useful life of 25 to 35 years for buildings and 4 to 20 years for improvements, which we believe are appropriate estimates of useful life. If we use a shorter or longer estimated useful life, it could have a material impact on our results of operations.

Management must make significant assumptions in determining the fair value of assets acquired and liabilities assumed. When acquiring a property for investment purposes, we typically allocate the fair value of real estate acquired to: (1) land, (2) building and improvements, and (3) identified intangible assets and liabilities, based in each case on their estimated fair values. Intangible assets and liabilities consist of above-market or below-market lease value of in-place leases, the value of in-place leases, and tenant relationships, as applicable. In an acquisition of multiple properties, we must also allocate the purchase price among the properties. The allocation of the purchase price is based on our assessment of estimated fair value and is often based upon the expected future cash flows of the property and various characteristics of the market where the property is located. In addition, any assumed mortgages receivable or payable and any assumed or issued noncontrolling interests are recorded at their estimated fair values. The estimated fair values of our mortgages payable have been calculated by discounting the future cash flows using applicable interest rates that have been adjusted for factors, such as industry type, tenant investment grade, maturity date, and comparable borrowings for similar assets. The initial allocation of the purchase price is based on management's preliminary assessment, which may differ when final information becomes available. Subsequent adjustments made to the initial purchase price allocation are made within the allocation period, which does not exceed one year. The use of different assumptions in the allocation of the purchase price of the acquired properties and liabilities assumed could affect the timing of recognition of the related revenue and expenses.

Another significant judgment must be made as to if, and when, impairment losses should be taken on our properties when events or a change in circumstances indicate that the carrying amount of the asset may not be recoverable. A provision is made for impairment if estimated future operating cash flows (undiscounted and without interest charges) plus estimated disposition proceeds (undiscounted) are less than the current book value of the property. Key inputs that we utilize in this analysis include projected rental rates, estimated holding periods, historical sales and releases, capital expenditures, and property sales capitalization rates. If a property

[Table of Contents](#)

is held for sale, it is carried at the lower of carrying cost or estimated fair value, less estimated cost to sell. The carrying value of our real estate is the largest component of our consolidated balance sheets. Our strategy of primarily holding properties, long-term, directly decreases the likelihood of their carrying values not being recoverable, thus requiring the recognition of an impairment. However, if our strategy, or one or more of the above assumptions were to change in the future, an impairment may need to be recognized. If events should occur that require us to reduce the carrying value of our real estate by recording provisions for impairment, they could have a material impact on our results of operations.

The following is a comparison of our results of operations for the three and nine months ended September 30, 2015, to the three and nine months ended September 30, 2014.

Rental Revenue

Rental revenue was \$247.6 million for the third quarter of 2015, as compared to \$226.8 million for the third quarter of 2014, an increase of \$20.8 million, or 9.2%. The increase in rental revenue in the third quarter of 2015 compared to the third quarter of 2014 is primarily attributable to:

- The 168 properties (4.7 million square feet) we acquired in 2015, which generated \$15.0 million of rent in the third quarter of 2015;
- The 479 properties (9.3 million square feet) we acquired in 2014, which generated \$25.3 million of rent in the third quarter of 2015, compared to \$20.3 million of rent in the third quarter of 2014, an increase of \$5.0 million;
- Same store rents generated on 3,668 properties (58.1 million square feet) during the third quarter of 2015 increased by \$2.2 million, or 1.1%, to \$198.8 million from \$196.6 million;
- A net increase in straight-line rent and other non-cash adjustments to rent of \$42,000 in the third quarter of 2015 as compared to the third quarter of 2014;
- A net decrease of \$1.9 million relating to properties sold in the first nine months of 2015 and during 2014 that were reported in continuing operations; and
- A net increase of \$502,000 relating to the aggregate of (i) rental revenue from properties (120 properties comprising 1.2 million square feet) that were vacant during any part of 2015 or 2014, and (ii) rental revenue for 21 properties under development and (iii) lease termination settlements. In aggregate, the revenues for these items totaled \$6.3 million in the third quarter of 2015 compared to \$5.8 million in the third quarter of 2014.

Rental revenue was \$724.1 million for the first nine months of 2015, as compared to \$662.8 million for the first nine months of 2014, an increase of \$61.3 million, or 9.2%. The increase in rental revenue in the first nine months of 2015 compared to the first nine months of 2014 is primarily attributable to:

- The 168 properties (4.7 million square feet) we acquired in the first nine months of 2015, which generated \$24.4 million of rent in the first nine months of 2015;
- The 479 properties (9.3 million square feet) we acquired in 2014, which generated \$74.2 million of rent in the first nine months of 2015, compared to \$43.2 million in the first nine months of 2014, an increase of \$31.0 million;
- Same store rents generated on 3,668 properties (58.1 million square feet) during the first nine months of 2015 and 2014, increased by \$7.6 million, or 1.3%, to \$597.2 million from \$589.6 million;
- A net increase in straight-line rent and other non-cash adjustments to rent of \$2.7 million in the first nine months of 2015 as compared to the first nine months of 2014;
- A net decrease of \$6.1 million relating to properties sold in the first nine months of 2015 and during 2014 that were reported in continuing operations; and
- A net increase of \$1.7 million relating to the aggregate of (i) rental revenue from properties (120 properties comprising 1.2 million square feet) that were available for lease during part of 2015 or 2014, (ii) rental revenue for 21 properties under development, and (iii) lease termination settlements. In aggregate, the revenues for these items totaled \$18.7 million in the first nine months of 2015 compared to \$17.0 million in the first nine months of 2014.

