Beginning at 9:00 A.M. Pacific Daylight Time
and at any postponements or adjournments of the Annual Meeting

Our Board of Directors is soliciting proxies for the 2013 Annual Meeting of Stockholders, or the Annual Meeting. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the Annual Meeting. In this Proxy Statement, "Realty Income," the "company," "we" and "our" refer to Realty Income Corporation, a Maryland corporation. A copy of our 2012 Annual Report, the Notice of Annual Meeting, this Proxy Statement and the accompanying proxy card are being mailed to our stockholders beginning on or about April 1, 2013.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to be Held on May 7, 2013:

The Notice of Annual Meeting, this proxy statement, a form of proxy card and our 2012 annual report to stockholders are available on our website at www.realtyincome.com/investing/2013-annual-docs.shtml. You are encouraged to access and review all of the information contained in the proxy materials before voting.

FREQUENTLY ASKED QUESTIONS

Why did I receive these proxy materials?

We are providing these proxy materials to our stockholders in connection with the solicitation of proxies by our Board of Directors for exercise at the Annual Meeting.

You are invited to attend our Annual Meeting, which will be held at the California Center for the Arts Escondido, 340 North Escondido Boulevard, Escondido, California 92025. Stockholders will be admitted to the Annual Meeting at 8:30 AM and refreshments will be provided.

Do I need a ticket to attend the Annual Meeting?

No, you do not need a ticket, but you will need to register and identify yourself as a stockholder in order to receive certain Annual Meeting materials when you arrive.

What is the purpose of the Annual Meeting?

At the Annual Meeting, stockholders will consider and vote upon:

- The election of seven directors to serve until the 2014 annual meeting of stockholders and until their respective successors are duly elected and qualify;
- The ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2013;
- A non-binding advisory vote to approve the compensation of our named executive officers as described in this Proxy Statement (the "say on pay vote");
- The transaction of such other business as may properly come before the Annual Meeting or any postponements or adjournments of the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Holders of our common stock at the close of business on March 7, 2013 are entitled to receive notice of and to vote their shares at the Annual Meeting. As of that date, there were 178,926,654 shares of common stock outstanding and entitled to vote. Each outstanding share of our common stock is entitled to one vote on each matter properly brought before the Annual Meeting.

What is the difference between holding shares as a stockholder of record or as a beneficial owner?

If your shares are registered directly in your name with our transfer agent, Wells Fargo Shareowner Services, you are considered the “stockholder of record.” In this case, you receive your dividend check from Wells Fargo Shareowner Services. This year we have engaged the services of Broadridge Financial Solutions (“Broadridge”) to mail our proxy materials to our registered holders.

If your shares are held in a brokerage account, or by a bank or other holder of record, you are considered the “beneficial owner” of shares held in street name. These proxy materials have been forwarded to you by your broker, bank, or other holder of record. As the beneficial owner, you have the right to direct your broker, bank, or other holder of record on how to vote your shares by using the voting instruction form included in the mailing or by following their instructions for authorizing your proxy by telephone or on the internet.

Is it necessary to vote if my shares are held in my brokerage account?

It is important to vote your shares even if your shares are held in a brokerage account. Otherwise, your shares may not be voted on certain matters unless you have a “Legal Proxy” in place authorizing them to vote your shares on your behalf, or you provide voting instructions to your broker, bank or other holder of record. If you are unsure, then please vote your Realty Income shares using the voting information provided.

How do I vote?

You may vote using any of the following methods:

By Mail

Be sure to complete, sign and date the proxy card or voting instruction form and return it in the prepaid envelope. If you are a stockholder of record, and the prepaid envelope is missing, please mail your completed proxy to: Realty Income Corporation, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717.

By Telephone

Stockholders may authorize their proxies by telephone. The telephone voting procedures are designed to authenticate your identity, to allow you to authorize your proxy, to give your voting instructions and to confirm that those

instructions have been properly recorded. You may authorize your proxy by calling the toll-free number on the proxy card or your broker’s voting instruction form. Please have your card or form available when you call as it contains your “control number,” which will be required to identify yourself and authorize your proxy to vote your shares. Telephone facilities will be available 24 hours a day and will close at 11:59 P.M. Central Daylight Time on May 6, 2013. If you authorize your proxy by telephone, you do not have to return your proxy or voting instruction form.

By Internet

Stockholders may authorize their proxies on the internet by going to the website indicated on the proxy card or your broker’s voting instruction form. Step-by-step instructions on how to authorize or vote your proxy are provided on the voting sites.

In person at the Annual Meeting

All stockholders of record may vote in person at the Annual Meeting. You may also be represented by another person at the meeting by executing a proper proxy designating that person as your representative. If you are a beneficial owner of shares, you must obtain a Legal Proxy from your broker, bank or other holder of record and present it to the inspector of election at the Annual Meeting to be able to vote at the Annual Meeting.

What happens if I do not indicate my voting preferences?

If you are a stockholder of record and you submit your proxy card or authorize your proxy by telephone or internet, but do not indicate your voting preferences, the persons named in the proxy will vote the shares represented by that proxy FOR the election to the Board of Directors of the seven nominees listed in this proxy statement, FOR the ratification of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2013, FOR the say on pay vote, and in the discretion of the proxy holders on any other matter that may properly come before the Annual Meeting.

If you hold your shares through a broker and do not instruct your broker on how to vote your shares, your broker cannot vote your shares on the election of directors or the say on pay vote, but can vote your shares on the proposal regarding ratification of the appointment of our auditor.

Can I change my vote after I submit my proxy?

If you are a stockholder of record, you may revoke your proxy at any time before it is voted at the Annual Meeting by doing any one of the following:

- delivering to our Corporate Secretary a written notice of revocation prior to or at the Annual Meeting;
- signing and returning to our Corporate Secretary a proxy bearing a later date;
- authorizing another proxy by telephone or on the internet (your most recent telephone or internet authorization is used); or
- voting in person at the Annual Meeting.

If your shares are held in the name of a broker, bank, trust or other nominee, you may change your voting instructions by following the instructions provided by your broker, bank or other record holder in the voting instruction form.

Your attendance at the Annual Meeting will not by itself be sufficient to revoke a proxy unless you vote in person or give written notice of revocation to our Corporate Secretary before the polls are closed. Any written notice revoking a proxy should be sent to Michael R. Pfeiffer, our Corporate Secretary, at our corporate offices at 600 La Terraza Boulevard, Escondido, California 92025-3873.

How does our Board of Directors recommend you vote on the proposals?

Our Board of Directors recommends a vote FOR the election of the seven director nominees listed in this proxy to serve until the 2014 annual meeting and until their respective successors are duly elected and qualify. Our Board of Directors recommends a vote FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ended December 31, 2013 and FOR the say on pay vote.

What are the quorum and voting requirements on our three proposals mentioned in this Proxy Statement?

The presence of the holders of a majority of outstanding shares of common stock entitled to vote at the Annual Meeting, present in person or represented by proxy, is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present for purposes of determining a quorum. A "broker non-vote" occurs when a bank, broker or other holder of record holding shares for

a beneficial owner properly executes and returns a proxy card, but does not vote because the broker or other holder does not have discretionary voting power and has not received voting instructions from the beneficial owner.

Proposal 1 – Election of Directors. Our Bylaws include a majority voting standard for the election of directors in uncontested elections, which are generally defined as elections in which the number of nominees does not exceed the number of directors to be elected at the meeting. In the election of directors, you may either vote "FOR," "AGAINST" or "ABSTAIN" as to each nominee. Cumulative voting is not permitted. Under the majority voting standard, in uncontested elections of directors, such as this election, each director must be elected by the affirmative vote of a majority of the votes cast by the shares present in person or represented by proxy and entitled to vote. A majority of the votes cast means that the number of votes cast "FOR" a candidate for director exceeds the number of votes cast "AGAINST" that candidate for director. Brokers do not have discretionary authority to vote for directors. Abstentions and broker non-votes will not count as a vote cast "FOR" or "AGAINST" a nominee's election and thus will have no effect in determining whether a director nominee has received a majority of the votes cast.

In accordance with the policy adopted by our Board of Directors, in this election, an incumbent candidate for director who does not receive the required votes for re-election is expected to offer his or her resignation to the Board of Directors. The Nominating/Corporate Governance Committee of the Board of Directors, or a committee of independent directors in the event the incumbent is a member of the Nominating/ Corporate Governance Committee, will then make a determination as to whether to accept or reject the tendered resignation, generally within 90 days after certification of the election results of the stockholder vote. Following such determination, we will publicly disclose the decision regarding any tendered resignation and the rationale behind such decision in a filing of a Current Report on Form 8-K with the Securities and Exchange Commission ("SEC"). If a director's offer to resign is not accepted by the Board of Directors (or properly constituted committee) or such director does not otherwise submit his or her resignation to the Board of Directors, such director shall continue to serve until his or her successor is duly elected, or his or her earlier resignation or removal.

Proposal 2 – Ratification of Selection of Independent Registered Public Accounting Firm.

The affirmative vote of a majority of all the votes cast is necessary for the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2013. Accordingly, abstentions will have no effect on the outcome of the vote with respect to ratification of the independent registered public accounting firm for the year ending December 31, 2013. If you are a beneficial owner, your bank, broker or other holder of record is permitted to vote your shares on the ratification of accountants if the broker does not receive voting instructions from you, and thus broker non-votes are not expected to result from this proposal.

Proposal 3 – Say on Pay Vote. The affirmative vote of a majority of all the votes cast is necessary for the approval of the say on pay vote. Brokers do not have discretionary authority to vote your shares on the say on pay vote. Abstentions and broker non-votes will not be counted as votes cast and will have no effect on the outcome of the vote.

Will any other business be conducted at the Annual Meeting?

Our Board of Directors does not know of any matters to be presented at the meeting other than those mentioned in this Proxy Statement. If any other matters are properly brought before the meeting, it is intended that the proxies will be voted in accordance with the discretion of the person or persons voting the proxies. Under the New York Stock Exchange rules, if you are a beneficial owner, your bank, broker or other holder of record may not vote your shares on any contested stockholder proposal without instructions from you.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent convening or resumption of the Annual Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the Annual Meeting as originally convened (except for any proxies that have effectively been revoked or withdrawn).

Who will count the vote?

Representatives of Broadridge will tabulate the votes and act as inspector of election.

Can I access the Notice of Annual Meeting, Proxy Statement and 2012 Annual Report on the internet?

These materials are available on our website and can be accessed at www.realtyincome.com/investing/2013-annual-docs.shtml.

Who bears the cost of soliciting proxies?

We will bear the cost of soliciting proxies from our stockholders. In addition to solicitation by mail, our directors, officers, employees and agents may solicit proxies by telephone, telegram, internet or otherwise. These directors, officers and employees will not be additionally compensated for the solicitation, but may be reimbursed for out-of-pocket expenses incurred in connection with the solicitation. We have retained Georgeson Inc. to assist in the solicitation of proxies for a fee of approximately \$7,500 plus reasonable out-of-pocket costs and expenses. Copies of solicitation material will be furnished to brokerage firms, fiduciaries and other custodians who hold shares of our common stock of record for beneficial owners for forwarding to such beneficial owners. We may also reimburse persons representing beneficial owners for their reasonable expenses incurred in forwarding such material.

Stockholders who authorize their proxies through the internet should be aware that they may incur costs to access the internet, such as usage charges from telephone companies or internet service providers and these costs must be borne by the stockholder.