For purposes of determining the same store rent property pool, we include all properties that were owned for the entire year-to-date period, for both the current and prior year, except for properties during the current or prior year that; (i) were vacant at any time, (ii) were under development or redevelopment, and (iii) were involved in eminent domain and rent was reduced. Each of the exclusions from the same store pool are separately addressed within the applicable sentences above, explaining the changes in rental revenue for the period.

[Table of Contents](#)

Of the 4,473 properties in the portfolio at September 30, 2015, 4,454, or 99.6%, are single-tenant properties and the remaining are multi-tenant properties. Of the 4,454 single-tenant properties, 4,380, or 98.3%, were net leased with a weighted average remaining lease term (excluding rights to extend a lease at the option of the tenant) of approximately 10.1 years at September 30, 2015. Of our 4,380 leased single-tenant properties, 3,898 or 89.0% were under leases that provide for increases in rents through:

- Base rent increases tied to a consumer price index (typically subject to ceilings);
- Percentage rent based on a percentage of the tenants' gross sales;
- Fixed increases; or
- A combination of two or more of the above rent provisions.

Percentage rent, which is included in rental revenue, was \$116,000 in the third quarter of 2015, and \$144,000 in the third quarter of 2014. Percentage rent was \$2.4 million in the first nine months of 2015, and \$1.9 million in the first nine months of 2014. Percentage rent in the first nine months of 2015 was less than 1% of rental revenue and we anticipate percentage rent to be less than 1% of rental revenue for the remainder of 2015.

Our portfolio of real estate, leased primarily to regional and national tenants under net leases, continues to perform well and provides dependable lease revenue supporting the payment of monthly dividends to our stockholders. At September 30, 2015, our portfolio of 4,473 properties was 98.3% leased with 74 properties available for lease, as compared to 98.4% leased, or 70 properties available for lease at December 31, 2014, and 98.3% occupancy, or 74 properties available for lease at September 30, 2014. It has been our experience that approximately 1% to 4% of our property portfolio will be unleased at any given time; however, it is possible that the number of properties available for lease could exceed these levels in the future.

Tenant Reimbursements

Contractually obligated reimbursements from tenants for recoverable real estate taxes and operating expenses were \$10.2 million in the third quarter of 2015, compared to \$8.3 million in the third quarter of 2014, and \$31.8 million in the first nine months of 2015, compared to \$20.9 million in the first nine months of 2014. The increase in tenant reimbursements is primarily due to our acquisitions during 2014 and the first nine months of 2015. Our tenant reimbursements approximate our reimbursable property expenses for any given period.

Other Revenue

Other revenue, which comprises property-related revenue not included in rental revenue or tenant reimbursements, was \$1.1 million in the third quarter of 2015, compared to \$606,000 in the third quarter of 2014, and \$3.7 million in the first nine months of 2015, compared to \$2.2 million in the first nine months of 2014.

Depreciation and Amortization

Depreciation and amortization was \$104.3 million for the third quarter of 2015, compared to \$95.3 million for the third quarter of 2014. Depreciation and amortization was \$303.5 million for the first nine months of 2015, compared to \$278.1 million for the first nine months of 2014. The increase in depreciation and amortization in the first nine months of 2015 was primarily due to the acquisition of properties in 2014 and the first nine months of 2015, which was partially offset by property sales in those same periods. As discussed in the sections entitled "Funds from Operations (FFO) Available to Common Stockholders" and "Adjusted Funds from Operations (AFFO) Available to Common Stockholders," depreciation and amortization is a non-cash item that is added back to net income available to common stockholders for our calculation of FFO and AFFO.

[Table of Contents](#)

Interest Expense

The following is a summary of the components of our interest expense (dollars in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
Interest on our credit facility, term loans, notes, mortgages and interest rate swaps	\$ 57,731	\$ 55,143	\$ 171,132	\$ 158,881
Credit facility commitment fees	767	671	2,088	1,991
Amortization of credit facility origination costs and deferred financing costs	2,178	2,089	6,580	6,036
(Gain) loss on interest rate swaps	5,180	(633)	7,138	409
Dividend on preferred shares subject to redemption	-	1,155	-	1,155
Amortization of net mortgage premiums	(1,786)	(5,449)	(5,609)	(10,843)
Capital lease obligation	77	-	232	-
Interest capitalized	(197)	(162)	(463)	(383)
Interest expense	\$ 63,950	\$ 52,814	\$ 181,098	\$ 157,246

Credit facility, term loans, mortgages and notes

Average outstanding balances (dollars in thousands)	\$ 5,226,046	\$ 4,627,074	\$ 5,101,239	\$ 4,542,723
Average interest rates	4.31%	4.71%	4.42%	4.62%

The increase in interest expense was primarily due to the June 2014 issuance of our 3.88% senior unsecured notes due July 2024 and the September 2014 issuance of our 4.125% senior unsecured notes due October 2026. Additionally, each quarter we adjust the carrying value of our interest rate swaps to fair value. Changes in the fair value of our interest rate swaps are recorded directly to interest expense. We recorded a loss on interest rate swaps of \$5.2 million and \$7.1 million for the three and nine months ended September 30, 2015, respectively. We recorded a gain on interest rate swaps of \$633,000 for the third quarter of 2014 and recorded a loss on interest rate swaps of \$409,000 for the nine months ended September 30, 2014.

At September 30, 2015, the weighted average interest rate on our:

- Notes and bonds payable of \$3.8 billion (excluding unamortized original issuance discounts of \$13.6 million) was 4.8%;
- Mortgages payable of \$695.2 million (excluding net premiums totaling \$11.0 million on these mortgages) was 5.0%;
- Credit facility outstanding borrowings of \$439.0 million was 1.2%;
- Term loans outstanding borrowings of \$320.0 million was 1.2%; and
- Combined outstanding notes, bonds, mortgages, term loan and credit facility borrowings of \$5.3 billion was 4.3%.

General and Administrative Expenses

General and administrative expenses decreased by \$164,000 to \$10.9 million in the third quarter of 2015, compared to \$11.0 million in the third quarter of 2014. General and administrative expenses increased by \$832,000 to \$36.3 million for the first nine months of 2015, compared to \$35.5 million in the first nine months of 2014. Included in general and administrative expenses are acquisition transaction costs of \$368,000 for the first nine months of 2015 and \$589,000 for the first nine months of 2014. In October 2015, we had 130 employees, as compared to 124 employees in October 2014.

Dollars in thousands	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
General and administrative expenses	\$ 10,861	\$ 11,025	\$ 36,331	\$ 35,499
Total revenue ⁽¹⁾	248,702	227,438	727,860	665,060
General and administrative expenses as a percentage of total revenue	4.4%	4.8%	5.0%	5.3%

⁽¹⁾ Excludes all tenant reimbursements revenue, as well as revenue included in discontinued operations and gains on sales.

[Table of Contents](#)

Property Expenses (including tenant reimbursable expenses)

Property expenses consist of costs associated with unleased properties, leased properties and general portfolio expenses, as well as contractually obligated reimbursable costs from tenants for recoverable real estate taxes and operating expenses. Expenses related to unleased properties and expenses we are responsible for on some of the leased properties include, but are not limited to, property taxes, maintenance, insurance, utilities, property inspections, bad debt expense and legal fees. General portfolio expenses include, but are not limited to, insurance, legal, property inspections, and title search fees. At September 30, 2015, 74 properties were available for lease, as compared to 70 properties at December 31, 2014 and 74 properties at September 30, 2014.

Property expenses were \$13.5 million (including \$10.2 million in reimbursable expenses) in the third quarter of 2015, and \$12.8 million (including \$8.3 million in reimbursable expenses) in the third quarter of 2014. Property expenses were \$42.5 million (including \$31.8 million in reimbursable expenses) in the first nine months of 2015 and \$33.5 million (including \$20.9 million in reimbursable expenses) in the first nine months of 2014. The increase in gross property expenses in the first nine months of 2015 is primarily attributable to the increased portfolio size, which contributed to higher contractually obligated reimbursements primarily due to our acquisitions during 2014 and the first nine months of 2015.

While the gross property expenses have increased, our net property expenses (net of tenant reimbursements) has actually decreased during the three and nine months ended September 30, 2015 as compared to 2014. The net expenses have decreased primarily due to lower portfolio vacancy, lower property insurance premiums and fewer one-time maintenance expenses.

Dollars in thousands	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
Property expenses net of tenant reimbursements	\$ 3,355	\$ 4,495	\$ 10,698	\$ 12,602
Total revenue ⁽¹⁾	248,702	227,438	727,860	665,060
Property expenses net of tenant reimbursements as a percentage of total revenue	1.3%	2.0%	1.5%	1.9%

⁽¹⁾ Excludes all tenant reimbursements revenue, as well as revenue included in discontinued operations and gains on sales.

Income Taxes

Income taxes were \$745,000 in the third quarter of 2015, as compared to \$697,000 in the third quarter of 2014. Income taxes were \$2.4 million in the first nine months of 2015 and 2014, respectively. These amounts are for city and state income and franchise taxes paid by Realty Income and its subsidiaries.

Discontinued Operations

During the first quarter of 2014, the Financial Accounting Standards Board issued guidance that changed the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have, or will have, a major effect on an entity's operations and financial results. We early adopted the requirements of this accounting pronouncement in the first quarter of 2014. Starting with the first quarter of 2014, the results of operations for all qualifying disposals and properties classified as held for sale that were not previously reported in discontinued operations in our 2013 Annual Report on Form 10-K are presented within income from continuing operations on our consolidated statements of income

Operations from 17 properties were classified as held for sale at September 30, 2015, and are included in income from continuing operations. For the nine months ended September 30, 2014, we recorded income from discontinued operations of \$3.1 million, or \$0.01 per common share, basic and diluted.

Provisions for Impairment

For the third quarter of 2015, we recorded total provisions for impairment of \$3.9 million on one property classified as held for sale, one property classified as held for investment, and two sold properties. For the first nine months of 2015, we recorded total provisions for impairment of \$9.2 million on four properties classified as held for sale, three properties classified as held for investment, four sold properties, and one property disposed of other than by sale. These properties were not previously classified as held for sale in financial statements issued prior to the date of adoption of Accounting Standards Update 2014-08 (ASU 2014-08), which amends Topic 205, *Presentation of Financial Statements*, and Topic 360, *Property, Plant, and Equipment*; accordingly, the provisions for impairment are included in income from continuing operations on our consolidated statements of income for the three and nine months September 30, 2015.