Our common stock is traded on the New York Stock Exchange, or NYSE, under the ticker symbol "O". On March 7, 2013, the last reported sale price for our common stock on the NYSE was \$46.01 per share.

No person is authorized to make any representation with respect to the matters described in this Proxy Statement other than those contained herein and, if given or made, such information or representation must not be relied upon as having been authorized by us or any other person.

You are encouraged to read this Proxy Statement in its entirety.

PROPOSAL 1

ELECTION OF DIRECTORS

Director Nominees

The authorized number of directors under our Bylaws has been set at seven and our Board of Directors currently consists of seven directors. Based upon the recommendation of our Nominating/Corporate Governance Committee, our Board of Directors has nominated all seven of the following directors for re-election at the Annual Meeting to serve for a one-year term expiring at the annual meeting in 2014 and until their respective successors have been duly elected and qualify:

1. Kathleen R. Allen, Ph.D.
2. A. Larry Chapman
3. Priya Cherian Huskins
4. Thomas A. Lewis
5. Michael D. McKee
6. Gregory T. McLaughlin
7. Ronald L. Merriman

For more information regarding our nominees, please see "Board of Directors" below.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" EACH OF THE NOMINEES LISTED ABOVE.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has appointed KPMG LLP as the independent registered public accounting firm to audit our financial statements for the year ending December 31, 2013. Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be provided an opportunity to make a statement if the representatives desire to do so. The representatives are also expected to be available to respond to appropriate questions.

Although ratification by our stockholders is not a prerequisite to the power of the Audit Committee to appoint KPMG LLP as our independent registered public accounting firm, our Board and the Audit Committee believes such ratification to be advisable and in the best interests of the Company. Accordingly, stockholders are being requested to ratify, confirm and approve the appointment of KPMG LLP as our independent registered public accounting firm to conduct the annual audit of our consolidated financial statements for fiscal year 2013. If the stockholders do not ratify the appointment of KPMG LLP, the appointment of an independent registered public accounting firm will be reconsidered by the Audit Committee; however, the Audit Committee has appointed KPMG LLP notwithstanding the failure of the stockholders to ratify its appointment. If the appointment of KPMG LLP is ratified, the Audit Committee will continue to conduct an ongoing review of KPMG LLP's scope of engagement, pricing and work quality, among other factors, and will retain the right to replace KPMG LLP at any time.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF KPMG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR ENDING DECEMBER 31, 2013.

PROPOSAL 3

ADVISORY VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

Our Board of Directors has determined to currently hold an annual “say on pay” advisory vote. In accordance with our Board of Director’s determination and Section 14A of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and as a matter of good corporate governance, we are asking our stockholders to approve on a non-binding, advisory basis the compensation of our named executive officers (which consist of our Chief Executive Officer, Chief Financial Officer and our next three highest paid executives), as such compensation is described in the Compensation Discussion and Analysis section beginning on page 22, the tabular disclosure regarding such compensation beginning on page 36 and the accompanying narrative disclosure set forth in this proxy statement.

Our compensation programs are designed to:

1. Attract and retain qualified individuals of high integrity;
2. Motivate these individuals to enhance the Company’s performance, measured by both short-term and long-term achievements; and
3. Link executive and stockholder interests through incentive-based compensation.

We believe that our compensation policies and procedures are competitive, are focused on pay-for-performance principles and are strongly aligned with the long-term interests of our stockholders. We also believe that both the Company and our stockholders benefit from responsive corporate governance policies. The following is a summary of the key highlights of our executive compensation program:

- **We emphasize pay for performance.** Our compensation program is designed to align company-wide financial and operational achievements and stock price performance with the annual cash bonuses and equity awards granted to our named executive officers. Our annual cash bonuses and shares of restricted stock were paid based upon the Compensation Committee’s year-end assessment of our performance under the following key short term and long term performance metrics, and ratings, for 2012 of:

- (i) Short term stockholder returns (weighted 15%, rating Outstanding);
- (ii) The strength of our Balance Sheet (weighted 20%, rating Excellent);
- (iii) Short term growth in earnings metrics (weighted 15%, rating Average);
- (iv) Portfolio performance (weighted 10%, rating Good);
- (v) Acquisitions (weighted 10%, rating Outstanding);
- (vi) Long term (3 year and 5 year) relative Total Stockholder Returns (“TSR”) (weighted 20%, rating Outstanding); and
- (vii) Long term growth in earnings metrics (weighted 10%, rating Good).

The long-term performance measures were added in 2012 to ensure a balanced approach and further alignment with the interests of our stockholders.

For 2012, based on our strong performance under our performance metrics, we paid 25% above target multiples for cash bonuses and equity awards for each of our named executive officers, other than Mr. Case, who received 71% above target multiple for his cash bonus and 50% above target multiple for his equity awards, based on his leadership role in achieving the highest annual level of acquisitions (in dollar amount) in our history for the second year in a row.

- **Alignment of executive compensation with the creation of value for our stockholders.** We achieved 2012 Total Stockholder Returns of 20.1%. This one-year Total Stockholder Return was at the 76th and 52nd percentile compared to our geography and size peer groups, respectively. In 2012, approximately 86% of our CEO’s total direct compensation and approximately 77%-81% for our other named executive officers’ total direct compensation constituted compensation that was earned based on our performance or has a value which is derived from our stock price.

(continued on next page)

- **A flexible approach to annual cash incentive compensation and equity based long-term incentive awards.** Commencing in 2012, the Compensation Committee established targeted goals under each performance metrics to guide it in its evaluation of Company performance and its determination of annual cash bonuses and equity awards. The Compensation Committee employs targeted multiples of salary as guidelines for determination of cash bonuses and equity award values when performance approximates targeted (or good) performance and pays in excess of these multiples for excellent or outstanding performance. While the program provides more structure to the Compensation Committee's determinations, it also preserves the Compensation Committee's flexibility to exercise its discretion in assessing Company performance (including a comparison to our peer group's performance), market conditions and any other relevant data. This ultimately helps to ensure that the incentive bonus program is both responsive to market conditions and linked to the actual performance of the Company.

- **We are mindful of the concerns of our stockholders regarding executive compensation pay practices.** Other highlights of our compensation program include:

- In 2012, a stock ownership program was adopted for our directors, and executive officers with a position of executive vice president and above, with the CEO required to own a fixed number of shares based on five times his base salary;
- In 2012, an anti-hedging policy was implemented that prohibits directors, officers, employees and their families from entering into speculative transactions involving the Company's stock;
- There are no tax gross up payments;
- Severance payments are limited to a maximum of 18 months of salary plus 12 months of bonus; and
- At our 2012 Annual Meeting of Stockholders, our stockholders expressed substantial support for the compensation of our named executive officers, with approximately 91% of the votes cast for approval of the advisory say on pay vote.

Our Board of Directors believes that the information provided above and within the "Executive Compensation" section of this proxy statement demonstrates that the executive compensation program was designed appropriately and is working to ensure that management's interests are aligned with our stockholders' interests to support long-term value creation.

The following resolution will be submitted for a stockholder vote at the annual meeting:

RESOLVED, that the stockholders of Realty Income Corporation ("Realty Income") approve, on an advisory basis, the compensation of Realty Income's named executive officers, as disclosed in the Compensation Discussion and Analysis section and the related tabular and narrative disclosure set forth in the proxy statement.

The say on pay vote is advisory, and therefore not binding on us, the Compensation Committee or our Board of Directors.

We currently conduct annual "say on pay" advisory votes and we expect to conduct the next "say on pay" advisory vote at our 2014 annual meeting of stockholders.

OUR BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" ADOPTION OF THE RESOLUTION APPROVING THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DESCRIBED IN THE COMPENSATION DISCUSSION AND ANALYSIS SECTION AND THE RELATED TABULAR AND NARRATIVE DISCLOSURE SET FORTH IN THIS PROXY STATEMENT.

Corporate Governance

We believe that nothing is more important than a company's reputation for integrity and serving as a responsible fiduciary for its stockholders. We are committed to managing the Company for the benefit of our stockholders and are focused on maintaining good corporate governance. Practices that illustrate this commitment include:

- Our Board of Directors is comprised of six independent, non-employee directors and one employee director (the Chief Executive Officer and Vice Chairman of the Board);
- Our Board of Directors is elected on an annual basis;
- We employ a majority vote standard for director elections;
- Our Compensation Committee works with an independent consultant, in conducting annual compensation reviews for our key executives, and compensates each individual based on reaching certain performance metrics that determine the success of the Company; and
- We adhere to all other corporate governance principles outlined in our "Corporate Governance Guidelines" document.

[Table of Contents](#)

The Charters of each of our standing committees, our Code of Business Ethics and our Corporate Governance Guidelines are posted on our website at www.realtyincome.com and will be provided without charge upon request to the Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. During 2012, in accordance with the terms of each of our Committee Charters, each of our respective committees reviewed its charter. Each of our Audit Committee, Strategic Planning Committee, Compensation Committee and Nominating/Corporate Governance Committee determined that no updates to their respective charters were needed in 2012.

Code of Business Ethics. We have adopted a Code of Business Ethics that applies to our employees, officers and directors. The Board of Directors adopted the Code of Business Ethics to codify and formalize certain of our long-standing policies and principles that help ensure our business is conducted in accordance with the highest standards of moral and ethical behavior. Our Code of Business Ethics covers all areas of professional conduct, including conflicts of interest, insider trading and confidentiality, as well as requiring strict adherence to all laws and regulations applicable to our business and industry. We conduct annual training of employees regarding ethical behavior and require all employees to acknowledge the terms of, and abide by, our Code of Business Ethics. We intend to disclose any future amendments to or waivers of certain provisions of our Code of Business Ethics applicable to our principal executive officer, principal financial officer, principal accounting officer, controller and individuals performing similar functions on our website at www.realtyincome.com within five business days following such waiver or as otherwise required by the Securities and Exchange Commission (SEC) or the NYSE.

Our Board of Directors has adopted a “whistleblower” policy, which outlines a procedure for all interested parties, including employees, to submit confidential complaints, concerns, unethical business practices, violations or suspected violations for any and all matters pertaining to accounting, internal control or auditing.

Anti Hedging Policy. We have established policies that prohibit our directors, officers, other employees and their family members from engaging in any transaction that might allow them to realize gains from declines in our securities. Specifically, we prohibit transactions using derivative securities, or otherwise participating in hedging, “stop loss,” or other speculative transactions involving our securities by officers, directors, other employees and their family members. Short selling our securities, trading in any puts, calls, covered calls or other derivative products involving our securities, or the writing of purchase or call options, short sales and other similar transactions are also prohibited for our officers, directors, other employees and family members.

Planned Adoption of Compensation Clawback Policy. We expected the SEC, in accordance with the requirements of the Dodd-Frank Act, to issue in 2012 regulations regarding clawback policies. We had intended to implement our own formal clawback policy once the applicable SEC regulations were enacted. The SEC did not enact regulations in 2012, but has indicated that it will propose such regulations. We intend to adopt a clawback policy that will apply to our executive officers, in conformity with the SEC regulations, once they have been implemented. We have chosen to wait to adopt a formal policy to ensure that our policy will be fully compliant with SEC regulations.

Stock Ownership Program. In 2012, we adopted a stock ownership program for our directors, and executive vice presidents and above, with our CEO required to own a fixed number of shares based on five times his base salary. A detailed description of each of these programs and the minimum share ownership requirements is included below on page 20 and page 34 for directors and executives, respectively.