[Table of Contents](#)

For the third quarter of 2014, we recorded total provisions for impairment of \$495,000 on four sold properties. For the first nine months of 2014, we recorded total provisions for impairment of \$2.7 million on nine sold properties. These properties were not previously classified as held for sale in financial statements issued prior to the date of adoption of ASU 2014-08, accordingly, the provisions for impairment are included in income from continuing operations on our consolidated statements of income for the three and nine months September 30, 2014.

Gain on Sales of Real Estate

During the third quarter of 2015, we sold eight properties for \$21.5 million, which resulted in a gain of \$6.2 million. During the first nine months of 2015, we sold 22 investment properties for \$52.0 million, which resulted in a gain of \$17.1 million. The results of operations for these properties are presented within continuing operations.

In comparison, during the third quarter of 2014, we sold 11 properties for \$33.8 million, which resulted in a gain of \$11.0 million. During the first nine months of 2014, we sold 28 properties for \$53.6 million, which resulted in a gain of \$16.8 million. Only the results of operations specifically related to the properties classified as held for sale at December 31, 2013 and sold during the first nine months of 2014 have been reclassified as discontinued operations.

During the first nine months of 2015, Crest Net Lease, Inc., or Crest, did not sell any properties. During the first nine months of 2014, Crest sold one property for \$820,000, which did not result in a gain. The results of operations for this property were reclassified as discontinued operations.

Preferred Stock Dividends

Preferred stock dividends totaled \$6.8 million in the third quarter of 2015 and \$9.3 million in the third quarter of 2014. Preferred stock dividends totaled \$20.3 million in the first nine months of 2015 and \$30.3 million in the first nine months of 2014.

In October 2014, we redeemed all 8,800,000 shares of our 6.75% Monthly Income Class E Cumulative Redeemable Preferred Stock, or the Class E preferred stock, for \$25.00 per share, plus accrued dividends. We incurred a non-cash charge of \$6.0 million. This charge is for the excess of redemption value over the carrying value of the Class E preferred stock and represents the original issuance cost that was paid in 2006.

Net Income Available to Common Stockholders

Net income available to common stockholders was \$60.7 million in the third quarter of 2015, compared to \$57.9 million in the third quarter of 2014, an increase of \$2.8 million. On a diluted per common share basis, net income was \$0.26 in the third quarter of 2015 and 2014.

Net income available to common stockholders was \$180.5 million in the first nine months of 2015, compared to \$156.5 million in the first nine months of 2014, an increase of \$24.0 million, or 15.3%. On a diluted per common share basis, net income was \$0.78 in the first nine months of 2015, as compared to \$0.72 in the first nine months of 2014, an increase of \$0.06, or 8.3%.

The calculation to determine net income available to common stockholders includes impairments and/or gains from the sale of properties. The amount of impairments and/or gains varies from period to period based on the timing of property sales and can significantly impact net income available to common stockholders.

FUNDS FROM OPERATIONS (FFO) AVAILABLE TO COMMON STOCKHOLDERS

FFO for the third quarter of 2015 increased by \$19.9 million, or 14.0%, to \$162.2 million, compared to \$142.3 million in the third quarter of 2014. On a diluted per common share basis, FFO was \$0.69 in the third quarter of 2015, compared to \$0.64 in the third quarter of 2014, an increase of \$0.05, or 7.8%. In the first nine months of 2015, our FFO increased by \$55.3 million, or 13.2%, to \$474.5 million, compared to \$419.2 million in the first nine months of 2014. On a diluted per common share basis, FFO was \$2.05 in the first nine months of 2015, compared to \$1.93 in the first nine months of 2014, an increase of \$0.12, or 6.2%.

[Table of Contents](#)

The following is a reconciliation of net income available to common stockholders (which we believe is the most comparable GAAP measure) to FFO. Also presented is information regarding distributions paid to common stockholders and the weighted average number of common shares used for the basic and diluted computation per share (dollars in thousands, except per share amounts):

	Three months ended September 30,				Nine months ended September 30,			
	2015		2014		2015		2014	
Net income available to common stockholders	\$	60,705	\$	57,941	\$	180,515	\$	156,540
Depreciation and amortization		104,338		95,260		303,476		278,124
Depreciation of furniture, fixtures and equipment		(184)		(125)		(608)		(320)
Provisions for impairment on investment properties		3,864		495		9,182		2,676
Gain on sales of investment properties:								
Continuing operations		(6,224)		(10,975)		(17,117)		(14,211)
Discontinued operations		-		-		-		(2,607)
FFO adjustments allocable to noncontrolling interests		(339)		(337)		(918)		(1,032)
FFO available to common stockholders ⁽¹⁾	\$	162,160	\$	142,259	\$	474,530	\$	419,170
FFO per common share, basic and diluted ⁽²⁾	\$	0.69	\$	0.64	\$	2.05	\$	1.93
Distributions paid to common stockholders	\$	134,489	\$	122,092	\$	392,767	\$	356,735
FFO in excess of distributions paid to common stockholders	\$	27,671	\$	20,167	\$	81,763	\$	62,435
Weighted average number of common shares used for computation per share:								
Basic		236,211,706		222,061,661		231,434,521		216,804,815
Diluted ⁽²⁾		236,739,942		222,236,071		231,545,745		216,830,013

⁽¹⁾ FFO available to common stockholders and dilutive noncontrolling interests for the three months ended September 30, 2015 is \$162,377 after the inclusion of \$217 of FFO allocable to dilutive noncontrolling interests. Noncontrolling interests were anti-dilutive for all other periods presented.