Committee Charters. Our Board of Directors has adopted a charter for each of the Audit Committee, the Compensation Committee, the Nominating/Corporate Governance Committee and the Strategic Planning Committee. Each of our charters is reviewed annually. Our Board of Directors may, from time to time, establish certain other committees to facilitate our management. We have also adopted Corporate Governance Guidelines that promote the functioning of the Board of Directors and its committees and sets forth expectations as to how the Board of Directors should perform its functions. The guidelines include information about the composition of the Board of Directors, orientation and continuing education, director compensation, Board of Directors meetings, Board of Directors committees, management succession, evaluation and compensation of senior officers, expectations of directors and information regarding the annual performance evaluation of the Board of Directors.

Social Responsibility and Ethical Standards. We are committed to being socially responsible and conducting our business according to the highest ethical standards. Our employees enjoy compensation that is in line with those of our peers and competitors, including healthcare benefits for employees and their families; participation in a 401(k) plan with a matching contribution by Realty Income; competitive vacation and time-off benefits; paid maternity leave and an infant-at-work program for new parents. Our employees also have access to members of our Board of Directors to report any suspicion of misconduct, by any member of our senior management or executive team. We also have a long-standing commitment to equal employment opportunity and adhere to all Equal Employer Opportunity Policy guidelines.

With respect to our vendors and tenants we apply the principles of full and fair disclosure in all of our business dealings, as outlined in our Corporate Code of Business Ethics. We are also committed to dealing fairly with all of our customers, suppliers and competitors.

Environmental Practices. Our focus on energy related matters is demonstrated by how we manage our day-to-day activities in our corporate headquarters building. With respect to other properties that we own, which are net-leased to our tenants who are responsible for maintaining the buildings, we encourage energy conservation and environmental sustainability practices wherever possible. In our headquarters building we promote energy conservation and encourage the following practices:

- Powering down office equipment at the end of the day;
- Setting fax and copier machines to “energy saver mode”;
- Encouraging employees to use “duplex” copy mode to reduce paper usage whenever possible;
- Employing an automated “lights out” system that is activated 24/7; and
- Programming HVAC to only operate during normal business operating hours.

In addition, our headquarters building was constructed according to the State of California energy standards and we have installed solar panels on our roof to fulfill our energy requirements. All of the windows on our building are dual-paned to increase energy efficiency and reduce our carbon footprint.

With respect to recycling and reuse practices, we encourage the use of recycled products and the recycling of materials during our operations. We will be using recycled paper for the distribution of over 135,000 copies of our 2012 annual report and proxy statement. Recycling bins are placed in all areas where materials are regularly disposed of and at the individual desks of our employees. Cell phones, wireless devices and office equipment is recycled or donated whenever possible. We also continue to pursue a paperless environment since this reduces costs and saves trees. As a result, we encourage file-sharing networks and environments to produce and edit documents in order to reduce the dissemination of hard copy documents.

More information on our corporate responsibility efforts can be found at <http://www.realtyincome.com/invest/investing-resources/corporate-responsibility.shtml>.

Board Independence

Our Board of Directors has determined that each of our current directors, except for Mr. Lewis, has no material relationship with us (either directly or indirectly through an immediate family member or as a partner, stockholder or officer of an organization that has a relationship with us) and is “independent” within the meaning of our director independence standards and NYSE director independence standards. Our Board of Directors established and employed categorical standards in determining whether a relationship is material and thus would disqualify such director from being independent. Our categorical standards of independence mirror NYSE independence requirements, except that our categorical standards additionally consider a director to be not independent if:

- The director (or an immediate family member of the director) was, within the last three years, an affiliate or executive officer of another company which was indebted to us, or to which we were indebted, where the total amount of either company’s indebtedness to the other was five percent (5%) or more of our total consolidated assets or the total consolidated assets of such other company; and
- The director (or an immediate family member of the director) was, within the last three years, an officer, director or trustee of a charitable organization where our (or an affiliated charitable foundation’s) annual discretionary charitable contributions to the charitable organization exceeded the greater of \$1 million, or five percent (5%) of that organization’s consolidated gross revenues.

“Affiliate” includes any person beneficially owning in excess of 10% of the voting power of, or a general partner or managing member of, a company.

Audit Committee

The Audit Committee of our Board of Directors was established in accordance with Section 10A-3 of the Exchange Act and is comprised of Dr. Allen and Messrs. Chapman, McLaughlin and Merriman (Chairman). Our Board of Directors has determined that Mr. Merriman and Mr. McLaughlin qualify as audit committee financial experts, as defined in Item 407 (d) of Regulation S-K and that all members of the Audit Committee are financially literate under the current listing standards of the NYSE. All of the members of the Audit Committee are “independent” within the meaning of our director independence standards, which reflect the NYSE director independence standards, as discussed above, and the audit committee requirements of the SEC. Additionally, our Board of Directors has considered Mr. Merriman’s concurrent service on the audit committees of four public companies and has determined that such simultaneous service does not impair his ability to effectively serve as Chairman of our Audit Committee.

The Audit Committee’s principal responsibilities include:

- Compliance with legal and regulatory requirements;
- The integrity of our financial statements;
- The appointment, approval and engagement of our independent registered public accounting firm, approval of any special assignments given to the independent registered public accounting firm and review of:
 - o The scope and results of the audit engagement with the independent registered public accounting firm, including the independent registered public accounting firm’s letters to the Audit Committee;
 - o The independence and qualifications of the independent registered public accounting firm;
 - o The effectiveness and efficiency of our internal accounting function; and
 - o Any proposed significant accounting changes; and
- As necessary, meeting with the Compensation Committee regarding the performance goals for key financial, internal control and risk management personnel.

Compensation Committee

The Compensation Committee of our Board of Directors is comprised of Dr. Allen and Messrs. Chapman, McKee and McLaughlin (Chairman). All of the members of the Compensation Committee are “independent” within the meaning of our director independence standards, which reflect the NYSE director independence standards as discussed above, are “non-employee directors” within the meaning of Rule 16b-3 of the Exchange Act, and are “outside directors” under the regulations promulgated under Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code.

The Compensation Committee’s principal responsibilities include:

- Establishing remuneration levels for our officers;
- Reviewing management organization and development;

[Table of Contents](#)

- Reviewing significant employee benefits programs; and
- Establishing and administering executive compensation programs, including bonus plans, stock option and other equity-based programs, deferred compensation plans and any other cash or stock incentive programs.

The Compensation Committee regularly reviews and approves our executive compensation strategies and principles to ensure that they (i) are aligned with our business strategies and objectives, (ii) encourage high performance, (iii) promote accountability and (iv) assure that employee interests are aligned with the interests of our stockholders. In addition, the Compensation Committee:

- Conducts an annual review of our compensation philosophy, including a review of our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes;
- Conducts an annual review of and approves the goals and objectives relating to the compensation of the Chief Executive Officer, evaluates the performance of the Chief Executive Officer in light of our business strategies and performance and determines and approves the compensation of the Chief Executive Officer based on such evaluation;
- Conducts an annual review of and approves all compensation for all other officers (as such term is defined in Rule 16a-1 promulgated under the Exchange Act), all of our other employees and the employees of our subsidiaries with a base salary greater than or equal to \$200,000;
- Reviews and approves all officers' employment agreements and severance arrangements;
- Manages and annually reviews executive annual bonus and long-term incentive compensation;
- Manages and annually reviews employee pension and welfare benefit plans (including 401(k) and other plans);
- Sets performance metrics under all annual bonus and long-term incentive compensation plans as appropriate; and
- As necessary, meets with the Audit Committee and/or senior management regarding the role risk management plays in setting appropriate performance objectives and incentives.

The Compensation Committee's charter reflects these various responsibilities, and the Compensation Committee periodically reviews and revises its charter. To assist in carrying out its responsibilities, the Compensation Committee regularly receives reports and recommendations from the Chief Executive Officer and management, from an outside independent compensation consultant it selects and retains and, as appropriate, in consultation with its own legal or other advisors, all in accordance with the authority granted to the Compensation Committee in its charter.

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP, or FPL, a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to advise it on a regular basis on the amount and form of our executive compensation and benefit programs. During 2012, the Compensation Committee engaged the consultant to provide peer group compensation data, compensation and benchmarking analysis and general executive compensation consulting services and to respond to any Compensation Committee member's questions as further described in the "Compensation Discussion and Analysis" section. Additionally, during 2012 the Nominating and Corporate Governance Committee engaged FPL to review the competitiveness of the compensation program for non-employee directors.

After review and consultation with FPL, the Compensation Committee has determined that FPL is independent and has determined that there is no conflict of interest resulting from retaining FPL currently or during the year ended December 31, 2012.

The Chief Executive Officer, as well as the President, Chief Operating Officer, annually assist in the review of the compensation of the other officers and members of senior management. The Chief Executive Officer makes recommendations with respect to salary adjustments, annual bonuses and restricted stock awards to the Compensation Committee based on his review of each executive's performance in relation to the guidelines and metrics established at the commencement of the year, compensation for similar positions at peer companies and the Company's performance for that year.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee of our Board of Directors is comprised of Ms. Huskins (Chairwoman) and Messrs. McKee and Merriman. All of the members of the Nominating/Corporate Governance Committee are “independent” within the meaning of our director independence standards, which reflect the NYSE director independence standards, as previously discussed. The Nominating/Corporate Governance Committee’s principal purpose is to provide counsel to our Board of Directors on the broad range of issues surrounding the composition and operation of the Board of Directors, including:

- Development and review of the qualifications and competencies required for membership on our Board of Directors;
- Reviewing and interviewing qualified candidates to serve on our Board of Directors;
- Structure and membership of the committees of our Board of Directors; and
- Succession planning for our executive management.

The Nominating/Corporate Governance Committee also provides recommendations to the Board of Directors in the areas of committee selection and rotation practices, evaluation of the overall effectiveness of the Board of Directors and management, review of Board of Director compensation, and review and consideration of developments in corporate governance practices. The Nominating/Corporate Governance Committee retains the sole authority to retain and terminate any search firm to be used to identify director candidates, including sole authority to approve the search firm’s fees and other retention terms. On an annual basis, the Nominating/Corporate Governance Committee solicits input from the full Board of Directors and conducts a review of the effectiveness of the operation of the Board of Directors and all committees thereof, including reviewing governance and operating practices and the Corporate Governance Guidelines for operation of the Board of Directors.

Strategic Planning Committee

The Strategic Planning Committee of our Board of Directors is comprised of Dr. Allen (Chairwoman), Ms. Huskins and Messrs. McLaughlin, Merriman and Lewis. With the exception of Mr. Lewis, our Chief Executive Officer, all of the members of the Strategic Planning Committee are “independent” within the meaning of our director independence standards, which reflect the NYSE director independence standards as previously discussed. The Strategic Planning Committee works with management to review initiatives designed to achieve continued growth and to enhance stockholder value. The Strategic Planning Committee also assists management in looking beyond traditional quarterly and annual perspectives in considering our longer-term goals.