⁽²⁾ The computation of diluted FFO does not assume conversion of securities that are convertible to common shares if the conversion of those securities would increase diluted FFO per share in a given period.

We define FFO, a non-GAAP measure, consistent with the National Association of Real Estate Investment Trust's definition, as net income available to common stockholders, plus depreciation and amortization of real estate assets, plus impairments of depreciable real estate assets, reduced by gains on property sales and extraordinary items.

We consider FFO to be an appropriate supplemental measure of a REIT's operating performance as it is based on a net income analysis of property portfolio performance that adds back items such as depreciation and impairments for FFO. The historical accounting convention used for real estate assets requires straight-line depreciation of buildings and improvements, which implies that the value of real estate assets diminishes predictably over time. Since real estate values historically rise and fall with market conditions, presentations of operating results for a REIT, using historical accounting for depreciation, could be less informative. The use of FFO is recommended by the REIT industry as a supplemental performance measure. In addition, FFO is used as a measure of our compliance with the financial covenants of our new credit facility.

ADJUSTED FUNDS FROM OPERATIONS (AFFO) AVAILABLE TO COMMON STOCKHOLDERS

AFFO for the third quarter of 2015, increased by \$23.4 million, or 16.4%, to \$165.8 million, compared to \$142.4 million in the third quarter of 2014. On a diluted per common share basis, AFFO was \$0.70 in the third quarter of 2015 and \$0.64 in the third quarter of 2014, an increase of \$0.06, or 9.4%. In the first nine months of 2015, our AFFO increased by \$60.7 million, or 14.6%, to \$477.0 million, compared to \$416.3 million in the first nine months of 2014. On a diluted per common share basis, AFFO was \$2.06 in the first nine months of 2015, compared to \$1.92 in the first nine months of 2014, an increase of \$0.14, or 7.3%. We consider AFFO to be an appropriate supplemental measure of our performance. Most companies in our industry use a similar measurement, but they may use the term "CAD" (for Cash Available for Distribution), "FAD" (for Funds Available for Distribution) or other terms.

The following is a reconciliation of net income available to common stockholders (which we believe is the most comparable GAAP measure) to FFO and AFFO. Also presented is information regarding distributions paid to common stockholders and the weighted average number of common shares used for the basic and diluted computation per share (dollars in thousands, except per share amounts):

	Three months ended September 30,		Nine months ended September 30,	
	2015	2014	2015	2014
Net income available to common stockholders	\$ 60,705	\$ 57,941	\$ 180,515	\$ 156,540
Cumulative adjustments to calculate FFO ⁽¹⁾	101,455	84,318	294,015	262,630

Total AFFO available to common stockholders ⁽⁴⁾	\$ 165,790	\$ 142,429	\$ 477,006	\$ 416,255
AFFO per common share:				
Basic	\$ 0.70	\$ 0.64	\$ 2.06	\$ 1.92
Diluted ⁽⁴⁾	\$ 0.70	\$ 0.64	\$ 2.06	\$ 1.92
Distributions paid to common stockholders	\$ 134,489	\$ 122,092	\$ 392,767	\$ 356,735
AFFO in excess of distributions paid to common stockholders	\$ 31,301	\$ 20,337	\$ 84,239	\$ 59,520
Weighted average number of common shares used for computation per share:				
Basic	236,211,706	222,061,661	231,434,521	216,804,815
Diluted ⁽⁵⁾	236,739,942	222,236,071	231,545,745	216,830,013

⁽¹⁾ See reconciling items for FFO presented under "Funds from Operations (FFO) Available to Common Stockholders."

⁽²⁾ Includes the amortization of costs incurred and capitalized upon issuance of our notes payable, assumption of our mortgages payable and upon issuance of our term loans. The deferred financing costs are being amortized over the lives of the respective mortgages and term loans. No costs associated with our credit facility agreements or annual fees paid to credit rating agencies have been included.

⁽³⁾ Includes adjustments allocable to both non-controlling interests and capital lease obligations.

[Table of Contents](#)

⁽⁴⁾ AFFO available to common stockholders and dilutive noncontrolling interests for the three months ended September 30, 2015 is \$166,009 after the inclusion of \$219 of AFFO allocable to dilutive noncontrolling interests. Noncontrolling interests were anti-dilutive for all other periods presented.

⁽⁵⁾ The computation of diluted AFFO does not assume conversion of securities that are convertible to common shares if the conversion of those securities would increase diluted AFFO per share in a given period.

We believe the non-GAAP financial measure AFFO provides useful information to investors because it is a widely accepted industry measure of the operating performance of real estate companies that is used by industry analysts and investors who look at and compare those companies. In particular, AFFO provides an additional measure to compare the operating performance of different REITs without having to account for differing depreciation assumptions and other unique revenue and expense items which are not pertinent to measuring a particular company's on-going operating performance. Therefore, we believe that AFFO is an appropriate supplemental performance metric, and that the most appropriate GAAP performance metric to which AFFO should be reconciled is net income available to common stockholders.

Presentation of the information regarding FFO and AFFO is intended to assist the reader in comparing the operating performance of different REITs, although it should be noted that not all REITs calculate FFO and AFFO in the same way, so comparisons with other REITs may not be meaningful. Furthermore, FFO and AFFO are not necessarily indicative of cash flow available to fund cash needs and should not be considered as alternatives to net income as an indication of our performance. FFO and AFFO should not be considered as alternatives to reviewing our cash flows from operating, investing, and financing activities. In addition, FFO and AFFO should not be considered as measures of liquidity, of our ability to make cash distributions, or of our ability to pay interest payments.

PROPERTY PORTFOLIO INFORMATION

At September 30, 2015, we owned a diversified portfolio:

- Of 4,473 properties;
- With an occupancy rate of 98.3%, or 4,399 properties leased and 74 properties available for lease;
- Leased to 236 different commercial tenants doing business in 47 separate industries;
- Located in 49 states and Puerto Rico;
- With over 74.8 million square feet of leasable space; and
- With an average leasable space per property of approximately 16,740 square feet, including approximately 11,580 square feet per retail property and 215,460 square feet per industrial property.

At September 30, 2015, of our 4,473 properties, 4,399 were leased under net lease agreements. A net lease typically requires the tenant to be responsible for minimum monthly rent and certain property operating expenses including property taxes, insurance, and maintenance. In addition, our tenants are typically subject to future rent increases based on increases in the consumer price index (typically subject to ceilings), additional rent calculated as a percentage of the tenants' gross sales above a specified level, or fixed increases.

At September 30, 2015, our 236 commercial tenants, which we define as retailers with over 50 locations and non-retailers with over \$500 million in annual revenues, represented approximately 95% of our annualized revenue. We had 276 additional tenants, representing approximately 5% of our annualized revenue at September 30, 2015, which brings our total tenant count to 512 tenants.

⁽¹⁾ Includes rental revenue for all properties owned by Realty Income at the end of each period presented, including revenue from properties reclassified as discontinued operations. Excludes revenue from properties owned by Crest Net Lease, Inc., or Crest.

[Table of Contents](#)**Property Type Composition**

The following table sets forth certain property type information regarding Realty Income's property portfolio as of September 30, 2015 (dollars in thousands):

Property Type	Number of Properties	Approximate Leasable Square Feet	Rental Revenue for the Quarter Ended September 30, 2015 ⁽¹⁾	Percentage of Rental Revenue
Retail	4,315	49,974,300	\$ 195,847	79.2%
Industrial ⁽²⁾	99	21,330,400	31,080	12.6
Office	44	3,403,200	14,941	6.0
Agriculture	15	184,500	5,333	2.2
Totals	4,473	74,892,400	\$ 247,201	100.0%

⁽¹⁾ Includes rental revenue for all properties owned by Realty Income at September 30, 2015. Excludes revenue of \$34 from properties owned by Crest and \$343 from sold properties that were included in continuing operations.

⁽²⁾ Includes 14 Industrial properties formerly classified as Manufacturing properties which represent approximately 2% of rental revenue for the quarter ended September 30, 2015. These properties are principally distribution facilities used for light assemblage, processing, and/or storage. We re-classified these properties to our Industrial category to better reflect their use and to better clarify the categorization of our properties.

Tenant Diversification

The following table sets forth the largest tenants based on percentage of total portfolio rental revenue at September 30, 2015:

Tenant	Number of Properties	% of Rental Revenue
Walgreens	176	7.0%
FedEx	39	5.2%
Dollar General	502	4.5%
Dollar Tree / Family Dollar	456	4.2%

⁽¹⁾ Includes rental revenue for all properties owned by Realty Income at September 30, 2015. Excludes revenue of \$34 from properties owned by Crest and \$343 from sold properties that were included in continuing operations.

IMPACT OF INFLATION

Tenant leases generally provide for limited increases in rent as a result of increases in the tenants' sales volumes, increases in the consumer price index (typically subject to ceilings), or fixed increases. We expect that inflation will cause these lease provisions to result in rent increases over time. During times when inflation is greater than increases in rent, as provided for in the leases, rent increases may not keep up with the rate of inflation.

Of our 4,473 properties in our portfolio, approximately 97.9% or 4,380 are leased to tenants under net leases where the tenant is responsible for property expenses. Net leases tend to reduce our exposure to rising property expenses due to inflation. Inflation and increased costs may have an adverse impact on our tenants if increases in their operating expenses exceed increases in revenue.

IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

For information on the impact of recent accounting pronouncements on our business, see note 2 of the Notes to the Consolidated Financial Statements.

OTHER INFORMATION

Our common stock is listed on the NYSE under the ticker symbol "O" with a cusip number of 756109-104. Our central index key number is 726728.

Our 6.625% Monthly Income Class F Cumulative Redeemable Preferred Stock is listed on the NYSE under the ticker symbol "OpF" with a cusip number of 756109-807.

We maintain a corporate website at www.realtyincome.com. On our website we make available, free of charge, copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, Form 3s, Form 4s, Form 5s, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we electronically file these reports with the SEC. None of the information on our website is deemed to be a part of this report.

We are committed to providing an enjoyable, diverse, and safe working atmosphere for our employees, to upholding our corporate responsibilities as a public company operating for the benefit of our shareholders, and to being mindful of the environment. As The Monthly Dividend Company[®], we believe our primary responsibility is to provide monthly dividends to our shareholders. How we manage and use the physical, human, and financial resources that enable us to acquire and own the real estate, which provides us with the lease revenue to pay monthly dividends, demonstrates our commitment to corporate responsibility.