Director Qualifications

The director qualifications developed to date focus on what the Nominating/Corporate Governance Committee believes to be the essential competencies required to effectively serve on the Board of Directors. In reviewing and considering potential nominees for the Board of Directors, the Nominating/Corporate Governance Committee looks at the following qualities, skills and attributes:

- Personal and professional integrity, ethics, values and absence of conflicts of interest;
- Experience in corporate governance, for example as an officer or former officer of a publicly-held company;
- Experience in our industry and a general business understanding of major issues facing public companies;
- Experience as a member of the board of directors of another publicly-held company;
- Ability to fairly and equally represent all stockholders of the Company and time to devote to being a director;
- Practical and mature business judgment, including the ability to make independent analytical inquiries and function effectively in an oversight role;
- Academic expertise in an area of our operations and achievement in one or more applicable fields;
- Background in financial and accounting matters; and
- Diversity in terms of background, expertise, perspective, age, gender and ethnicity.

Identifying and Evaluating Nominees for Directors

The Nominating/Corporate Governance Committee identifies nominees for directors by first evaluating the current members of our Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for Board of Directors service are re-nominated. As to new candidates, the Nominating/Corporate Governance Committee will generally poll members of our Board of Directors and members of management for their recommendations. The Nominating/Corporate Governance Committee has in the past retained a search firm to assist with identifying new candidates for membership on our Board of Directors, and in the future may hire a search firm if deemed appropriate. An initial slate of candidates will be presented to the chairwoman of the Nominating/Corporate Governance Committee, who will then make an initial determination as to the qualification and fit of each candidate. Final candidates will be interviewed by one or more members of the Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee will then approve final director candidates and, after review and deliberation of all feedback and data, will make its recommendation to our Board of Directors. Recommendations received from stockholders will be considered and processed and are subject to the same criteria as are candidates nominated by the Nominating/Corporate Governance Committee.

Stockholder Recommendations

The Nominating/Corporate Governance Committee's policy is to consider candidates recommended by stockholders. The stockholder must submit a detailed resume of the candidate and an explanation of the reasons why the stockholder believes the candidate is qualified for service on our Board of Directors and how the candidate satisfies our Board of Director's criteria. The stockholder must also provide such other information about the candidate as would be required by the SEC rules to be included in a proxy statement and as is required by our Bylaws. In addition, the stockholder must include the consent of the candidate and describe any arrangements or undertakings between the stockholder and the candidate regarding the recommendation. The stockholder must submit proof of Realty Income stockholdings and must also comply with the advance notice provisions of our Bylaws. All communications are to be directed to the chairwoman of the Nominating/Corporate Governance Committee, c/o Corporate Secretary, Realty Income Corporation, 600 La Terraza Boulevard, Escondido, CA 92025-3873. Recommendations received before October 30, 2013 or after November 29, 2013 (more than 150 days or less than 120 days prior to the first anniversary of the date of the Proxy Statement for the previous year's annual meeting of stockholders) will not be considered timely for consideration at next year's annual meeting of stockholders. See "Stockholder Proposals for 2014 Annual Meeting" in this Proxy Statement. Properly submitted stockholder recommendations will be evaluated by the Nominating/Corporate Governance Committee using the same criteria used to evaluate other director candidates.

Board Leadership/Independent Chairman of the Board

The Nominating/Corporate Governance Committee also evaluates the Board of Directors leadership structure. Since 1997, the positions of Chairman of the Board of Directors and Chief Executive Officer have been separated in recognition of the differences between the two roles. Mr. McKee serves as our Chairman of the Board of Directors and presides as lead Independent Director, while Mr. Lewis serves as our Chief Executive Officer and as the Vice Chairman of our Board of Directors. The Board of Directors believes this is the most appropriate structure at this time because it enables the independent directors to participate meaningfully in the leadership of our Board of Directors while utilizing most efficiently the leadership skills of both Mr. McKee and Mr. Lewis. In addition, separating the roles of Chairman and Chief Executive Officer allows our Chairman to serve as a liaison between the Board of Directors and management, while providing our Chief Executive Officer with the flexibility and focus needed to oversee our operations.

Board Risk Oversight

Our Board of Directors has overall responsibility for risk oversight with a focus on the more significant risks facing us. The Board of Directors reviews and oversees our enterprise risk management, or ERM, program, which is a company-wide program designed to enable effective and efficient identification of and management visibility into critical company risks and to facilitate the incorporation of risk considerations into decision making. The ERM program was established to clearly define risk management roles and responsibilities, bring together senior management to discuss risk, promote visibility and constructive dialogue around risk at the senior management and Board of Director levels, and facilitate appropriate risk response strategies. During the year, as part of the ERM program, management and the Board of

[Table of Contents](#)

Directors jointly discuss major risks that they feel face our business. Throughout the year, the Board of Directors, and the committees to which it has delegated responsibility, dedicate a portion of their meetings to review and discuss specific risk topics in greater detail. Strategic and operational risks are presented and discussed in the context of the Chief Executive Officer's report on operations to the Board of Directors at regularly scheduled Board of Directors meetings and at presentations to the Board of Directors and its committees by senior management. The Board of Directors has delegated responsibility for the oversight of specific risks to Board of Directors committees as follows:

- The Audit Committee oversees our risk policies and processes relating to the financial statements and financial reporting processes, as well as key credit risks, liquidity risks, market risks and compliance, and the guidelines, internal controls, policies and processes for monitoring and mitigating those risks;
- The Strategic Planning Committee monitors the risks associated with meeting long-term goals, including evaluating the impact that future initiatives may have on risk decisions;
- The Nominating/Corporate Governance Committee oversees the risk related to our governance structure and processes and risks arising from related party transactions; and
- The Compensation Committee monitors the risks associated with management resources and structure, including evaluating the effect the compensation structure may have on risk decisions.

Compensation Risk Assessment

The Compensation Committee reviews our company-wide incentive programs to assess whether the incentive programs encourage desirable behavior as it relates to our long-term growth and reflect our risk management philosophies, policies and processes. The total compensation of our executive officers is established after consideration of performance metrics and is compared to the Company's geographic-based and size-based peer groups by the Compensation Committee. The incentive program metrics include absolute and relative performance, single year and multi-year performance and a diversification and balance of metrics across financial, portfolio and value creation goals.

In addition to the compensation awarded to management, which is authorized by the Compensation Committee, management monitors incentive awards made to our staff and reviews those awards in light of the risks to which we may be subject. Our investor relations team receives bonuses based on their communications with financial advisors, and their time is monitored and approved by the Vice President, Corporate Communications. Our portfolio management team receives bonuses based on the releasing and sales of properties in our portfolio. All of these transactions are approved by the Executive Vice President, Portfolio Management.

We do not believe that the compensation programs give rise to any risks that are reasonably likely to have a material adverse effect on us. Non-management employees are largely compensated on a fixed salary basis. Any additional bonuses or other compensation awards are unlikely to encourage the taking of unnecessary or excessive risks that threaten our long-term value. The Compensation Committee has sought to align the interests of our employees with that of our stockholders through grants of restricted stock awards, thereby giving employees additional incentives to protect our long-term value.

Meetings and Attendance

Our Board of Directors met 19 times during 2012. In 2012, the Audit Committee met six times, the Compensation Committee met eight times, the Nominating/Corporate Governance Committee met three times and the Strategic Planning Committee met two times. All directors attended at least 75% of the aggregate of (i) the total number of meetings of our Board of Directors while they were on our Board of Directors and (ii) the total number of meetings of the committees of our Board of Directors on which such directors served. Although we have no policy with regard to Board of Director members' attendance at our annual meeting of stockholders, it is customary for, and we expect, all Board of Director members to attend. All of our directors attended the 2012 annual meeting of stockholders.

To ensure free and open discussion among the independent directors, only independent directors attend executive sessions of our Board of Directors and Committee meetings. As the non-executive Independent Chairman of our Board of Directors, Mr. McKee presided at each of the four executive sessions held during 2012.

Compensation of the Company's Directors for 2013

During the third quarter of 2012, FPL was engaged by the Nominating and Corporate Governance Committee to provide a review of the competitiveness of the compensation program for our Independent Directors as compared to other public real estate companies. Based on the result of the FPL report, the Nominating and Corporate Governance Committee determined that certain elements of our director compensation structure were not in line with our peers. To bring our fee structure in line with other REITs, the Committee implemented changes to our directors' retainer fees for certain committees for 2013. Effective January 1, 2013, the Board of Directors elected to modify its compensation structure as follows: (a) annual cash retainers paid to the chairperson of each Committee will be as follows, (i) \$35,000 to the chairman of the Board of Directors, (ii) \$15,000 to the chair of the Compensation Committee, (iii) \$10,000 to the chair of the Nominating/Corporate Governance Committee, and (iv) \$10,000 to the chair of the Strategic Planning Committee; and (b) as discussed below, to implement director stock ownership requirements. The annual cash retainer paid to the Audit Committee Chair will remain consistent with 2012 at \$18,000. Board of Director annual cash retainers of \$15,000 and committee meeting fees of \$1,000 per meeting attended in person (\$500 for telephonic attendance), also remained unchanged from 2012.

Director Stock Ownership Requirements

Effective January 1, 2013, the Nominating and Corporate Governance Committee began implementation of stock ownership requirements for our Board of Directors. Under these guidelines, each non-employee director will be required, within five years of January 1, 2013, to hold stock valued at no less than five times the amount of the annual cash retainer paid to such director for service as a member of the Board of Directors, without reference to committee service. For each of our non-employee directors, the stock ownership goal was determined using five times their annual cash retainers as of January 1, 2013 of \$15,000, or \$75,000, divided by the closing price of our common stock as of December 31, 2012 of \$40.21, which equals a minimum share ownership requirement of 1,865 shares.

All vested and unvested restricted stock awards qualify towards satisfaction of the requirement; however, pledged shares are not eligible. For any new director, compliance with the guidelines will be required within five years after being elected to the Board of Directors. As of January 1, 2013, each director subject to the guidelines met or exceeded the stock ownership requirements.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the compensation policies and programs for the Company's executive officers, including named executive officers, as such term is defined in the Summary Compensation Table in this Proxy Statement. The Compensation Committee administers the compensation policies and programs for our executive officers and certain other officers. The Compensation Committee regularly reviews and approves our executive compensation principles and programs to ensure that they are aligned with our business strategies and objectives, encourage high performance, promote accountability, minimize risk, and assure that management's interests are aligned with the interests of our stockholders.

Executive Summary

The primary objectives of the Company's compensation program are to link executive compensation to Company performance, align interests of management with those of the stockholders and to attract, motivate and retain Realty Income's executive officers through competitive compensation arrangements that, within appropriate risk parameters, provide strong financial incentives for executives to maximize stockholder value.

2012 Strong Performance

Realty Income continued to deliver strong corporate and stock price performance in 2012, including the following accomplishments:

- *Strong Total Stockholder Returns.* Achieved 2012 total stockholder returns of 20.1%. This one-year total stockholder return was at the 76th and 52nd percentile compared to our geographic-based and size-based peer groups, respectively. Not only did our one year total stockholder return exceed the median of our peer group, but it also exceeded the following indexes: FTSE NAREIT US Equity REIT index (+0.4%), the Dow Jones Industrial Average (+9.9%), the S&P 500 (+4.1%) and the NASDAQ Composite (+4.2%);
- *Record Acquisitions.* Recorded another record year for new property acquisitions as we invested \$1.16 billion in real estate, acquiring 423 properties at an initial lease yield of 7.2%. Providing monthly dividends that increase over time is our mission, and the revenues generated from new property acquisitions support the payment of monthly dividends to our stockholders that increase

[Table of Contents](#)

over time. We also made progress on our strategic initiatives of improving the credit quality of our tenant base and diversifying our portfolio to include non-retail properties. Of the 423 properties acquired during 2012, 64% are leased to investment grade tenants and 22% are non-retail properties;

- *Increased Monthly Dividend.* Increased monthly dividends paid in 2012 five times during the year for a year to year increase of 2.0% to \$1.771625 per share in 2012 from \$1.736625 per share for 2011;
- *Increased Rent Revenue.* Achieved a 15.9% increase in rental revenue for 2012 compared to 2011. We also maintained a high occupancy rate of 97.2% as of year-end;
- *Increased FFO.* Achieved a 4.6% increase in funds from operations available to common stockholders (FFO) for 2012 compared to 2011. Achieved a 7.8% increase in normalized FFO available to common stockholders for 2012 compared to 2011. We define normalized FFO as FFO excluding the merger related costs for our January 2013 acquisition of American Realty Capital Trust, Inc., or ARCT;
- *Access to Capital.* Accessed the capital markets to raise over \$1.21 billion in capital during 2012. This capital raising activity allowed us to fund our acquisitions during 2012. We also expanded our credit facility to a capacity of \$1 billion providing us with ample access to funds which allows us to pursue additional real estate investment opportunities. Throughout the year, we maintained a conservative capital structure with 32.5% debt as a percentage of total market capitalization as of the end of the 2012; and
- *Negotiation of Merger with ARCT.* In the third quarter of 2012 we entered into an Agreement and Plan of Merger with American Realty Capital Trust, or ARCT. This acquisition, valued at approximately \$3.1 billion, closed in January 2013, and added 515 properties to our portfolio. The 515 properties that were added to our real estate portfolio are immediately accretive to our earnings and significantly advance our objective to increase the overall credit quality of the lease revenue supporting the payment of dividends.

We have also achieved outstanding long term performance, including the following accomplishments:

- Achieved a three-year and five-year total stockholder returns at the 85th and 95th percentile, respectively, compared to our geographic-based peer group and at the 77th and 94th percentile, respectively, compared to our size-based peer group;
- Achieved 104.9% total stockholder returns since the REIT market peaked on February 7, 2007, ranking among the top 10 of over 150 real estate investment companies during this period; and
- Since listing on the NYSE in October 1994, our compounded average annual total stockholder return was 17.4%. As illustrated in the graph below our performance far exceeded the following indexes during the same period: FTSE NAREIT US Equity REIT index (+6.4%), the Dow Jones Industrial Average (+8.1%), the S&P 500 (+9.1%) and the NASDAQ Composite (+9.6%). Each of these compounded average annual total stockholder return rates are calculated in the same manner, assuming reinvestment of dividends, except for NASDAQ.

Overview of Compensation Philosophy

Executive compensation consists of the following elements; base salary, annual cash incentive bonus, equity based long-term incentive awards, and severance and change in control payments and benefits. Each of these elements and their combination are necessary to support the Company's overall compensation objectives.

The Compensation Committee's philosophy is that executive compensation should reflect the value created for our stockholders, while supporting our business strategies, operational goals, long-range plans, and that such compensation should assist the Company in attracting and retaining key executives critical to our long-term success.

- **We emphasize pay for performance.** The Company's compensation program is designed to align Company-wide financial, operational and stock price achievements with the annual cash bonuses and equity awards granted to its named executive officers. Annual cash bonuses are paid based upon the Compensation Committee's assessment of Company-wide performance under the following key short term and long term performance metrics of: (i) short term stockholder returns (weighted 15%); (ii) the strength of its balance sheet (weighted 20%); (iii) short term growth in earnings metrics (weighted 15%); (iv) portfolio performance (weighted 10%); (v) acquisitions (weighted 10%); (vi) long term (3 year and 5 year) stockholder returns (weighted 20%); and long term (3 year and 5 year) growth in earnings metrics (weighted 10%), with an available rating of poor, average, good, excellent or outstanding for each measure. The long-term (3 year and 5 year) performance measures were added in 2012 to ensure a balanced approach and further alignment with our stockholders. Equity awards, which are granted after fiscal year end, consist of annual grants of restricted stock, with the amount also based on the Company's performance under these performance metrics as well as each executive officer's individual performance for the prior fiscal year.
- **Alignment of executive compensation with the creation of value for our stockholders.** The combination of annual cash bonuses and restricted stock grants, which generally vest over a period of several years depending on the age of the officer, creates a balanced focus on the achievement of short-term and long-term financial and operational goals and stock price performance. The Compensation Committee believes that this "at risk" compensation of annual bonuses and long-term equity incentives play a significant role in aligning management's interests with those of the Company's stockholders. In 2012, approximately 86% of our CEO's total direct compensation (as shown in the following chart) and approximately 77%-81% for our other named executive officer's total direct compensation, constituted compensation that is earned based on our performance or has a value which is derived from the Company's stock price.

⁽¹⁾ The term total direct compensation means the aggregate amount of the CEO's base salary, actual annual cash incentive bonus for 2012 performance (paid in January 2013), and the grant date fair value of long term incentive awards based on 2012 performance (granted on January 4, 2013) calculated as prescribed by Accounting Standards Codification 718.

- **A flexible approach to annual cash incentive compensation and equity based long-term incentive awards.** Commencing in 2012, the Compensation Committee established targeted goals

[Table of Contents](#)

under each of the performance metrics to guide it in its evaluation of Company performance and its determination of annual cash bonuses and equity awards. While the program provides more structure to the Compensation Committee's determinations, it also preserves the Compensation Committee's flexibility to exercise its discretion in assessing company performance (including a comparison to our peer group's performance), market conditions and any other relevant data. This ultimately helps to ensure that the incentive bonus program is both responsive to market conditions and linked to the actual performance of the company. In addition to these performance metrics, the Compensation Committee employs targeted multiples of salary as guidelines for determination of cash bonuses and equity award values when performance approximates targeted (or good) performance and pay in excess of these multiples for excellent or outstanding performance. For 2012, based on performance under its performance metrics, the Company paid 25% above target multiples for cash bonuses and equity awards for each of its named executive officers, other than Mr. Case, who received 71% above target multiple for his cash bonus and 50% above target multiple for his equity awards, based on his leadership role in achieving the highest annual level of acquisitions (in dollar amount) in Company history for the second year in a row.

- **Competitive Aggregate Total Direct Compensation.** The Compensation Committee, with the assistance of its independent compensation consultant, annually reviews the executive compensation program to ensure that it provides competitive pay opportunities. The Compensation Committee believes it is important to provide aggregate total direct compensation to named executive officers as a group that is competitive within a range of median aggregate total direct compensation paid by the Company's peer groups during the same time frame. Due to the lagging nature of the compensation data available for review, this information lags one year. Thus, in 2012, the Compensation Committee reviewed the consultant's report that reflected the Company paid aggregate total direct compensation in 2011 to named executive officers at approximately 117% of the median of aggregate total direct compensation paid to the named executive officers of its peer groups in 2011. Since 2011, the Compensation Committee has targeted the competitive position for aggregate total direct compensation for named executive officers at 70% to 130% of the Company's peer group median (calculated by taking the average of both peer group statistics), to encourage stronger performance and create more variability in the Company's compensation levels to better align compensation with performance.
- **Other Highlights of Our Compensation Practices.** The Compensation Committee is mindful of the concerns of the Company's stockholders and of proxy advisory groups regarding executive compensation pay practices and strives to implement responsible compensation and governance practices. Highlights include:
 - In 2012, a stock ownership program was adopted for our directors and executive officers with a position of executive vice president and above, with the CEO required to own a fixed number of shares based on five times his base salary;
 - In 2012, an anti-hedging policy was implemented that prohibits directors, officers, employees and their families from entering into speculative transactions involving the Company's stock;
 - There are no tax gross up payments;
 - Severance payments are limited to a maximum of 18 months of salary plus 12 months of bonus;
 - In 2012, no perquisites were provided;
 - The only retirement benefit provided is the opportunity to participate in a 401(k) plan;
 - The Compensation Committee employs the services of an independent compensation consultant, who assists the Committee in its review of the market competitiveness of the compensation program and apprises the Committee of market trends; and
 - The Compensation Committee carefully considers the risks associated with all of the compensation programs.

Favorable Stockholder Say on Pay Vote

The Company provides its stockholders an advisory "say on pay" vote on the compensation of named executive officers on an annual basis. At our 2012 Annual Meeting of Stockholders, stockholders expressed substantial support for the compensation of named executive officers, with approximately 91%

[Table of Contents](#)

of the votes cast for approval of the advisory say on pay vote. Following our 2012 Annual Meeting of Stockholders, our Compensation Committee evaluated the results of the 2012 advisory say on pay vote. The Compensation Committee also considered many other factors in evaluating our executive compensation programs as discussed in this Compensation Discussion and Analysis, including the Compensation Committee’s assessment of the interaction of the Company’s compensation programs with its financial and operational objectives, evaluations of its programs by an external consultant, and review of data of a comparator group of peers, each of which is evaluated in the context of the Compensation Committee’s responsibility to act in the Company’s best interests. While each of these factors bore on the Compensation Committee’s decisions regarding our named executive officers’ compensation, the Compensation Committee did not make any material changes to our executive compensation program and policies as a result of the 2012 advisory say on pay vote. The Compensation Committee will continue to consider the outcome of say on pay proposals when making future compensation decisions for the named executive officers.

Objectives Served by Elements of Compensation

To achieve their goals, the Compensation Committee offers executive officers a compensation package that is primarily comprised of the elements described in the table below. In structuring executive compensation packages, the Compensation Committee considers how each component promotes retention and motivates performance. Base salaries and severance and other termination benefits are primarily intended to attract and retain highly qualified executives. We believe that in order to attract and retain top executives, we need to provide them with compensation levels that reward their continued service.

Annual bonuses and long term equity incentives are the elements of the executive compensation program that are designed to reward performance and provide incentives to create stockholder value. Annual bonuses are primarily intended to motivate named executive officers to achieve specific strategies and operating objectives, although we also believe it helps us attract and retain top executives. Our long-term equity incentives are primarily intended to align named executive officers’ long-term interests with stockholders long-term interests, although we believe they also play a role in helping us reward performance and to attract and retain top executives.

Element	Objective Served
<i>Base Salary</i>	Fixed base pay that rewards performance of core job duties, and recognizes individual achievements, contributions and tenure.
<i>Annual Cash Incentive Bonus</i>	Variable cash awards based on performance and responsibility levels to compensate each executive for achieving our annual stockholder returns and other corporate goals and achievement of our long term objectives.
<i>Equity Based Long Term Incentive Awards – Restricted Stock</i>	Variable equity awards also granted based on performance and responsibility levels and designed to foster retention and align the executive officers’ interests with the long-term interests of our stockholders.
<i>Severance and Change in Control Payments and Benefits</i>	Promotes executive recruitment and retention. Ensures best efforts for the benefit of our stockholders in the event of an actual or threatened change of control.