Social Responsibility and Ethics. We are committed to being socially responsible and conducting our business according to the highest ethical standards. Our employees enjoy compensation that is in line with those of our peers and competitors, including generous healthcare benefits for employees and their families; participation in a 401(k) plan with a matching contribution by Realty Income; competitive paid time-off benefits; and an infant-at-work program for new parents. Our employees also have access to members of our Board of Directors to report anonymously, if desired, any suspicion of misconduct by any member of our senior management or executive team. We also have a long-standing commitment to equal employment opportunity and adhere to all Equal Employer Opportunity Policy guidelines.

We apply the principles of full and fair disclosure in all of our business dealings, as outlined in our Corporate Code of Business Ethics. We are also committed to dealing fairly with all of our customers, suppliers, and competitors.

[Table of Contents](#)

Corporate Governance. We believe that nothing is more important than a company's reputation for integrity and serving as a responsible fiduciary for its shareholders. We are committed to managing the company for the benefit of our shareholders and are focused on maintaining good corporate governance. Practices that illustrate this commitment include:

- Our Board of Directors is comprised of eight directors, seven of which are independent, non-employee directors;
- Our Board of Directors is elected on an annual basis;
- We employ a majority vote standard for elections;
- Our Compensation Committee of the Board of Directors works with independent consultants, in conducting annual compensation reviews for our key executives, and compensates each individual based on primarily reaching certain performance metrics that determine the success of our company; and
- We adhere to all other corporate governance principles outlined in our "Corporate Governance Guidelines" document on our website.

Environmental Practices. Our focus on energy related matters is demonstrated by how we manage our day-to-day activities in our corporate headquarters. In our headquarters, we promote energy conservation and encourage the following practices:

- Powering down office equipment at the end of the day;
- Setting copier machines to "energy saver mode;"
- Encouraging employees to reduce paper usage whenever possible, by storing documents electronically and using "duplex" copy mode;
- Employing an automated "lights out" system that is activated 24/7;
- Programming HVAC to only operate during normal business operating hours; and
- Encouraging employees to carpool to our headquarters.

In addition, our headquarters was constructed according to the State of California energy standards, specifically following California Green Building Standards Code and Title 24 of the California Code of Regulations, with features including high efficiency lighting and heating and cooling systems.

With respect to recycling and reuse practices, we encourage the use of recycled products and the recycling of materials during our operations.

Recycling bins are placed in all areas where materials are regularly disposed of and at the individual desks of our employees. Cell phones, wireless devices and office equipment are recycled or donated whenever possible.

With respect to the properties that we own, these properties are net-leased to our tenants who are responsible for maintaining the buildings and are in control of their energy usage and environmental sustainability practices.

Item 3: Quantitative and Qualitative Disclosures about Market Risk

We are exposed to interest rate changes primarily as a result of our new credit facility, term loans, mortgages payable, and long-term notes and bonds used to maintain liquidity and expand our real estate investment portfolio and operations. Our interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flow and to lower our overall borrowing costs. To achieve these objectives we issue long-term notes and bonds, primarily at fixed rates.

In order to mitigate and manage the effects of interest rate risks on our operations, we may utilize a variety of financial instruments, including interest rate swaps and caps. The use of these types of instruments to hedge our exposure to changes in interest rates carries additional risks, including counterparty credit risk, the enforceability of hedging contracts and the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. To limit counterparty credit risk we will seek to enter into such agreements with major financial institutions with favorable credit ratings. There can be no assurance that we will be able to adequately protect against the foregoing risks or realize an economic benefit that exceeds the related amounts incurred in connection with engaging in such hedging activities. We do not enter into any derivative transactions for speculative or trading purposes.

[Table of Contents](#)

The following table presents by year of expected maturity, the principal amounts, average interest rates and estimated fair values of our fixed and variable rate debt as of September 30, 2015. This information is presented to evaluate the expected cash flows and sensitivity to interest rate changes (dollars in millions):

Expected Maturity Data

Year of maturity	Fixed rate debt	Weighted average rate on fixed rate debt	Variable rate debt	Weighted average rate on variable rate debt
2015	\$ 151.8	5.50%	\$ 0.0	2.54 %
2016	500.5	5.37	0.2	2.54
2017	308.1	5.63	9.6	2.40
2018	365.1	2.15	70.2	1.40
2019	554.3	6.74	460.8	1.14
Thereafter	2,561.5	4.52	272.0	1.25
Totals ⁽¹⁾	\$ 4,441.3	4.81%	\$ 812.8	1.21 %
Fair Value ⁽²⁾	\$ 4,663.9		\$ 809.4	

⁽¹⁾ Excludes net premiums recorded on mortgages payable and original issuance discounts recorded on notes payable. At September 30, 2015, the unamortized balance of net premiums on mortgages payable is \$11.0 million, and the unamortized balance of original issuance discounts on notes payable is \$13.6 million.

⁽²⁾ We base the estimated fair value of the fixed rate senior notes and bonds at September 30, 2015 on the indicative market prices and recent trading activity of our senior notes and bonds payable. We base the estimated fair value of our fixed rate and variable rate mortgages at September 30, 2015 on the relevant Treasury yield curve, plus an applicable credit-adjusted spread. We believe that the carrying value of the credit facility balance and term loans balance reasonably approximate their estimated fair values at September 30, 2015.