Compensation Process

Compensation Consultant

To assist in its efforts to meet the objectives outlined above, the Compensation Committee has retained FPL Associates, LP, or FPL, a nationally-known executive compensation and benefits consulting firm specializing in real estate companies, to provide general executive compensation consulting services and to respond to any Compensation Committee member’s questions. In addition, the consultant performs special executive compensation projects and consulting services from time to time, as directed by the Compensation Committee. In 2012, as in the prior year, the Compensation Committee continued to review its program designs and guidelines, and conducted its annual review of the competitiveness of its compensation program and the market practices of our peer groups. The consulting services provided by FPL in connection with these reviews included:

- Evaluating the current compensation program in place for the named executive officers and structuring a compensation program that meets the objectives outlined by the Compensation Committee;

[Table of Contents](#)

- Benchmarking the compensation for the named executive officers against appropriate peer groups;
- Identifying the appropriate mix between compensation components, including base salary, annual incentives, long-term incentive compensation and total remuneration;
- Discussing market-based incentive programs, including performance metrics and targets, within the peer group companies, and providing guidance and recommendations for design modifications to program elements; and
- Reviewing an overview of industry trends as it relates to human capital across the entire real estate industry.

FPL reports to the chairman of the Compensation Committee and the other committee members and works with management as directed by the Compensation Committee. The Compensation Committee retains the right to terminate or replace the consultant at any time. Pursuant to the Compensation Committee's charter, the Compensation Committee has the power to engage such consultants and other advisors as it deems necessary.

Peer Group Data

The Compensation Committee uses comparison data from various companies in certain peer groups as a guide in its review and determination of base salaries, annual cash bonuses and restricted stock awards. From November 2012 through January 2013, the Compensation Committee reviewed peer group data to assist in its determination regarding bonuses and equity awards to be earned for 2012 performance, as well as any salary increases for 2013. A similar process was conducted at the end of 2011 for the salaries established for 2012 and for the equity awards granted on January 4, 2012. The Compensation Committee evaluates our performance and determines whether the compensation elements and levels that are provided to our executive officers are generally appropriate relative to the compensation elements and levels provided to their counterparts at our peer companies, in light of our performance relative to our peers and in light of each executive officer's contribution to our performance. This approach enables us to respond to dynamics in the labor market and provides us with flexibility in maintaining and enhancing our executive officers' engagement, focus, motivation and enthusiasm for the future.

The Compensation Committee, with the help of the compensation consultant, periodically reviews the composition of our peer groups and the criteria and data used in compiling our peer group lists, and considers modifications to this group. During November and December 2012, the Compensation Committee reviewed data provided by FPL regarding the appropriate companies to include in the peer group and the effect any change in the peer group would have on our standing within the peer groups. The peer groups recommended by the compensation consultant and used by the Compensation Committee are all public real estate companies and are divided into two groups based on size and geography, consistent with prior years, as listed below:

- **Size-Based Peer Group.** A size peer group was used because companies of the same size have similar characteristics to our company when considering management of the portfolio and acquisition and capital markets activities. This peer group consists of 15 public real estate companies that focus on a variety of asset classes and are similar in size to us in terms of total capitalization (common and preferred stock, convertible partnership units and balance sheet long term debt). This peer group has total capitalization ranging from approximately \$3.8 billion to \$13.2 billion. Companies were selected so that our total capitalization approximates the median.
- **Geographic-Based Peer Group.** A geographic peer group was used to reflect the cost of living in the region of the country where our executives live. We also look at geographic peers to ensure that we have a competitive compensation package if we need to compete for talent in our region. This peer group consists of 10 public real estate companies, each with corporate headquarters located within the state of California. This peer group focuses on a variety of asset classes and has total capitalization ranging from approximately \$3.3 billion to \$28.8 billion.

The peer groups listed above differ slightly from the peer groups used in 2011. In November 2012, the Compensation Committee replaced Mission West Properties, Inc. with Macerich Company from the geographic-based peer group. This was the result of Mission West Properties, Inc. disposing of all of their real estate assets during 2012. The Compensation Committee added Macerich Company to maintain a consistent number of companies in the geographic peer group with the prior years.

At the end of 2012, our total capitalization placed us in the 67th percentile of the Size-Based Peer Group. Despite the fact that our total capitalization was above the targeted median of the peer group, the Compensation Committee felt that it was not necessary to change the members of the size peer group this year. The Compensation Committee anticipates changing the members of the size peer group for 2013 based on the increase in our market capitalization subsequent to the \$3.1 billion acquisition of ARCT that was completed in January 2013. In contemplation of the increase in our total market capitalization, as part of its November 2012 review, FPL provided compensation information for an additional group of peers referred to as the "Future Size Peer Group," comprised of 16 public real estate companies with market capitalization ranging from approximately \$4.2 billion to \$24.3 billion. The purpose of this Future Size Peer Group is to provide additional context for our compensation review for future periods. We anticipate making changes to our Size-Based Peer Group during 2013 so that our total capitalization approximates the median of the new peer group.

Management Involvement

In setting compensation for executive officers, the Compensation Committee solicits appropriate input from the Chief Executive Officer and President, Chief Operating Officer, concerning each of the other executive officers. In addition, from time to time, the Compensation Committee will direct management to work with its consultant in providing proposals, program design, and compensation recommendations. Each year the Chief Executive Officer provides the Compensation Committee with a report regarding performance for the past fiscal year under the Company's performance metrics and discusses his personal assessment of individual performance, as requested. In addition, at the request of the Compensation Committee, the Chief Executive Officer makes recommendations regarding salary, bonus and equity awards for each executive officer other than himself. The Compensation Committee considers these recommendations and other factors as discussed below in making the final determinations.

Compensation Decisions and Programs

Base Salaries

Base salaries provide our executive officers with a degree of financial certainty and stability, reward them for performing their core job duties and responsibilities, recognize their tenure and are used to attract and retain highly qualified individuals. The Compensation Committee annually reviews and determines the base salaries of our executive officers at the commencement of each year, after review of performance over the prior year. Base salaries are also evaluated at the time of a promotion or other significant change in responsibilities. Increases in base salaries are based on the Compensation Committee's evaluation of such factors as an executive officer's level of responsibility and development potential, the results previously achieved by the executive officer, and the level of pay of the executive officer relative to other similarly situated executive officers at our peer companies.

[Table of Contents](#)

In connection with its review of fiscal 2012 performance and setting of compensation in January 2013, the Compensation Committee decided to increase the base salaries paid to all of our named executive officers commencing on January 1, 2013. The Compensation Committee's decision to increase 2013 salaries was based on their review of peer compensation data with the objective of aligning the base salaries of our named executive officers with those of their peers. FPL provided the Committee with 2011 base salary averages and medians of our peer group for each executive position. The Compensation Committee established a 2013 base salary for each named executive officer that was within a range of 94% to 107% of the median average 2011 base salary of each executive position of our peer groups (calculated by taking the average of the two peer groups), as reported by FPL. Additionally, Mr. Case's salary, which was increased to \$400,000 in January 2013 was further increased to \$425,000, effective as of March 1, 2013, upon promotion to President, Chief Investment Officer, to compensate for his new position and additional responsibilities.

Named Executive Officer	Title	2011 Salary	2012 Salary	2013 Salary
Thomas A. Lewis	Vice Chairman of the Board of Directors and Chief Executive Officer	\$ 550,000	\$ 650,000	\$ 700,000
Gary M. Malino	President, Chief Operating Officer	400,000	400,000	425,000

Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	325,000	325,000	350,000
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	325,000	325,000	350,000

⁽¹⁾ Mr. Case was promoted to this position in March 2013 and his 2013 salary is effective as of March 1, 2013, the date of his promotion.

Performance Metrics

The Compensation Committee has established certain general performance metrics, weightings and, as of 2012, target guidelines, to provide a more formal structure to guide management in its performance and to guide the Compensation Committee in its determinations. The Compensation Committee did not establish any specified formula to determine bonus or equity earned for a particular rating within these metrics, believing it is best to base its determinations on its year-end assessment of our absolute and relative performance under these metrics, and the challenges faced by the Company and the markets.

During 2012, the Compensation Committee performed a review of the existing performance metrics and decided to use the same metrics as used during 2011 with the following enhancements:

- The performance metrics for stockholder returns and earnings were separated into short-term and long-term metrics that are assessed and weighted separately. The short-term performance metrics review the results of the current year and the long-term performance metrics include three-year and five-year results for total stockholder return relative to the Company's peer groups as well as three-year and five-year FFO per share growth on an absolute basis and relative to its peer groups.
- Benchmark ranges were established for each performance metric to assist the Compensation Committee in assigning ratings based on performance. These benchmark ranges are defined in the table included below on page 30.

At the end of each year, the Chief Executive Officer provides the Compensation Committee with his personal assessment of the performance of each executive officer, excluding himself, for the year and an evaluation based on a scale of "poor," "average," "good", "excellent" and "outstanding" for each metric. The Compensation Committee evaluates actual performance under these metrics and considers this evaluation in determining the executive officer's annual cash bonuses and equity awards. In determining the amount of bonus and equity earned, the Compensation Committee employs guidelines, based on a multiple of the officer's base salary and a rating of "good" performance.

Non-formulaic Incentive Structure

The Compensation Committee has continued to refine the performance metrics, added more specific measurement guidelines and divided certain performance metrics into long-term and short-term targets. The Committee continues to believe that employing a non-formulaic incentive structure is beneficial to the stockholders, as more tightly formulaic incentive structures can lead to senior executives focusing on achieving specific targets to increase their compensation, to the detriment of long-term stockholder

[Table of Contents](#)

success and returns. The flexibility that the Compensation Committee has in the current compensation program allows the Compensation Committee to focus on the specific performance metrics, but also allows them to make compensation decisions regarding other areas that it deems to be beneficial to stockholder interests.

Although the Compensation Committee will continue to review its processes and consider implementing a more tightly formulaic incentive structure, it has decided that the current program has been successful and strikes a proper balance between providing direction and incentives for management to achieve short-term and long-term financial, operational and stock price objectives, while preserving discretion to ensure continued proper alignment after its year-end performance evaluation.

Annual Cash Bonuses

Annual cash bonuses are designed to supplement the pay of our executive officers (and our key management personnel) so that their total compensation is competitive and properly rewards the participants for their efforts in achieving our objectives. As in prior years, the Compensation Committee employed targeted cash bonus payments, expressed as a multiple of base salary for targeted performance, ranging from one times to two times the officer's base salary based on position, to guide it in its determinations regarding the amount of bonus to be paid to each executive officer. The Compensation Committee, in its discretion, may pay higher or lower amounts than these targeted bonus amounts based on company short-term and long-term performance, the status of our industry, market conditions, individual performance, peer group practices and other factors as it deems relevant.

Based on performance, as discussed above, our Chief Executive Officer made recommendations to the Compensation Committee regarding the amount of cash bonuses to be paid to the executive officers, other than himself. The Compensation Committee reviewed individual performance, the targeted base salary multiples, the recommendations of our Chief Executive Officer, past bonus payments and the market data in determining the final bonus payment for each executive officer. For 2012, based on our performance under our performance metrics, the Company paid 25% above target multiples for cash bonuses for each of our named executive officers, other than Mr. Case, who received 71% above target multiple for his cash bonus, based on his leadership role in achieving the highest annual level of acquisitions (in dollar amount) in our history for the second year in a row.

The guideline percentages for 2012 and the actual percentages paid for 2012 are in the following table. The guideline percentages to be utilized in 2013 are the same as below, except that, in conjunction with his promotion in March 2013, Mr. Case's target multiple increased to 1.25 times his base salary.