The table incorporates only those exposures that exist as of September 30, 2015. It does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations, would depend on the exposures that arise during the period, our hedging strategies at the time, and interest rates.

All of our outstanding notes and bonds have fixed interest rates. All of our mortgages payable, except four mortgages totaling \$51.0 million at September 30, 2015, including net unamortized discounts, have fixed interest rates. After factoring in arrangements which limit our exposure to interest rate risk and effectively fix our per annum interest rates, our variable rate mortgage debt includes two mortgages totaling \$15.5 million at September 30, 2015. Interest on our new credit facility and term loan balances is variable. However, the variable interest rate feature on our term loans has been mitigated by interest rate swap agreements. Based on our new credit facility balance of \$439.0 million at September 30, 2015, a 1% change in interest rates would change our interest costs by \$4.4 million per year.

Item 4: Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of and for the quarter ended September 30, 2015, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and were operating at a reasonable assurance level.

[Table of Contents](#)

Changes in Internal Controls

There were no changes to our internal control over financial reporting that occurred during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. As of September 30, 2015, there were no material weaknesses in our internal controls, and therefore, no corrective actions were taken.

Limitations on the Effectiveness of Controls

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During September 2015, 2,087 shares of stock, at a price of \$43.38, were withheld for state and federal payroll taxes on the vesting of employee stock awards, as permitted under the 2012 Incentive Award Plan of Realty Income Corporation.

Item 6: Exhibits

Articles of Incorporation and By-Laws

<u>Exhibit No.</u>	<u>Description</u>
2.1	Agreement and Plan of Merger, dated as of September 6, 2012, by and among Realty Income Corporation, Tau Acquisition LLC and American Realty Capital Trust, Inc. (filed as exhibit 2.1 to the Company's Form 8-K, filed on September 6, 2012 and incorporated herein by reference).
2.2	First Amendment to Agreement and Plan of Merger, dated as of January 6, 2013, by and among Realty Income Corporation, Tau Acquisition LLC and American Realty Capital Trust, Inc. (filed as exhibit 2.1 to the Company's Form 8-K, filed on January 7, 2013 and incorporated herein by reference).
3.1	Articles of Incorporation of the Company, as amended by amendment No. 1 dated May 10, 2005 and amendment No. 2 dated May 10, 2005 (filed as exhibit 3.1 to the Company's Form 10-Q for the quarter ended June 30, 2005 and incorporated herein by reference), amendment No. 3 dated July 29, 2011 (filed as exhibit 3.1 to the Company's Form 8-K, filed on August 2, 2011 and incorporated herein by reference); and amendment No. 4 dated June 21, 2012 (filed as exhibit 3.1 to the Company's Form 8-K, filed on June 21, 2012 and incorporated herein by reference).
3.2	Amended and Restated Bylaws of the Company dated December 12, 2007 (filed as exhibit 3.1 to the Company's Form 8-K, filed on December 13, 2007 and incorporated herein by reference), as amended on May 13, 2008 (filed as exhibit 3.1 to the Company's Form 8-K, filed on May 14, 2008 and incorporated herein by reference), February 7, 2012 (filed as exhibit 3.1 to the Company's Form 8-K, filed on February 13, 2012 and incorporated herein by reference), February 21, 2012 (filed as exhibit 3.1 to the Company's Form 8-K, filed on February 22, 2012 and incorporated herein by reference), March 13, 2013 (filed as exhibit 3.1 to the Company's Form 8-K, filed on March 14, 2013 and incorporated herein by reference), September 3, 2013 (filed as exhibit 3.1 to the Company's Form 8-K, filed on September 6, 2013 and incorporated herein by reference), April 15, 2014 (filed as exhibit 3.1 to the Company's Form 8-K filed on April 17, 2014 and incorporated herein by reference), and June 16, 2015 (filed as exhibit 3.1 to the Company's Form 8-K filed on June 17, 2015 and incorporated herein by reference)

Sean P. Nugent
Vice President, Controller
(Principal Accounting Officer)

EXHIBIT 31.1

Certification of Chief Executive Officer

I, John P. Case, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Realty Income Corporation for the quarter ended September 30, 2015;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Executive Vice President,
Chief Financial Officer and Treasurer

Exhibit 32

**Certification of Chief Executive Officer and Chief Financial Officer
Pursuant to 18 U.S.C. SECTION 1350**

Pursuant to 18 U.S.C. Section 1350, as created by Section 906 of the Sarbanes-Oxley Act of 2002, each of the undersigned officers of Realty Income Corporation, a Maryland corporation (the "Company"), hereby certify, to his best knowledge, that:

- (i) the accompanying quarterly report on Form 10-Q of the Company for the quarter ended September 30, 2015, (the "Report") fully complies with the requirements of Section 13(a) or Section 15(d), as applicable, of the Securities Exchange Act of 1934, as amended (the "Act"); and
- (ii) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ JOHN P. CASE

John P. Case
Chief Executive Officer, President

/s/ PAUL M. MEURER

Paul M. Meurer
Executive Vice President, Chief Financial Officer and Treasurer

The foregoing certification is being furnished solely to accompany the Report pursuant to 18 U.S.C. Section 1350, and is not being filed for purposes of Section 18 of the Act, and is not to be incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.