Named Executive Officer	Title	Targeted Base Salary Multiple	Targeted Cash Bonus	Actual Base Salary Multiple	Actual 2012 Bonus⁽¹⁾	Percent Increase - Actual over Target Salary Multiple
Thomas A. Lewis	Vice Chairman of the Board of Directors and Chief Executive Officer	2.00x	\$1,300,000	2.50x	\$1,625,000	25%
Gary M. Malino	President, Chief Operating Officer	1.25x	500,000	1.56x	625,000	25%
John P. Case	President, Chief Investment Officer	1.00x	350,000	1.71x	600,000	71%
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	1.00x	325,000	1.25x	406,000	25%

⁽¹⁾ The bonuses shown for 2012 were paid in January 2013 to each of the named executive officers based on 2012 performance.

Equity Based Long-Term Incentive Awards

The Compensation Committee grants restricted stock awards on an annual basis, generally in January, in recognition of individual executive and company performance for the prior fiscal year as well as long term achievements. The restricted stock awards are designed to increase executive officers'

[Table of Contents](#)

common stock ownership, motivate our executive officers to improve long-term common stock dividend performance, align their interests with the interests of stockholders, encourage long-term dedication and operate as a retention mechanism for key members of our management.

The determination of the amount of restricted stock awards granted each January is based on how we performed under our performance metrics, as discussed above, and taking into consideration market data for the just completed fiscal year. The Compensation Committee considers these awards as earned based on our performance for the prior year. SEC disclosure rules require that the restricted stock awards shown in the Grants of Plan Based Award table for 2012 reflect those shares granted in the most recently completed fiscal year which, in our case, is January 2012 (though reflective of the 2011 performance year). As such, to provide a more complete and relevant disclosure of compensation for the 2012 performance year, we have provided supplemental information in the footnotes to the table regarding restricted stock earned, based on 2012 performance and granted in 2013, as discussed below.

As part of its process of implementing its objectives to target aggregate total direct compensation at or around the median of our peer groups, and to increase the percentage of compensation that is variable, at risk and tied to the interests of our stockholders, the Compensation Committee employs targeted base salary multiples, ranging from 1.75 times to 3 times the officer's base salary based on position, for the restricted stock awards to be granted to each executive officer. Actual awards depend on our performance in accordance with the performance metrics reviewed by the Compensation Committee, at the close of each year, and other factors that the Compensation Committee determines are relevant. The targeted base salary multiples and awards for the grants made for our 2012 performance, to our named executive officers, are set forth in the table below, along with the actual base salary multiples and awards granted to these officers in early 2013. The Compensation Committee may, in its discretion, choose to grant shares either below or above this multiple.

For 2012, based on our performance under our performance metrics, the Company paid 25% above target multiples for equity awards for each of our named executive officers, other than Mr. Case, who received 50% above target multiple for his equity awards, based on his leadership role in our year of strong acquisitions. The guideline percentages to be utilized for 2013 are the same as below, except that, in conjunction with his promotion in March 2013, Mr. Case's target multiple increased to two times his base salary.

Named Executive Officer	Title	Targeted Base Salary Multiple (2012)	Targeted Equity Award (in shares)⁽¹⁾	Actual Base Salary Multiple⁽²⁾	2013 Award for 2012 Performance (in shares)⁽³⁾	Percent Increase - Actual over Target Salary Multiple
Thomas A. Lewis	Vice Chairman of the Board of Directors and Chief Executive Officer	3.00x	47,181	3.75x	58,989	25%
Gary M. Malino	President, Chief Operating Officer	2.00x	19,356	2.50x	24,195	25%
John P. Case	President, Chief Investment Officer	1.75x	14,820	2.63x	22,236	50%
Paul M. Meurer	Executive Vice President, Chief Financial Officer and Treasurer	1.75x	13,761	2.19x	17,203	25%
Michael R. Pfeiffer	Executive Vice President, General Counsel and Secretary	1.75x	13,761	2.19x	17,203	25%

⁽¹⁾ The targeted equity award represents the value calculated by multiplying the base salary paid to the respective executive officer in 2012 by the targeted base salary multiple, and then dividing by the closing price of our common stock on January 4, 2013.

⁽²⁾ The actual base salary multiple represents the value of the January 4, 2013 award of restricted stock, calculated by multiplying the number of shares awarded times the closing price of our common stock on such date, as a percentage of the base salary paid to the respective executive officer in 2012.

⁽³⁾ The grants of restricted stock on January 4, 2013 represent the awards to each of the named executive officers based on 2012 performance.

[Table of Contents](#)

To be competitive with our peers and align our compensation programs with other REITs, during 2012, the Compensation Committee revised the terms of our equity awards to provide for accelerated vesting upon death and continued vesting upon disability. We define disability as the total and permanent incapacity of an employee due to physical and mental impairment.

Perquisites and Other Benefits

We provide medical and other benefits to our named executive officers that are similar to those benefits offered to our full-time employees, including employer matching contributions to their 401(k) savings accounts and coverage under a health and disability insurance program.

In 2012, the named executive officers did not receive any perquisites. However, the Compensation Committee may occasionally supply perquisites if they believe it is necessary to successfully compete for executive talent.

Severance and Change in Control Arrangements

We have employment agreements with each of our named executive officers, and other executive officers, which provide for severance payments and other benefits to the officers if their employment is terminated by us without cause or by the executive due to a constructive termination, including any such termination following a change of control of us. We do not provide any tax gross-up payments.

In general, the employment agreements provide that in the event of a change in control and a qualifying termination within 12 months after the change in control, we will provide severance equal to 18 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 18 months following termination. In the event a qualifying termination occurs prior to, or later than 12 months following a change of control, the benefits equal 12 months of base salary plus the average bonus paid over the past three years, and we will provide continued medical insurance for 12 months following termination. In addition, in accordance with the terms of our restricted stock agreements, upon a change of control, the vesting of all unvested shares of restricted stock accelerates.

The Compensation Committee believes these benefit levels are reasonable. The payments and benefit levels under the employment agreements did not influence and were not influenced by other elements of compensation. The agreements were designed to help attract and retain key employees, preserve employee morale and productivity and promote continuity of management in the event of an actual or threatened change in the control of us. These change in control benefits allow executives to assess takeover bids objectively without regard to the potential impact on their individual job security.

Executive Stock Ownership Requirements

Effective January 1, 2013, the Board of Directors implemented stock ownership requirements for the Company's CEO, President, and the Executive Vice Presidents, to more closely align the interests of these individuals with the interests of our stockholders and to further promote the long-term growth of the price of our common stock. The minimum share requirements were established as follows:

Position	Guideline⁽¹⁾	Minimum Share Ownership Requirement⁽²⁾
Chief Executive Officer	5 times base salary	88,161
President	4 times base salary	42,821
Executive Vice President	3 times base salary	26,488

⁽¹⁾ The requirement for each person subject to these Guidelines is determined on an individual basis, first in dollars as a multiple of the executive's annual base salary, and then by converting such amount to a fixed number of shares.

⁽²⁾ John Case's minimum share ownership requirement at January 1, 2013 was 42,821 based on his anticipated promotion to President and associated salary increase.

As of January 1, 2013, each executive subject to the guidelines met or exceeded the stock ownership requirements.

For each of these executives, the stock ownership goal was determined using their base salaries as of January 1, 2013 and the average closing price of the Company's common stock for the period

[Table of Contents](#)

November 1, 2012 through December 31, 2012, and they have until January 1, 2018 to satisfy their ownership level. For persons assuming an Executive-level position after January 1, 2013, the stock ownership goal under these guidelines will be determined using their base salaries as of the date they become subject to these guidelines and using the average closing common stock price for the 60 trading days prior to such date, with five years to achieve the goals. If an individual's share ownership goal increases because of a change in position, a five-year period to achieve the incremental amount of shares will begin on the effective date of the change in position. All vested and unvested restricted stock awards qualify towards satisfaction of the requirement; however, pledged shares are not eligible. Compliance will be evaluated on an annual basis, as of December 31 of each year.

Tax Considerations

Section 162(m) of the Code limits the deductibility of compensation paid to our Chief Executive Officer and our three other most highly compensated executive officers, other than the Chief Financial Officer. To qualify for deductibility under Section 162(m), compensation (including base salary, annual bonus, stock option exercises, compensation attributable to vesting of stock grants and nonqualified benefits) in excess of \$1,000,000 per year, paid to each of these executive officers, generally must be "performance-based" compensation as determined under Section 162(m). While the Compensation Committee considers whether to structure compensation so that it satisfies the "performance-based" compensation requirements under Section 162(m), the Compensation Committee balances the costs and burdens involved in doing so against the value to us, and our stockholders, of the potential tax benefits. Accordingly, the Compensation Committee reserves the right to design programs that recognize a full range of performance criteria important to our success, even where the compensation paid under such programs may not be fully deductible as a result of Section 162(m).

Despite the fact that the incentive bonuses and stock-related awards for 2012 were determined by taking into consideration certain financial and strategic goals, the Compensation Committee did not apply these factors on a purely objective basis. As a result, incentive bonuses and stock-related awards, granted or earned in 2012, did not satisfy the "performance-based" compensation requirements of Section 162(m). As a result, compensation of \$7.6 million, in aggregate, was not deductible from a tax perspective for 2012. We believe that we qualify as a REIT under the Code and generally are not subject to federal income taxes, provided we distribute to our stockholders at least 90% of our taxable income each year. As a result of the Company's tax status as a REIT, the loss of this deduction did not affect the amount of Federal income tax payable by the Company for its 2012 taxable year. However, the loss of this deduction increased the portion of the Company's 2012 distributions that were taxed as dividends to its stockholders and reduced the portion of such distributions treated as a return of capital. The Compensation Committee will continue to evaluate the advisability of providing performance-based compensation under Section 162(m).

No Pension Benefits or Nonqualified Deferred Compensation

We do not provide any retirement benefits, other than the opportunity to participate in a 401(k) plan. We do not currently sponsor any qualified or non-qualified defined benefit plans, any non-qualified defined contribution plans or deferred compensation plans. The Compensation Committee may elect to adopt such benefits if they determine that doing so is in the Company's best interest.

Potential Payments upon Termination or Change in Control

Each of the named executive officers has the right to receive severance compensation upon the occurrence of certain events as specified in their employment agreements. The employment agreements provide that the executive officers will be entitled to receive severance payments, upon a termination by us without "cause" or a "constructive termination" by the executive (each a "Qualifying Termination"), including a Qualifying Termination that occurs within 12 months after a change in control.

Qualifying Termination Not in Connection with a Change in Control. For a Qualifying Termination not in connection with a change in control each of our named executive officers is entitled to receive the following:

- a severance payment equal to twelve months' base salary;
- an amount equal to the average of the last three years' cash bonus paid;
- payment of any accrued but unpaid wages and accrued but unused vacation pay to which the executive officer may be entitled prorated through the date of termination; and
- continuation of group medical insurance coverage at our expense for a period of twelve months from the date of termination or until the executive officer becomes covered under another group medical insurance plan, whichever occurs first.

Our restricted stock agreements for all employees provide that in the event of an employee's Qualifying Termination within eighteen (18) months following a merger or consolidation of the Company with or into another corporation in a transaction that is not a change in control, all unvested restricted stock shall immediately become vested.

Change in Control. In the event of a Qualifying Termination on or within twelve months after a change in control, each of our named executive officers is entitled to receive the following:

- a severance payment equal to eighteen months' base salary;
- an amount equal to the average of the last three years' cash bonuses paid;
- payment of any accrued but unpaid wages and accrued but unused vacation pay to which the executive officer may be entitled, prorated through the date of termination; and
- continuation of group medical insurance coverage, at our expense, for a period of eighteen months from the date of termination or until the executive officer becomes covered under another group medical insurance plan, whichever occurs first.

In addition, our restricted stock agreements for all employees provide that in the event of a change in control all outstanding restricted stock awards will automatically vest in full immediately prior to the change in control.

Termination for Death or Disability. In the event that the executive officer dies, or is physically or mentally unable to perform his or her duties, the executive officer is entitled to receive his accrued but unpaid wages and accrued but unused vacation pay, if any, as of the date of his death or disability. If the executive officer dies, pursuant to the terms of the employment agreement, he or she is entitled to life insurance benefits under our group life insurance program. In accordance with the terms of our restricted stock agreements for all employees, upon termination of employment as a result of death, all shares of unvested restricted stock held by the employee will immediately vest in full, and upon termination of employment as a result of disability, all shares of unvested restricted stock will continue to vest as scheduled, except for the initial grant to Mr. Case in April 2010, which vests in full.

Termination For Cause. Upon termination for failure to perform duties, the executive officer is not entitled to any payment or benefit other than the payment of accrued but unpaid wages and accrued but unused vacation pay as of the date of such termination.

[Table of Contents](#)

Termination by Executive Officer. The executive officer may also terminate the agreement at any time, upon two weeks' notice to us, which will not result in any severance payments other than the payment of any accrued but unpaid wages and accrued but unused vacation pay to which the employee may be entitled, prorated through the date of termination.

The employment agreements provide that the executive officer must devote his or her full time, attention and energy to our business and may not engage in any other business activity which would interfere with the performance of his or her duties or be competitive with us, unless specifically permitted by our Board of Directors. This restriction does not prevent the executive officer from making passive investments, so long as the investment does not require the executive officer's services in a manner that would impair the performance of his or her duties under the employment agreement.

Definitions. A termination for cause means a discharge resulting from (a) theft, dishonesty or falsification of any employment or company records; (b) malicious or reckless disclosure of the company's confidential or proprietary information; (c) the commission of any immoral or illegal act or any gross or willful misconduct, where the company reasonably determines that such act or misconduct has: (1) seriously undermined the ability of the company's management to entrust the executive officer with important matters or otherwise work effectively with the executive officer; (2) contributed to the company's loss of significant revenues or business opportunities; or (3) significantly and detrimentally effected the business or reputation of the company or any of its subsidiaries; and/or (d) the failure or refusal to work diligently to perform tasks or achieve goals reasonably requested by the Board of Directors, provided such breach, failure or refusal continues after the receipt of reasonable notice in writing of such failure or refusal and an opportunity to correct the problem.

A "change in control" means (i) an acquisition in one transaction, or a series of related transactions of the company's voting securities, by any individual or entity, immediately after which such person has beneficial ownership of fifty percent (50%) or more of the combined voting power of the company's then outstanding voting securities; (ii) a contested election of directors resulting in a change in composition of at least a majority of the members of the Board of Directors; or (iii) with limited exceptions, the consummation of a merger, consolidation or reorganization involving the Company.

A "constructive termination" means an employee's resignation of employment within 60 days of one or more of the following events which remain uncured 30 days after employee's delivery of written notice thereof, and which resignation is effective not more than 30 days following the expiration of such cure period: (a) a material diminution in employee's authority, duties or responsibilities from those in effect immediately prior to such diminution; (b) a material reduction in employee's base salary in effect immediately prior to such reduction; or (c) a material relocation by the Company of employee's principal office location greater than 40 miles from the Company's headquarters.

Termination Scenario Table

The table below estimates the payments and benefits to each of the named executive officers assuming that on December 31, 2012: (i) a Qualifying Termination occurred, not in connection with a change in control (as defined) or any other merger or consolidation of the Company, (ii) a change in control and Qualifying Termination (“Change in Control Termination”) occurred, (iii) a change in control occurred, or (iv) employment terminated due to death. Not included are the effects of a termination of employment as a result of disability, in which case, except for the April 2010 grant of restricted stock to Mr. Case, all shares of unvested restricted stock held by the executive officer will continue to vest as scheduled, as set forth under the “Outstanding Equity Awards Table as of December 31, 2012” on page 37. The value of Mr. Case’s accelerated vesting upon disability as of December 31, 2012 is \$1,809,450 and is not included in the table. Excluded from the table below are certain benefits provided to all employees, such as accrued vacation, and benefits provided under our other insurance policies. ⁽¹⁾ Amount represents twelve months base salary in the case of a Qualifying Termination and eighteen months base salary in the case of a Change in Control Termination.

⁽²⁾ Amount represents the average of annual bonuses paid based on performance for 2012, 2011 and 2010.

⁽³⁾ Amount represents continuation of group medical insurance coverage at our expense for a period of twelve months in the case of a Qualifying Termination and for eighteen months in the case of a Change in Control Termination.

⁽⁴⁾ Amount represents the aggregate value of the acceleration of vesting of the executive officer’s restricted stock. For purposes of this calculation, each officer’s total restricted stock awards on December 31, 2012 are multiplied by our common stock closing price on December 31, 2012 of \$40.21.

⁽⁵⁾ Amount represents life insurance benefits that would have been paid by a third-party insurance company to the beneficiaries of the named executive officers if they had died on December 31, 2012. This amount is calculated as two times the 2012 base salary of each named executive officer plus \$15,000, up to a maximum amount of \$600,000.

⁽⁶⁾ In the event of a Qualifying Termination that occurs within 18 months following a merger or consolidation of the Company that does not constitute a change in control, the executive officer would also be entitled to accelerated vesting of all outstanding shares of restricted stock (see Footnote 4)

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors of Realty Income Corporation is comprised of independent directors as required by the listing standards of the New York Stock Exchange, or NYSE. The Audit Committee operates pursuant to a written charter, as required by the NYSE and the rules and regulations of the Securities and Exchange Commission, or the SEC, which was adopted by Realty Income's Board of Directors. In 2012, the Audit Committee met six times.

The role of the Audit Committee is to select and engage KPMG LLP, our independent registered public accounting firm, and to oversee Realty Income's financial reporting process on behalf of the Board of Directors. Management of Realty Income has the primary responsibility for the preparation of Realty Income's consolidated financial statements as well as executing Realty Income's financial reporting process, principles and internal controls. The independent registered public accounting firm is responsible for performing an audit of Realty Income's consolidated financial statements and Realty Income's internal controls over financial reporting and expressing an opinion as to the conformity of such consolidated financial statements with U.S. generally accepted accounting principles and expressing an opinion on management's assessment of and the effectiveness of Realty Income's internal controls over financial reporting.

In this context, the Audit Committee has reviewed and discussed with management and KPMG LLP the audit of the consolidated financial statements and the audit of internal controls over financial reporting of Realty Income, as of and for the year ended December 31, 2012. The Audit Committee has discussed with KPMG LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 A.U. section 380), as adopted by the Public Company Oversight Board ("PCAOB") in Rule 3200T. In addition, the Audit Committee has received the written disclosures and the letter from KPMG LLP required by applicable requirements of the PCAOB regarding KPMG LLP's communications with the Audit Committee concerning independence, and it has discussed with the auditors their independence from Realty Income and its management. The Audit Committee has also considered whether KPMG LLP's preparation of tax returns, tax consulting services and other non-audit services to Realty Income is compatible with maintaining KPMG LLP's independence.

Based on the reports and discussions described above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in Realty Income's Annual Report on Form 10-K for the year ended December 31, 2012, for filing with the SEC.

Submitted on March 11, 2013 by the members of the Audit Committee of Realty Income's Board of Directors.

The above report of the Audit Committee will not be deemed to be incorporated by reference into any filing by the Company under the Securities Act of 1933, as amended, or the Exchange Act, except to the extent that Realty Income specifically incorporates the same by reference.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, or collectively, Insiders, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities of Realty Income. Insiders are required by regulation of the SEC to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of copies of Forms 3, 4 and 5, and the amendments thereto, received by the Company for the year ended December 31, 2012, or written representations from certain reporting persons, we believe that during the year ended December 31, 2012, all filing requirements were complied with by our executive officers, directors and beneficial owners of more than ten percent of our stock.

RELATED PARTY TRANSACTIONS

We have adopted a written policy regarding the review, approval and ratification of any related party transaction. Under this policy, the Audit Committee shall review the relevant facts and circumstances of each related party transaction, including whether the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party and the extent of the related party's interest in the transaction, taking into account the conflicts of interest and corporate opportunity provisions of our Code of Business Ethics, and the Audit Committee either approves or disapproves the related party transaction. Any related party transaction shall be consummated and shall continue only if the Audit Committee has approved or ratified such transaction in accordance with the guidelines set forth in the policy. For purposes of our policy, a "Related Party" is: (1) any person who is, or at any time since the beginning of the Company's last fiscal year was, our director or executive officer or a nominee to become our director; (2) any person who is known to be the beneficial owner of more than 5% of any class of our voting securities; (3) any immediate family member of any of the foregoing persons, which means any spouse, child, stepchild, parent, stepparent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law; and (4) any firm, corporation or other entity in which any of the foregoing persons is employed, is a general partner, principal or in a similar position, or in which such person has a 5% or greater beneficial ownership interest.

We had no related party transactions in 2012.

Pre-Approval Policies and Procedures

The Audit Committee’s charter provides that the Audit Committee has the sole authority and responsibility to pre-approve all audit and permitted non-audit services to be provided to us. Pursuant to its charter, the Audit Committee has established pre-approval policies and procedures for permitted non-audit services. The Audit Committee considers each engagement on a case-by-case basis according to certain required criteria, including the skill set necessary for the engagement and that the engagement should not involve work that would result in our registered public accounting firm eventually auditing their own work. The Audit Committee is regularly updated on the status of all outstanding engagements. If we anticipate that the fees for specific engagements may exceed the amount initially approved by the Audit Committee, the Audit Committee will consider proposals to increase the fees for such engagements on a case-by-case basis. The Audit Committee has delegated authority to its chairman to approve certain non-audit engagement fees, provided that the decisions made pursuant to this delegated authority must be presented to the full Audit Committee at its next scheduled meeting. All of the services performed by KPMG LLP in 2012 were approved in advance by the Audit Committee pursuant to the foregoing pre-approval policy and procedures.

This proxy statement contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. When used in this annual report, the words “estimated”, “anticipated”, “expect”, “believe”, “intend” and similar expressions are intended to identify forward-looking statements. HOUSEHOLDING OF PROXY MATERIALS

SEC rules permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as “householding,” potentially means extra convenience for stockholders and cost savings for companies.

A number of banks and brokers with account holders who are our stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. If you have received notice from your bank or broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement and annual report, please notify your bank or broker, direct your written request to Investor Relations, 600 La Terraza Blvd., or contact Investor Relations by telephone at (760) 741-2111. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their bank or broker.

INCORPORATION BY REFERENCE

Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended, or the Exchange Act, which might incorporate future filings made by us under those statutes, neither the preceding Compensation Committee Report nor the Audit Committee Report will be incorporated by reference into any of those prior filings, nor will any such report be incorporated by reference into any future filings made by us under those statutes. In addition, information on our website, other than our proxy statement, Notice of Annual Meeting and form of proxy, is not part of the proxy soliciting material and is not incorporated herein by reference.
